Note 1. Principal Business and Organization

FS Investment Corporation (NYSE: FSIC), or the Company, was incorporated under the general corporation laws of the State of Maryland on December 21, 2007 and formally commenced investment operations on January 2, 2009. The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, the Company has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a regulated investment company, or RIC, as defined under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. As of March 31, 2015, the Company had four wholly-owned financing subsidiaries and three wholly-owned subsidiaries through which it holds equity interests in non-controlled portfolio companies. The consolidated financial statements include both the Company's accounts and the accounts of its wholly-owned subsidiaries as of March 31, 2015. All significant intercompany transactions have been eliminated in consolidation.

The Company's investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation by investing primarily in senior secured loans and second lien secured loans of private U.S. companies. The Company seeks to generate superior risk-adjusted returns by focusing on debt investments in a broad array of private U.S. companies, including middle market companies, which the Company defines as companies with annual revenues of \$50 million to \$2.5 billion at the time of investment. The Company may purchase interests in loans or make other debt investments, including investments in senior secured bonds, through secondary market transactions in the "over-the-counter" market or directly from the Company's target companies as primary market or directly originated investments. In connection with the Company's debt investments, the Company may on occasion receive equity interests such as warrants or options as additional consideration. The Company may also purchase minority interests in the form of common or preferred equity or the equity-related securities in the Company's target companies, generally in conjunction with one of the Company's debt investments or through a co-investment with a financial sponsor, such as an institutional investor or private equity firm. In addition, a portion of the Company's portfolio may be comprised of corporate bonds, collateralized loan obligations, or CLOs, other debt securities and derivatives, including total return swaps and credit default swaps.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP, for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For a more complete discussion of significant accounting policies and certain other information, the Company's interim unaudited consolidated financial statements should be read in conjunction with its audited consolidated financial statements as of and for the year ended December 31, 2014 included in the Company's annual report on Form 10-K for the year ended December 31, 2014. Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. The December 31, 2014 consolidated balance sheet and consolidated schedule of investments are derived from the Company's audited consolidated financial statements as of and for the year ended December 31, 2014. The Company is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies. The Company has evaluated the impact of subsequent events through the date the consolidated financial statements were issued and filed with the U.S. Securities and Exchange Commission, or the SEC.

Note 2. Summary of Significant Accounting Policies (continued)

Use of Estimates: The preparation of the unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Many of the amounts have been rounded, and all amounts are in thousands, except share and per share amounts.

Capital Gains Incentive Fee: At the Company's 2013 annual meeting of stockholders, the Company received stockholder approval to amend and restate the investment advisory and administrative services agreement, dated February 12, 2008 (as amended on August 5, 2008), or the 2008 investment advisory and administrative services agreement, by and between the Company and FB Income Advisor, LLC, or FB Advisor, effective upon a listing of the Company's shares of common stock on a national securities exchange. The Company's shares of common stock were listed and commenced trading on the New York Stock Exchange, or the NYSE, on April 16, 2014. On April 16, 2014, the Company entered into an amended and restated investment advisory agreement, or the April 2014 investment advisory agreement, with FB Advisor. Also on April 16, 2014, the Company entered into an administration agreement with FB Advisor, or the administration agreement, which governs the administrative services provided to the Company by FB Advisor that had previously been addressed in the 2008 investment advisory and administrative services agreement.

At a special meeting of stockholders of the Company that was adjourned on June 23, 2014 and reconvened on July 17, 2014, the Company received stockholder approval to amend and restate the April 2014 investment advisory agreement. On July 17, 2014, the Company entered into an amended and restated investment advisory agreement, or the July 2014 investment advisory agreement, with FB Advisor.

Pursuant to the terms of each of the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, the incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of such agreement). Such fee will equal 20.0% of the Company's incentive fee capital gains (i.e., the Company's realized capital gains on a cumulative basis from inception, calculated as of the end of the applicable period, net of all realized capital losses and unrealized capital depreciation on a cumulative basis), less the aggregate amount of any previously paid capital gains incentive fees. On a quarterly basis, the Company accrues for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.

