### FS Investment Corporation Reports Second Quarter 2014 Financial Results

PHILADELPHIA, PA, August 15, 2014 – FS Investment Corporation (NYSE: FSIC), a publicly traded business development company focused on providing customized credit solutions to private middle market U.S. companies, announced its operating results on August 14, 2014 for the quarter ended June 30, 2014. As previously disclosed, FSIC will hold a conference call to discuss these results at 9:00 a.m., Eastern Time, on Monday, August 18, 2014. Information for those interested in participating in the call can be found below.

#### Financial Highlights for the Quarter Ended June 30, 2014<sup>1</sup>

- Net earnings of \$0.27 per share for the quarter ended June 30, 2014, compared to \$0.18 per share for the quarter ended June 30, 2013
- Net investment income of \$0.23 per share for the quarter ended June 30, 2014, compared to \$0.29 per share for the quarter ended June 30, 2013
- Excluding the accrual for capital gains incentive fees and one-time costs associated with the public listing, adjusted net investment income of \$0.26 per share for the quarter ended June 30, 2014, compared to \$0.27 per share for the quarter ended June 30, 2013<sup>2</sup>
- Total net realized and unrealized gain on investments of \$0.04 per share for the quarter ended June 30, 2014, compared to a loss of \$0.11 per share for the quarter ended June 30, 2013
- New investments totaled \$737.7 million for the three months ended June 30, 2014
- Paid regular cash distributions to stockholders totaling \$0.2228 per share during the quarter ended June 30, 2014<sup>3</sup>

“FSIC’s direct lending platform delivered strong investment opportunities during the second quarter. New direct originations totaled approximately \$530 million last quarter, with first-lien senior secured loans accounting for over 76% of those investments,” said Michael C. Forman, Chairman and Chief Executive Officer of FSIC. “We look forward to continuing to rotate the portfolio into these higher yielding opportunities in order to further optimize the portfolio to create value for our stockholders.”

## Reconciliation of Non-GAAP Financial Measures<sup>1</sup>

	Three Months Ended		
	June 30, 2014	March 31, 2014	June 30, 2013
GAAP net investment income per share	\$ 0.23	\$ 0.22	\$ 0.29
Plus capital gains incentive fees per share	\$ 0.01	\$ 0.02	\$ (0.02)
Plus excise taxes per share	—	—	—
Plus one-time expenses per share <sup>7</sup>	\$ 0.02	—	—
Adjusted net investment income per share <sup>2</sup>	\$ 0.26	\$ 0.23	\$ 0.27

1) The per share data was derived by using the weighted average shares of FSIC's common stock outstanding during the applicable period. Per share numbers may not sum due to rounding.

2) Adjusted net investment income is a non-GAAP financial measure. Adjusted net investment income is presented for all periods as GAAP net investment income excluding (i) the accrual for the capital gains incentive fee for realized and unrealized gains; (ii) excise taxes; and (iii) certain non-recurring results and trends and in comparing its financial results with other business development companies. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. Reconciliations of GAAP and Adjusted Net Investment Income are presented in the accompanying financial statements.

3) The per share data for distributions reflects the actual amount of distributions paid per share of FSIC's common stock during the applicable period.

4) The weighted average credit rating of investments is the weighted average credit rating of the investments in FSIC's portfolio that were rated, based upon the scale of Moody's Investors Service, Inc. As of June 30, 2014, approximately 29.7% of FSIC's portfolio (based on the fair value of investments) had a credit rating of BBB or better.

5) Interest income is recorded on an accrual basis. Generally, investments are placed on non-accrual when the collection of future interest and principal payments is uncertain.

6) FSIC has identified and intend to focus on the following investment categories, which it believes will allow it to generate an attractive total return with an acceptable level of risk.

*Direct Originations:* FSIC intends to leverage its relationship with GSO / Blackstone Debt Funds Management LLC and its global sourcing and origination platform to directly source investment opportunities. Such investments are originated or structured specifically for FSIC or made by FSIC.

*Opportunistic:* FSIC intends to seek to capitalize on market price inefficiencies by investing in loans, bonds and other securities where the market price of such investment reflects a lower value than deemed warranted by its fundamental analysis. FSIC believes that market price inefficiencies exist in certain securities. Such opportunities may include event driven investments, anchor orders and collateralized securities.

