# Investment Process

# Investment Process Leverages Best Practices of KKR and FS

Deep sourcing footprint, disciplined underwriting, and focus on protection downside drives rigorous investment process

## Investment Process

### Origination

- Dedicated ~120 KKR Credit investment professionals source and vet opportunities <sup>(1)</sup>
- Leverage deep expertise across KKR and 150+ sponsor relationships to generate significant deal flow
- Wide funnel allows for increased selectivity, with ~1,250 opportunities evaluated in 2018

### Screening

- Deal team prepares initial investment memo highlighting opportunity
- FS and KKR provide feedback and identify additional diligence items, key risks, and areas of focus

### Underwriting

- “PE-style” due diligence standard – Rigorous, consistent, repeatable underwriting process; focus on documentation and structural protections
- Fundamental credit investment philosophy based on deep credit underwriting and meticulous financial analysis
- Assets receive final approval from both KKR Credit and FSK investment committees

### Monitoring

- KKR’s differentiated Portfolio Monitoring Unit monitors and reports on all assets, providing an analytical and proactive approach to Private Credit portfolio management
- Portfolio re-underwritten and reviewed quarterly by FS and KKR
- Deal team continues to engage borrowers and companies to stay current

Note: For illustrated purposes only  
(1) As of March 31, 2019

# Our Investment Philosophy

FSK utilizes a fundamental investment approach and leverages proprietary resources to seek out long-term capital appreciation and attractive risk-adjusted returns

Note: Portfolio managers may use some or all of the techniques described above or herein. KKR Capstone is not an affiliate or subsidiary of KKR.

# Selective Origination

Wide origination network creates compelling deal flow which enables us to be highly selective in execution of opportunities

- KKR Credit is well resourced to originate, with ~120 dedicated private credit and capital markets professionals
- Given our thorough underwriting process, the transaction rate in our private credit strategies is typically less than 5%

LTM Revenue Growth

LTM Employment Growth

1. Data as of March 31, 2019, from the National Center for the Middle Market. The survey was designed to accurately reflect the nearly 200,000 U.S. businesses with revenues between \$10 million and \$1 billion, the lower and upper limits on annual middle market revenue.

# We Believe FSK is Positioned to Take Advantage of Market Trends

## Unparalleled scale and diversification drive differentiated lending capabilities

- Middle Market sponsors increasingly look for lenders that are able to provide comprehensive, diversified financing solutions
- Scale enables the broader FS / KKR platform to underwrite and hold larger investment sizes

### Companies and Sponsors Continue to Need Capital

# Important Disclosure Notice

---

This presentation may contain certain forward-looking statements, including statements with regard to the future performance of FS KKR Capital Corp. (FSK). Words such as “believes,” “expects,” “projects” and “future” or similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors could cause actual results to differ materially from those projected in these forward-looking statements. Factors that could cause actual results to differ materially include changes in the economy, risks associated with possible disruption in FSK’s operations or the economy due generally to terrorism or natural disasters, future changes in laws or regulations and conditions in FSK’s operating area, and the price at which shares of common stock may trade on the New York Stock Exchange LLC (NYSE). Certain of these factors are enumerated in the filings FSK makes with the Securities and Exchange Commission (SEC). FSK undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

This presentation contains summaries of certain financial and statistical information about FSK. The information contained in this presentation is summary information that is intended to be considered in the context of FSK’s SEC filings and other public announcements that FSK may make, by press release or otherwise, from time to time. FSK undertakes no duty or obligation to update or revise the information contained in this presentation. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. Investors should not view the past performance of FSK, or information about the market, as indicative of FSK’s future results.

This presentation contains certain financial measures that have not been prepared in accordance with U.S. generally accepted accounting principles (GAAP). FSK uses these non-GAAP financial measures internally in analyzing financial results and believes that the presentation of these non-GAAP financial measures is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing FSK’s financial results with other business development companies.

Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with FSK’s consolidated financial statements prepared in accordance with GAAP. A reconciliation of non-GAAP financial measures to the most directly comparable GAAP measures has been provided in the Appendix included in this presentation and investors are encouraged to review the reconciliation in the table and the related footnotes.

Certain figures in this presentation have been rounded.