While none of the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement or the July 2014 investment advisory agreement include or contemplate the inclusion of unrealized gains in the calculation of the capital gains incentive fee, pursuant to an interpretation of an American Institute of Certified Public Accountants, or AICPA, Technical Practice Aid for investment companies, commencing during the quarter ended December 31, 2010, the Company changed its methodology for accruing for this incentive fee to include unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to FB Advisor if the Company's entire portfolio was liquidated at its fair value as of the balance sheet date even though FB Advisor is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.

Subordinated Income Incentive Fee: Pursuant to the terms of each of the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement and the July 2014 investment

Note 2. Summary of Significant Accounting Policies (continued)

advisory agreement, FB Advisor may also be entitled to receive a subordinated incentive fee on income. The subordinated incentive fee on income under the 2008 investment advisory and administrative services agreement, which was calculated and payable quarterly in arrears, equaled 20.0% of the Company's "pre-incentive fee net investment income" for the immediately preceding quarter and was subject to a hurdle rate, expressed as a rate of return on adjusted capital, as defined in the 2008 investment advisory and administrative services agreement, equal to 2.0% per quarter, or an annualized hurdle rate of 8.0%. As a result, FB Advisor did not earn this incentive fee for any quarter until the Company's pre-incentive fee net investment income for such quarter exceeded the hurdle rate of 2.0%. Once the Company's pre-incentive fee net investment income in any quarter exceeded the hurdle rate, FB Advisor was entitled to a "catch-up" fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until the Company's pre-incentive fee net investment income for such quarter equaled 2.5%, or 10.0% annually, of adjusted capital. Thereafter, FB Advisor received 20.0% of pre-incentive fee net investment income. Under the April 2014 investment advisory agreement, the subordinated incentive fee on income was calculated in the same manner, except that the hurdle rate used to compute the subordinated incentive fee on income was based on the value of the Company's net assets rather than adjusted capital.

Under the July 2014 investment advisory agreement, the hurdle rate, expressed as a rate of return on the value of the Company's net assets, was reduced from 2.0% to 1.875% per quarter, or an annualized hurdle rate of 7.5%. As a result, FB Advisor will not earn this incentive fee for any quarter until the Company's pre-incentive fee net investment income for such quarter exceeds the hurdle rate of 1.875%. Once the Company's pre-incentive fee net investment income in any quarter exceeds the hurdle rate, FB Advisor will be entitled to a "catch-up" fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until the Company's pre-incentive fee net investment income for such quarter equals 2.34375%, or 9.375% annually, of net assets. Thereafter, FB Advisor will be entitled to receive 20.0% of pre-incentive fee net investment income.

Under both the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, the subordinated incentive fee on income is subject to a total return requirement, which provides that no incentive fee in respect of the Company's pre-incentive fee net investment income will be payable except to the extent that 20.0% of the cumulative net increase in net assets resulting from operations over the then-current and eleven preceding calendar quarters exceeds the cumulative incentive fees accrued and/or paid for the eleven preceding calendar quarters. Accordingly, any subordinated incentive fee on income that is payable in a calendar quarter will be limited to the lesser of (i) 20.0% of the amount by which the Company's pre-incentive fee net investment income for such calendar quarter exceeds the applicable quarterly hurdle rate, subject to the "catch-up" provision, and (ii) (x) 20.0% of the cumulative net increase in net assets resulting from operations for the then-current and eleven preceding calendar quarters *minus* (y) the cumulative incentive fees accrued and/or paid for the eleven preceding calendar quarters. For the foregoing purpose, the "cumulative net increase in net assets resulting from operations" is the sum of pre-incentive fee net investment income, base management fees, realized gains and losses and unrealized appreciation and depreciation of the Company for the then-current and eleven preceding calendar quarters. There will be no accumulation of amounts on the hurdle rate from quarter to quarter and, accordingly, there will be no clawback of amounts previously paid if subsequent quarters are below the applicable quarterly hurdle rate and there will be no delay of payment if prior quarters are below the applicable quarterly hurdle rate.