*Broadly Syndicated/Other:* Although FSIC's primary focus is to invest in directly originated transactions and opportunistic investments, in certain circumstances it will also invest in the broadly syndicated loan and high yield markets. Broadly syndicated loans and bonds are generally more liquid than other fixed income investments.

7) FSIC's one-time expenses for the three and six months ended June 30, 2014 were \$5.6 million. During the three and six months ended June 30, 2014, FSIC incurred expenses of \$7.0 million in connection with the listing of its shares on the NYSE, including listing advisory fees of \$5,043 and other expenses of \$1,957.

## Recent Developments

- **Paid a special cash distribution of \$0.10 per share on August 15, 2014 and intends to pay a second \$0.10 distribution per share on or about November 14, 2014 to stockholders of record as of October 31, 2014**
- **Since the close of the second quarter through August 11, 2014, FSIC has closed on over \$50 million of direct originations**
- **FSIC expects total third quarter direct originations to exceed \$200 million**

#### **Conference Call Information**

#### **About FS Investment Corporation**

FS Investment Corporation (NYSE: FSIC) is a publicly traded business development company (BDC) focused on providing customized credit solutions to private middle market U.S. companies. FSIC seeks to invest primarily in the senior secured debt and, to a lesser extent, the subordinated debt of private middle market companies to achieve the best risk-adjusted returns for its investors. In connection with its debt investments, FSIC may receive equity interests such as warrants or options.

FSIC is advised by FB Income Advisor, LLC, an affiliate of Franklin Square Capital Partners ("Franklin Square"), and is sub-advised by GSO / Blackstone Debt Funds Management LLC, an affiliate of GSO Capital Partners. GSO, with approximately \$69.5 billion in assets under management as of June 30, 2014, is the credit platform of Blackstone, one of the world's leading managers of alternative investments. For more information, please visit [www.fsinvestmentcorp.com](http://www.fsinvestmentcorp.com).

#### **About Franklin Square**

Franklin Square is a leading manager of alternative investment funds designed to enhance investors' portfolios by providing access to asset classes, strategies and asset managers that typically have been available to only the largest institutional investors. The firm's funds offer "endowment-style" investment strategies that help construct diversified portfolios and manage risk. Franklin Square strives not only to maximize investment returns but also to set the industry standard for best practices by focusing on transparency, investor protection and education for investment professionals and their clients.

Founded in Philadelphia in 2007, Franklin Square quickly established itself as a leader in the world of alternative investments by introducing innovative credit-based income funds, including the industry's first non-traded BDC. The firm managed approximately \$12.4 billion in assets as of June 30, 2014. For more information, please visit [www.franklinsquare.com](http://www.franklinsquare.com).

#### **Other Information**

The information in this press release is summary information only and should be read in conjunction with FSIC's quarterly report on Form 10-Q for the quarterly period ended June 30, 2014, which FSIC filed with the Securities and Exchange Commission (the "SEC") on August 14, 2014, as well as FSIC's other reports filed with the SEC. A copy of FSIC's quarterly report on Form 10-Q for the quarterly period ended June 30, 2014 and FSIC's other reports filed with the SEC can be found on FSIC's website at [www.fsinvestmentcorp.com](http://www.fsinvestmentcorp.com) and the SEC's website at [www.sec.gov](http://www.sec.gov).

#### **Certain Information About Distributions**

The determination of the tax attributes of FSIC's distributions is made annually as of the end of its fiscal year based upon its taxable income and distributions paid, in each case, for the full year. Therefore, a determination as to the tax attributes of the distributions made on a quarterly basis may not be representative of the actual tax attributes for a full year. FSIC intends to update stockholders quarterly with an estimated percentage of its distributions that resulted from taxable ordinary income. The actual tax characteristics of distributions to stockholders will be reported to stockholders annually on Form 1099-DIV.

---

The payment of future distributions on FSIC's shares of common stock, including the special distribution referenced herein, is subject to the discretion of its board of directors and applicable legal restrictions, and therefore, there can be no assurance as to the amount or timing of any such future distributions.

FSIC may fund its cash distributions to stockholders from any sources of funds available to it, including expense reimbursements from Franklin Square, as well as offering proceeds, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets and dividends or other distributions paid to it on account of preferred and common equity investments in portfolio companies. FSIC has not established limits on the amount of funds it may use from available sources to make distributions. There can be no assurance that FSIC will be able to pay distributions at a specific rate or at all.