# Important Information

---

The data and information presented are for informational purposes only. The information contained herein should be treated in a confidential manner and may not be transmitted, reproduced or used in whole or in part for any other purpose, nor may it be disclosed without the prior written consent of KKR Credit. KKR Credit currently conducts its activities through the following advisory entities: KKR Credit Advisors (US) LLC ("KKR Credit Advisors US"), which is authorized and regulated by the SEC, KKR Credit Advisors (Ireland) Unlimited Company, which is authorized and regulated by the Central Bank of Ireland, and KKR Credit Advisors (UK) LLP, which is authorized and regulated by the Financial Conduct Authority. By accepting this material, the Recipient agrees not to distribute or provide this information to any other person and to return it promptly upon request.

Target returns are hypothetical in nature and are shown for illustrative, informational purposes only. This summary is not intended to forecast or predict future events, but rather to indicate the returns for the asset classes indicated herein that KKR Credit has observed in the market generally over the course of an investment cycle. It does not reflect the actual or expected returns of any potential investment of the Fund and does not guarantee future results. The target returns are based upon KKR Credit's view of the potential returns for investments to be made by the Fund, are not meant to predict the returns of the Fund, and are subject to the following assumptions: KKR Credit considers a number of factors, including, for example, observed and historical market returns relevant to the applicable asset class available for investment to the Fund, projected cash flows, relevant other market dynamics (including interest rate and currency markets), anticipated leverage, and liquidity constraints. Certain of the assumptions have been made for modeling purposes and are unlikely to be realized. No representation or warranty is made as to the reasonableness of the assumptions made or that all assumptions used in achieving the returns have been stated or fully considered. Changes in the assumptions may have a material impact on the projected returns presented. Unless otherwise indicated, all data is shown before management fees, incentive fees, applicable expenses, taxes and does not account for the effects of inflation. Management fees, incentive fees and potential expenses are not considered and would reduce returns. Actual results experienced by investors may vary significantly from the target returns shown. Target Returns May Not Materialize.

The information in this presentation may contain projections or other forward-looking statements regarding future events, targets or expectations regarding the Fund (or other KKR Credit funds or accounts) or the strategies described herein. There is no assurance that such events or targets will be achieved, and may be significantly different from that shown here. The information in this presentation, including statements concerning financial market trends, is based on current market conditions, which will fluctuate and may be superseded by subsequent market events or for other reasons. The targeted returns presented herein are hypothetical in nature and are shown for illustrative, informational purposes only. Such targeted returns are not intended to forecast or predict future events, but rather to indicate the returns for investments that KKR Credit expects to seek to achieve on the Fund's overall portfolio of investments.

In addition, such target returns do not reflect the actual or expected returns of any portfolio strategy. Such target returns are based on KKR Credit's belief about the returns that may be achievable on investments that the Strategy intends to pursue in light of the experience of KKR and KKR Credit with similar investments historically, their view of current market conditions, potential investment opportunities that KKR Credit is currently or has recently reviewed, availability of financing and certain assumptions about investing conditions and market fluctuation or recovery. Targeted returns on specific investments are based on models, estimates and assumptions about performance believed to be reasonable under the circumstances. There is no guarantee that the facts on which such assumptions are based will materialize as anticipated, that market conditions will not deteriorate or that investment opportunities satisfying the Strategy's targeted returns will be available. Any changes in such assumptions, market conditions or availability of investments may have a material impact on the target return presented. Actual events and conditions may differ materially from those used to establish target returns. Any target return is hypothetical and is not a guarantee of future performance. Target gross returns for individual investments may be greater or less than the Strategy's overall target gross or net returns. Prospective investors should note that the targeted gross returns do not account for the effects of inflation and do not reflect the management fees, "carried interest," taxes, transaction costs and other expenses that will be borne by investors in the Fund, which will reduce returns and, in the aggregate, are expected to be substantial. Targeted returns are subject to significant economic, market and other uncertainties that may adversely affect the performance of any investments. Prospective investors are encouraged to contact the representatives of KKR Credit to discuss the procedures and methodologies (including assumptions) used to calculate the Fund's targeted returns.

Employees of KKR Credit Advisors (US) LLC, Prisma Capital Partners LP and KKR Capital Markets LLC located in the United States are dual employees of Kohlberg Kravis Roberts & Co. L.P. (together with its affiliates, "KKR").

Participation of KKR Private Equity, KKR Capital Markets and KKR Capstone personnel in the Fund's investment activities is subject to applicable law and inside information barrier policies and procedures, which may limit the involvement of such personnel in certain circumstances and the ability of KKR Credit to leverage such integration with KKR. Discussions with KKR Senior Advisors and employees of KKR's managed portfolio companies are also subject to inside information barrier policies and procedures, which may restrict or limit discussions and/or collaborations with KKR Credit.