Reclassifications: Certain amounts in the unaudited consolidated financial statements for the three months ended March 31, 2014 and the audited consolidated financial statements for the year ended December 31, 2014 may have been reclassified to conform to the classifications used to prepare the unaudited consolidated financial statements for the three months ended March 31, 2015. These reclassifications had no material impact on the Company's consolidated financial position, results of operations or cash flows as previously reported.

Note 3. Share Transactions

Below is a summary of transactions with respect to shares of the Company's common stock during the three months ended March 31, 2015 and 2014:

	Three Months Ended March 31,			
	2015		2014	
	Shares	Amount	Shares	Amount
Reinvestment of Distributions	204,783	\$ 2,006	2,854,659	\$ 29,257
Share Repurchase Program	—	—	(872,865)	(8,903)
Net Proceeds from Share Transactions	204,783	\$ 2,006	1,981,794	\$ 20,354

In connection with the listing of its shares of common stock on the NYSE, the Company terminated its previous distribution reinvestment plan, or the old DRP. The final distribution reinvestment under the old DRP was made in connection with the regular monthly cash distribution paid on March 31, 2014 to stockholders of record as of the close of business on March 28, 2014. On May 23, 2014, the Company adopted a new distribution reinvestment plan, or the new DRP, which became effective on June 2, 2014. The new DRP was first implemented in connection with the regular monthly cash distribution paid on July 2, 2014 to stockholders of record as of the close of business on June 24, 2014. During the three months ended March 31, 2015 and 2014, the Company issued 204,783 and 2,854,659 shares of common stock pursuant to its distribution reinvestment plan in effect on the applicable date of issuance for gross proceeds of \$2,006 and \$29,257 at an average price per share of \$9.79 and \$10.25, respectively. During the period from April 1, 2015 to May 8, 2015, the Company issued 601,284 shares of common stock pursuant to the new DRP for gross proceeds of \$5,965 at an average price per share of \$9.92. For additional information regarding the terms of the new DRP, see Note 5.

Listing and Fractional Shares

The Company's shares of common stock were listed and commenced trading on the NYSE on April 16, 2014. The Company eliminated any outstanding fractional shares of its common stock in connection with the listing, as permitted by the Maryland General Corporation Law. The Company eliminated all outstanding fractional shares by rounding up the number of fractional shares held by each of the Company's stockholders to the nearest whole number of shares as of April 4, 2014. As a result of the fractional share round up, the number of then outstanding shares was increased by 30,533 shares.

Share Repurchase Program

Historically, the Company conducted quarterly tender offers pursuant to its former share repurchase program to provide limited liquidity to its stockholders. In anticipation of the listing of the Company's shares of common stock on the NYSE, the Company's board of directors terminated its share repurchase program effective March 21, 2014. The listing has provided liquidity to the Company's stockholders, and therefore the Company does not expect to implement a new share repurchase program in the future.

Listing Tender Offer

On April 16, 2014, the Company commenced a modified “Dutch auction” tender offer, or the listing tender offer, to purchase for cash up to \$250,000 in value of the Company’s shares of common stock from stockholders. In accordance with the terms of the listing tender offer, the Company selected the lowest price, not greater than \$11.00 per share or less than \$10.35 per share, net to the tendering stockholder in cash, less any applicable withholding taxes and without interest, that enabled the Company to purchase the maximum number of shares of common stock properly tendered in the listing tender offer and not properly withdrawn having an aggregate purchase price of up to \$250,000.