**Important Disclosure Notice**

This announcement may contain certain forward-looking statements, including statements with regard to future events or the future performance or operations of FSIC. Words such as "believes," "expects," "projects," and "future" or similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors could cause actual results to differ materially from those projected in these forward-looking statements. Factors that could cause actual results to differ materially include changes in the economy, risks associated with possible disruption in FSIC's operations or the economy due generally to terrorism or natural disasters, future changes in laws or regulations and conditions in FSIC's operating area, and the price at which shares of common stock trade on the New York Stock Exchange. Some of these factors are enumerated in the filings FSIC makes with the SEC. FSIC undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The press release above contains summaries of certain financial and statistical information about FSIC. The information contained in this press release is summary information that is intended to be considered in the context of FSIC's SEC filings and other public announcements that FSIC may make, by press release or otherwise, from time to time. FSIC undertakes no duty or obligation to publicly update or revise the information contained in this press release. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. Investors should not view the past performance of FSIC, or information about the market, as indicative of FSIC's future results.

**Non-GAAP Financial Measures**

This press release contains certain financial measures that have not been prepared in accordance with generally accepted accounting principles in the United States (GAAP). FSIC uses these non-GAAP financial measures internally in analyzing financial results and believes that the use of these non-GAAP financial measures is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing FSIC's financial results with other business development companies.

Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with FSIC's consolidated financial statements prepared in accordance with GAAP. A reconciliation of non-GAAP financial measures to the most directly comparable GAAP measures has been provided in this press release, and investors are encouraged to review the reconciliation.

- 1) The per share data was derived by using the weighted average shares of our common stock outstanding during the applicable period. Per share numbers may not sum due to rounding.
- 2) Adjusted net investment income is a non-GAAP financial measure. We present adjusted net investment income for all periods as GAAP net investment income excluding (i) the accrual for the capital gains incentive fee for realized and unrealized gains; (ii) excise taxes; and (iii) certain non-recurring operating expenses that are one-time in nature and are not representative of ongoing operating expenses incurred during FSIC's normal course of business (referred to herein as one-time expenses). We use this non-GAAP financial measure internally in analyzing financial results and believe that the use of this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing our financial results with other business development companies. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. Reconciliations of GAAP net investment income to adjusted net investment income can be found on page 15 of this presentation.
- 3) The per share data for distributions reflects the actual amount of distributions paid per share of our common stock during the applicable period.
- 4) The weighted average credit rating of investments is the weighted average credit rating of the investments in our portfolio that were rated, based upon the scale of Moody's Investors Service, Inc. As of June 30, 2014, approximately 29.7% of our portfolio (based on the fair value of our investments) was rated.
- 5) We record interest income on an accrual basis. Generally, investments are placed on non-accrual when the collection of future interest and principal payments is uncertain.
- 6) We have identified and intend to focus on the following investment categories, which we believe will allow us to generate an attractive total return with an acceptable level of risk.

*Direct Originations:* We intend to leverage our relationship with GSO / Blackstone Debt Funds Management LLC and its global sourcing and origination platform to directly source investment opportunities. Such investments are originated or structured for us or made by us and are not generally available to the broader market. These investments may include both debt and equity components, although we do not expect to make equity investments independent of having an existing credit relationship. We believe directly originated investments may offer higher returns and more favorable protections than broadly syndicated transactions.

*Opportunistic:* We intend to seek to capitalize on market price inefficiencies by investing in loans, bonds and other securities where the market price of such investment reflects a lower value than deemed warranted by our fundamental analysis. We believe that market price inefficiencies may occur due to, among other things, general dislocations in the markets, a misunderstanding by the market of a particular company or an industry being out of favor with the broader investment community. We seek to allocate capital to these securities that have been misunderstood or mispriced by the market and where we believe there is an opportunity to earn an attractive return on our investment. Such opportunities may include event driven investments, anchor orders and collateralized securities.