General discussions contained within this presentation regarding the market or market conditions represent the view of either the source cited or KKR Credit. Such information is not research and should not be treated as research and is included in order to provide a framework to assist in the implementation of an investor's own analysis and an investor's own views on the topic discussed. Historic market trends are not reliable indicators of actual future market behavior or future performance of any particular investment which may differ materially, and should not be relied upon as such. Nothing contained herein is intended to predict the performance of any investment. There can be no assurance that actual outcomes will match the assumptions or that actual returns will match any expected returns. The information contained herein is as of December 31, 2018, unless otherwise indicated, is subject to change, and KKR Credit assumes no obligation to update the information herein. The delivery of this presentation at any time shall not under any circumstances create an implication that the information contained herein is correct as of any time subsequent to such date. Statements contained herein that are attributable to the investment team, KKR or KKR Credit are not made in any person's individual capacity, but rather on behalf of KKR or KKR Credit, as applicable.

In this presentation, references to "assets under management" or "AUM" represent the assets as to which KKR Credit is entitled to receive a fee or carried interest. KKR Credit's calculation of AUM may differ from the calculations of other asset managers and, as a result, KKR Credit's measurements of its AUM may not be comparable to similar measures presented by other asset managers. KKR Credit's definition of AUM is not based on any definition of AUM that is set forth in the Fund Documents or any KKR Credit products.

References to "assets under management" or "AUM" represent the assets managed by KKR or its strategic partners as to which KKR is entitled to receive a fee or carried interest (either currently or upon deployment of capital) and general partner capital. KKR calculates the amount of AUM as of any date as the sum of: (i) the fair value of the investments of KKR's investment funds; (ii) uncalled capital commitments from these funds, including uncalled capital commitments from which KKR is currently not earning management fees or carried interest; (iii) the fair value of investments in KKR's co-investment vehicles; (iv) the par value of outstanding CLOs (excluding CLOs wholly-owned by KKR); (v) KKR's pro-rata portion of the AUM managed by strategic partnerships in which KKR holds a minority ownership interest and (vi) the fair value of other assets managed by KKR. The pro-rata portion of the AUM managed by strategic partnerships is calculated based on KKR's percentage ownership interest in such entities multiplied by such entity's respective AUM. KKR's calculation of AUM may differ from the calculations of other asset managers and, as a result, KKR's measurements of its AUM may not be comparable to similar measures presented by other asset managers. KKR's definition of AUM is not based on the definitions of AUM that may be set forth in agreements governing the investment funds, vehicles or accounts that it manages and is not calculated pursuant to any regulatory definitions.

References to "KKR Capstone" or "Capstone" are to all or any of KKR Capstone Americas LLC, KKR Capstone EMEA LLP, KKR Capstone EMEA (International) LLP, KKR Capstone Asia Limited, and their affiliates, which are owned and controlled by their senior management. KKR Capstone is not a subsidiary or affiliate of KKR. KKR Capstone operates under several consulting agreements with KKR and uses the "KKR" name under license from KKR. References to operating executives, operating experts, or operating consultants are to employees of KKR Capstone and not to employees of KKR. In this presentation, the impact of initiatives, in which KKR Capstone has been involved, is based on KKR Capstone's internal analysis and information provided by the issuer of the applicable portfolio company. Impacts of such initiatives are estimates that have not been verified by a third party and are not based on any established standards or protocols. They may also reflect the influence of external factors, such as macroeconomic or industry trends, that are unrelated to the initiative presented.

References in this presentation to "Gross IRR" are to the internal rate of return or multiple of invested capital, respectively, calculated at investment level, and thus do not take into consideration the payment of applicable management fees, carried interest, transaction costs, borrowing costs and other expenses borne by the relevant KKR investment, which will have a material impact on returns. In the case of unrealized investments, the gross returns are based on internal valuations by KKR of unrealized investments as of the applicable date. The actual realized returns on such unrealized investments will depend on, among other factors, future operating results, the value of the assets, and market conditions at the time of disposition, any related transaction costs, and the timing and manner of sale, all of which may differ from the assumptions on which the valuations used in the prior performance data contained herein are based. Accordingly, the actual realized return of these unrealized investments may differ materially from the returns indicated herein.