The listing tender offer expired on May 28, 2014. Due to the oversubscription of the listing tender offer, on June 4, 2014, the Company accepted for purchase on a pro rata basis 23,255,813 shares of common stock, or approximately 96.6% of the shares tendered at a purchase price of \$10.75 per share, for an aggregate cost of approximately \$250,000, excluding fees and expenses relating to the listing tender offer. The 23,255,813 shares of common stock accepted for purchase in the listing tender offer represented approximately 8.9% of the Company’s issued and outstanding shares of common stock as of June 4, 2014. The Company used available cash and borrowings under its senior secured revolving credit facility with ING Capital LLC, or ING, as administrative agent, and the lenders party thereto, or the ING credit facility, to fund the purchase of shares of common stock in the listing tender offer and to pay for all related fees and expenses.

Note 4. Related Party Transactions*Compensation of the Investment Adviser*

Pursuant to the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, FB Advisor is entitled to an annual base management fee based on the average value of the Company’s gross assets and an incentive fee based on the Company’s performance. The Company commenced accruing fees under the 2008 investment advisory and administrative services agreement on January 2, 2009, upon commencement of the Company’s investment operations. Base management fees are paid on a quarterly basis in arrears. The annual base management fees under the 2008 investment advisory and administrative services agreement and the April 2014 investment advisory agreement were equal to 2.0% of the average value of the Company’s gross assets.

In anticipation of the listing of the Company’s shares of common stock on the NYSE, FB Advisor recommended that the April 2014 investment advisory agreement be further amended to (i) reduce the annualized

hurdle rate used in connection with the calculation of the subordinated incentive fee on income, expressed as a rate of return on the Company's net assets, from 8% to 7.5% and (ii) assuming the reduction to the hurdle rate was approved, reduce the base management fee from 2.0% to 1.75% of the average value of the Company's gross assets. At a special meeting of stockholders that was adjourned on June 23, 2014 and reconvened on July 17, 2014, the Company received stockholder approval to amend and restate the April 2014 investment advisory agreement to reflect the amendments approved by the Company's stockholders. On July 17, 2014, the Company entered into the July 2014 investment advisory agreement. While stockholder approval of the proposal was pending, FB Advisor agreed, effective April 1, 2014, to waive a portion of the base management fee to which it was entitled under the April 2014 investment advisory agreement so that the fee received equaled 1.75% of the average value of the Company's gross assets.

The incentive fee, which had consisted of three parts under the 2008 investment advisory and administrative services agreement, consists of two parts under each of the April 2014 advisory agreement and July 2014 investment advisory agreement. The first part of the incentive fee, which is referred to as the subordinated incentive fee on income, is calculated and payable quarterly in arrears, and equals 20.0% of the Company's "pre-incentive fee net investment income" for the immediately preceding quarter. Under the 2008 investment advisory and administrative services agreement, the subordinated incentive fee on income was subject to a hurdle rate, expressed as a rate of return on adjusted capital, as defined in the 2008 investment advisory and administrative services agreement, equal to 2.0% per quarter, or an annualized hurdle rate of 8.0%. As a result, FB Advisor did not earn this incentive fee for any quarter until the Company's pre-incentive fee net investment income for such quarter exceeded the hurdle rate of 2.0%. Once the Company's pre-incentive fee net investment income in any quarter exceeded the hurdle rate, FB Advisor was entitled to a "catch-up" fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until the Company's pre-incentive fee net investment income for such quarter equaled 2.5%, or 10.0% annually, of adjusted capital. Thereafter, FB Advisor received 20.0% of pre-incentive fee net investment income. Under the April 2014 investment advisory agreement, the subordinated incentive fee on income was calculated in the same manner, except that the hurdle rate used to compute the subordinated incentive fee on income was based on the value of the Company's net assets rather than adjusted capital.

Under the July 2014 investment advisory agreement, the hurdle rate, expressed as a rate of return on the value of the Company's net assets, was reduced from 2.0% to 1.875% per quarter, or an annualized hurdle rate of 7.5%. As a result, FB Advisor will not earn this incentive fee for any quarter until the Company's pre-incentive fee net investment income for such quarter exceeds the hurdle rate of 1.875%. Once the Company's pre-incentive fee net investment income in any quarter exceeds the hurdle rate, FB Advisor will be entitled to a "catch-up" fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until the Company's pre-incentive fee net investment income for such quarter equals 2.34375%, or 9.375% annually, of the value of the Company's net assets. Thereafter, FB Advisor will be entitled to receive 20.0% of pre-incentive fee net investment income.