*Broadly Syndicated/Other:* Although our primary focus is to invest in directly originated transactions and opportunistic investments, in certain circumstances we will also invest in the broadly syndicated loan and high yield markets. Broadly syndicated loans and bonds are generally more liquid than our directly originated investments and provide a complement to our less liquid strategies. In addition, and because we typically receive more attractive financing terms on these positions than we do on our less liquid assets, we are able to leverage the broadly syndicated portion of our portfolio in such a way that maximizes the levered return potential of our portfolio.

## End Notes (Cont'd)

- 7) Pursuant to the investment advisory agreements then in effect, FB Income Advisor, LLC, FSIC's investment adviser ("FB Advisor") was entitled to an annual base management fee of 2.0% of the average value of FSIC's gross assets during the three and six months ended June 30, 2014. Effective April 1, 2014, FB Advisor agreed to waive a portion of the base management fee so that the fee it received equaled 1.75% of the average value of FSIC's gross assets pending stockholder approval of a proposal to amend the investment advisory agreement. For more information regarding the proposal, see Note 4 to FSIC's unaudited consolidated financial statements for the quarterly period ended June 30, 2014. For the three and six months ended June 30, 2014, FSIC accrued base management fees, net of waivers, of \$19,858 and \$42,229, respectively.
- 8) During the three months ended June 30, 2014, FSIC accrued capital gains incentive fees of \$2,268 based on the performance of its portfolio. During the six months ended June 30, 2014, FSIC accrued capital gains incentive fees of \$7,104 based on the performance of its portfolio, of which \$1,140 was based on unrealized gains and \$5,964 was based on realized gains. No capital gains incentive fees are actually payable by FSIC with respect to unrealized gains unless and until those gains are actually realized. FSIC paid FB Advisor \$1,590 in capital gains incentive fees during the six months ended June 30, 2014.
- 9) On July 14, 2014, FSIC and U.S. Bank National Association entered into an indenture and a first supplemental indenture relating to FSIC's issuance of \$400,000 aggregate principal amount of 4.000% notes due 2019. The notes mature on July 15, 2019 and may be redeemed in whole or in part at FSIC's option at any time or from time to time at the redemption price set forth in the indenture. The notes bear interest at a rate of 4.000% per year payable semi-annually on January 15 and July 15 of each year, commencing on January 15, 2015. The notes are general unsecured obligations of FSIC that rank senior in right of payment to all of FSIC's existing and future indebtedness that is expressly subordinated in right of payment to the notes and rank *pari passu* with all outstanding and future unsecured unsubordinated indebtedness issued by FSIC. The net proceeds to FSIC from the offering were approximately \$394,392 before expenses, after deducting underwriting discounts and commissions of \$3,600. On July 14, 2014, FSIC used \$350,000 of the net proceeds from the notes offering to repay the Arch Street credit facility in full and \$44,392 of the net proceeds to repay borrowings under the Broad Street credit facility. For more information regarding the notes, see Note 11 to FSIC's unaudited consolidated financial statements for the quarterly period ended June 30, 2014.
- 10) The debt/equity ratio is the ratio of total debt outstanding to stockholder's equity as of the applicable date.
- 11) To date, no portion of any distributions paid to stockholders have been paid from offering proceeds or borrowings. A portion of future distributions to stockholders may be deemed to constitute a return of capital for tax purposes due to the character of the amounts received by FSIC from portfolio companies. Any such return of capital will not reduce the amounts available for investments. The payment of future distributions on FSIC's shares of common stock is not guaranteed and is subject to FSIC's performance, the discretion of FSIC's board of directors and applicable legal restrictions, and therefore there can be no assurance as to the amount or timing of any such future distributions.
- 12) Based on the investment rating system as described in FSIC's quarterly report on Form 10-Q for the period ended June 30, 2014, under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations — Portfolio Asset Quality."
- 13) FSIC's one-time expenses for the three and six months ended June 30, 2014 were \$5,600. During the three and six months ended June 30, 2014, FSIC incurred expenses of \$7,000 in connection with the listing of its shares on the NYSE, including listing advisory fees of \$5,043 and other legal, printing and marketing expenses. These listing expenses were partially offset by a \$1,400 reduction in FSIC's subordinated incentive fee on income due to the reduction in pre-incentive fee net investment income associated with the listing expenses. FSIC's one-time expenses of \$5,600 reflect listing expenses of \$7,000 net of the \$1,400 adjustment to FSIC's subordinated incentive fee on income.