References to "Net IRR" are to the internal rate of return calculated at fund level, after payment of applicable management fees, organizational expenses and carried interest but do not reflect transaction costs that would be incurred in connection with the disposition of unrealized investments if realized. Internal rates of return are computed on a "dollar-weighted" basis, which takes into account the timing of cash flows, the amounts invested at any given time, and unrealized values as of the relevant valuation date. Multiples of invested capital referred to in this presentation have been calculated based on figures for the cost and total value of KKR fund investments that have been rounded to the nearest \$100,000. It should be noted that each of KKR Lending Partners L.P. ("KKRLP I") and KKR Lending Partners II L.P. ("KKRLP II") utilizes an asset line credit facility primarily for purposes of long term financing of investments. The performance information with respect to KKRLP I and KKRLP II contained herein reflects the positive impact of such leverage. In this regard, prospective investors should note that the Fund's performance is expected to be lower to the extent that the Fund does not utilize a similar leverage strategy or is unable to obtain similar financing arrangements. Moreover, the management fee terms for the Fund are expected to be different than those of KKRLP I. Accordingly, the differential between gross performance and net performance of the Fund may be materially different from KKRLP I.

The indices referenced herein are broad-based securities market indices and used for illustrative purposes only. They have been selected because they are well known and easily recognizable. Broad-based securities indices are unmanaged and are not subject to fees and expenses typically associated with managed accounts or investment funds. Investments cannot be made directly into an index. The performance of the indices represents unmanaged, passive buy-and-hold strategies, investment characteristics and risk/return profiles that differ materially from managed accounts or investment funds, and an investment in a managed account or investment fund is not comparable to an investment in such index or in the securities that comprise the index. KKRLP I and KKRLP II have employed, and the Fund may employ leverage, whereas the indices are unleveraged. Investments of the Fund may be illiquid, making, at times, fair market valuation impossible or impracticable. As a result, valuation of the Fund may be volatile, reducing the utility of comparison to any index whose underlying securities are priced according to market value, such as the indices. Investors should be aware that the Fund may incur losses both when major indices are rising and when they are falling.

The statistical data included in this presentation regarding the indices has been obtained from sources believed to be reliable. The market index returns assume that on the day a portfolio investment is made, a hypothetical investment in a matching amount is made in the index. For each date on which either a portion or all of the portfolio investment is sold, a hypothetical index multiple (factor) is calculated by comparing the change in index value between the two dates. The cost of the investment sold (or portion of cost sold) is multiplied by this factor, resulting in a hypothetical index value. The return is calculated using these dates of investment and hypothetical value(s) generated. Index returns assume reinvestment of dividends and do not reflect any fees or expenses associated with a private fund. The indices are presented for comparison purposes only and should not be relied upon. All index performance is dated as of the date indicated herein. The index is presented for comparison purposes only and should not be relied upon. All index performance is dated as of the date indicated herein.

- The S&P LSTA US Leveraged Loan Index is a daily tradable index for the U.S. loan market that seeks to mirror the market-weighted performance of the largest institutional loans that meet the inclusion criteria and that have marks from the LSTA/LPC mark-to-market service. The inclusion criteria consist of the following: i) syndicated term loan instruments consisting of term loans (both amortizing and institutional), acquisition loans (after they are drawn down) and bridge loans; ii) secured; iii) U.S. dollar denominated; iv) minimum term of one year at inception; and v) minimum initial spread of LIBOR plus 1.25%.
- The Barclays Aggregate Bond Index is a broad-based benchmark that measures the investment grade, fixed-rate bond market, such as Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM passthroughs), ABS, and CMBS.

The performance shown herein is not the performance of the Fund and is not an indication of how the Fund would have performed in the past or will perform in the future. The Fund's performance in the future will be different from the performance shown due to factors including, but not limited to, differences in cash flows, expenses, performance calculation methods, and portfolio sizes and composition. The performance presented reflects the performance of all investments made or committed to under KKRLP I and KKRLP II utilizing a strategy substantially similar to that which will be utilized for the Fund. Characteristics and other information regarding KKRLP I and KKRLP II are not characteristics of the Fund and are not an indication of how the Fund would have performed in the past or will perform in the future. While the Fund will utilize a strategy substantially similar to that of KKRLP I and KKRLP II, the Fund's characteristics may be different from the characteristics of KKRLP I and KKRLP II due to factors including, but not limited to, portfolio size and composition. KKR believes, however, such characteristics to be relevant to investors considering an investment in the Fund to show the portfolio managers' experience implementing, and historical characteristics of, the Fund's anticipated investment strategy. Further, the investment performance of KKRLP I and KKRLP II is not representative of all originated senior debt investments made, sold or recommended by KKR. It should be noted that other investment vehicles and proprietary accounts of KKR have made originated senior debt and other investments that may have been appropriate for the Fund and are not presented herein.