Under both the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, the subordinated incentive fee on income is subject to a total return requirement, which provides that no incentive fee in respect of the Company's pre-incentive fee net investment income will be payable except to the extent that 20.0% of the cumulative net increase in net assets resulting from operations over the then-current and eleven preceding calendar quarters exceeds the cumulative incentive fees accrued and/or paid for the eleven preceding calendar quarters. Accordingly, any subordinated incentive fee on income that is payable in a calendar

Note 4. Related Party Transactions (continued)

quarter will be limited to the lesser of (i) 20.0% of the amount by which the Company's pre-incentive fee net investment income for such calendar quarter exceeds the applicable quarterly hurdle rate, subject to the "catch-up" provision, and (ii) (x) 20.0% of the cumulative net increase in net assets resulting from operations for the then-current and eleven preceding calendar quarters *minus* (y) the cumulative incentive fees accrued and/or paid for the eleven preceding calendar quarters. For the foregoing purpose, the "cumulative net increase in net assets resulting from operations" is the sum of pre-incentive fee net investment income, base management fees, realized gains and losses and unrealized appreciation and depreciation of the Company for the then-current and eleven preceding calendar quarters. There will be no accumulation of amounts on the hurdle rate from quarter to quarter and, accordingly, there will be no clawback of amounts previously paid if subsequent quarters are below the applicable quarterly hurdle rate and there will be no delay of payment if prior quarters are below the applicable quarterly hurdle rate.

The second part of the incentive fee, which is referred to as the incentive fee on capital gains, is determined and payable in arrears as of the end of each calendar year (or upon termination of the July 2014 investment advisory agreement). This fee equals 20.0% of the Company's incentive fee capital gains, which equal the Company's realized capital gains on a cumulative basis from inception, calculated as of the end of the applicable period, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain incentive fees. The Company accrues for the capital gains incentive fee, which, if earned, is paid annually. The Company accrues the incentive fee based on net realized and unrealized gains; however, the fee payable to FB Advisor is based on realized gains and no such fee is payable with respect to unrealized gains unless and until such gains are actually realized. The methodology for calculating the capital gains incentive fee is identical under the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement and the July 2014 investment advisory agreement.

The third part of the incentive fee under the 2008 investment advisory and administrative services agreement was referred to as the subordinated liquidation incentive fee, which equaled 20.0% of the net proceeds from a liquidation of the Company in excess of adjusted capital, as calculated immediately prior to liquidation. The April 2014 investment advisory agreement and the July 2014 investment advisory agreement do not include the subordinated liquidation incentive fee.

Pursuant to the 2008 investment advisory and administrative services agreement, the Company reimbursed FB Advisor for expenses necessary to perform services related to the Company's administration and operations. The amount of this reimbursement was set at the lesser of (1) FB Advisor's actual costs incurred in providing such services and (2) the amount that the Company estimated it would be required to pay alternative service providers for comparable services in the same geographic location. FB Advisor was required to allocate the cost of such services to the Company based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. The Company's board of directors then assessed the reasonableness of such reimbursements based on the breadth, depth and quality of such services as compared to the estimated cost to the Company of obtaining similar services from third-party providers known to be available. In addition, the Company's board of directors considered whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, the Company's board of directors compared the total amount paid to FB Advisor for such services as a percentage of the Company's net assets to the same ratio as reported by other comparable BDCs.

Note 4. Related Party Transactions (continued)

Pursuant to the administration agreement, the Company reimburses FB Advisor for expenses necessary to perform services related to the Company's administration and operations, including FB Advisor's allocable portion of the compensation and related expenses of certain personnel of Franklin Square Holdings, L.P., or Franklin Square Holdings, providing administrative services to the Company on behalf of FB Advisor. The Company reimburses FB Advisor no less than quarterly for all costs and expenses incurred by FB Advisor in performing its obligations and providing personnel and facilities under the administration agreement. FB Advisor allocates the cost of such services to the Company based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. The Company's board of directors reviews the methodology employed in determining how the expenses are allocated to the Company and the proposed allocation of administrative expenses among the Company and certain affiliates of FB Advisor. The Company's board of directors then assesses the reasonableness of such reimbursements for expenses allocated to the Company based on the breadth, depth and quality of such services as compared to the estimated cost to the Company of obtaining similar services from third-party service providers known to be available. In addition, the Company's board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, the Company's board of directors compares the total amount paid to FB Advisor for such services as a percentage of the Company's net assets to the same ratio as reported by other comparable BDCs.

The following table describes the fees and expenses accrued under the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement, the July 2014 investment advisory agreement and the administration agreement, as applicable, during the three months ended March 31, 2015 and 2014:

Related Party	Source Agreement	Description	Three Months Ended March 31,

FB Advisor	2008 Investment Advisory and Administrative Services Agreement, April 2014 Investment Advisory Agreement and Administration Agreement	Administrative Services Expenses ⁽⁴⁾	\$ 991	\$ 1,200

(1) FB Advisor agreed, effective April 1, 2014, to waive a portion of the base management fee to which it was entitled under the April 2014 investment advisory agreement so that the fee received equaled 1.75% of the average value of the Company's gross assets. The amount shown for the three months ended March 31, 2014 was calculated under the 2008 investment advisory and administrative services agreement at a rate equal to 2.0% of the average value of the Company's gross assets. During the three months ended March 31, 2015 and 2014, \$19,525 and \$22,696, respectively, in base management fees were paid to FB Advisor. As of March 31, 2015, \$19,073 in base management fees were payable to FB Advisor.

Note 4. Related Party Transactions (continued)

- (2) During the three months ended March 31, 2015 and 2014, the Company accrued capital gains incentive fees of \$3,748 and \$4,836, respectively, based on the performance of its portfolio. As of March 31, 2015 and December 31, 2014, the Company had accrued \$24,823 and \$21,075, respectively, in capital gains incentive fees, all of which were based on unrealized gains, and none of which is payable unless and until those gains are actually realized. The Company paid FB Advisor no capital gains incentive fees during the three months ended March 31, 2015.
- (3) During the three months ended March 31, 2015 and 2014, \$13,089 and \$14,303, respectively, of subordinated incentive fees on income were paid to FB Advisor. As of March 31, 2015, a subordinated incentive fee on income of \$13,905 was payable to FB Advisor.
- (4) During the three months ended March 31, 2015 and 2014, \$783 and \$873, respectively, of administrative services expenses related to the allocation of costs of administrative personnel for services rendered to the Company by FB Advisor and the remainder related to other reimbursable expenses. The Company paid \$1,788 and \$533, respectively, in administrative services expenses to FB Advisor during the three months ended March 31, 2015 and 2014.

Potential Conflicts of Interest

FB Advisor's senior management team is comprised of substantially the same personnel as the senior management teams of FS Investment Advisor, LLC, FSIC II Advisor, LLC, FSIC III Advisor, LLC and FS Global Advisor, LLC, the investment advisers to certain other BDCs and a closed-end management investment company affiliated with Franklin Square Holdings. As a result, such personnel provide investment advisory services to the Company and each of FS Energy and Power Fund, FS Investment Corporation II, FS Investment Corporation III and FS Global Credit Opportunities Fund. While none of FB Advisor, FS Investment Advisor, LLC, FSIC II Advisor, LLC, FSIC III Advisor, LLC or FS Global Advisor, LLC, is currently making private corporate debt investments for clients other than the Company, FS Energy and Power Fund, FS Investment Corporation II, FS Investment Corporation III or FS Global Credit Opportunities Fund, respectively, any, or all, may do so in the future. In the event that FB Advisor undertakes to provide investment advisory services to other clients in the future, it intends to allocate investment opportunities in a fair and equitable manner consistent with the Company's investment objectives and strategies, if necessary, so that the Company will not be disadvantaged in relation to any other client of FB Advisor or its management team. In addition, even in the absence of FB Advisor retaining additional clients, it is possible that some investment opportunities may be provided to FS Energy and Power Fund, FS Investment Corporation II, FS Investment Corporation III and/or FS Global Credit Opportunities Fund rather than to the Company.

Exemptive Relief

In an order dated June 4, 2013, the SEC granted exemptive relief permitting the Company, subject to the satisfaction of certain conditions, to co-invest in certain privately negotiated investment transactions with certain affiliates of FB Advisor, including FS Energy and Power Fund, FS Investment Corporation II, FS Investment Corporation III and any future BDCs that are advised by FB Advisor or its affiliated investment advisers, or collectively the Company's co-investment affiliates. The Company believes this relief has and may continue to enhance its ability to further its investment objectives and strategy. The Company believes this relief may also increase favorable investment opportunities for the Company, in part, by allowing it to participate in larger investments, together with the Company's co-investment affiliates, than would be available to it if it had not obtained such relief. Because the Company did not seek exemptive relief to engage in co-investment transactions

with its investment sub-adviser, GSO / Blackstone Debt Funds Management LLC, or GDFM, and its affiliates, it will continue to be permitted to co-invest with GDFM and its affiliates only in accordance with existing regulatory guidance.

Expense Reimbursement

Beginning on February 26, 2009, Franklin Square Holdings agreed to reimburse the Company for expenses in an amount that was sufficient to ensure that, for tax purposes, the Company's net investment income and net capital gains were equal to or greater than the cumulative distributions paid to its stockholders in each quarter. This arrangement was designed to ensure that no portion of the Company's distributions would represent a return of capital for its stockholders. Under this arrangement, Franklin Square Holdings had no obligation to reimburse any portion of the Company's expenses. Franklin Square Holdings is controlled by the Company's chairman and chief executive officer, Michael C. Forman, and its vice-chairman, David J. Adelman.

Pursuant to an expense support and conditional reimbursement agreement, dated as of March 13, 2012, and amended and restated as of May 16, 2013, or, as amended and restated, the expense reimbursement agreement, Franklin Square Holdings had agreed to reimburse the Company for expenses in an amount that was sufficient to ensure that no portion of the Company's distributions to stockholders were paid from proceeds of the sale of shares of its common stock or borrowings.

As a result of the listing of the Company's shares of common stock on the NYSE, effective November 7, 2014, Franklin Square Holdings terminated the expense reimbursement agreement pursuant to its terms. Since entering into the expense reimbursement agreement, no reimbursements were made, and no reimbursements were expected to be made in the foreseeable future, by Franklin Square Holdings, pursuant to the expense reimbursement agreement.

Trademark License Agreement

On April 16, 2014, in connection with the listing of its common stock on the NYSE, the Company entered into a trademark license agreement, or the trademark license agreement, with Franklin Square Holdings. Pursuant to the trademark license agreement, Franklin Square Holdings granted the Company a non-exclusive, nontransferable, royalty-free right and license to use the name "FS Investment Corporation" and certain other trademarks, or the licensed marks, as a component of the Company's name (and in connection with marketing the investment advisory and other services that FB Advisor may provide to the Company). Other than with respect to this limited license, the Company has no other rights to the licensed marks. The trademark license agreement may be terminated by Franklin Square Holdings or the Company on sixty days' prior written notice and expires if FB Advisor or one of Franklin Square Holdings' affiliates ceases to serve as investment adviser to the Company. Furthermore, Franklin Square Holdings may terminate the trademark license agreement at any time and in its sole discretion in the event that Franklin Square Holdings or the Company receives notice of any third-party claim arising out of the Company's use of the licensed marks or if the Company attempts to assign or sublicense the trademark license agreement or any of the Company's rights or duties under the trademark license agreement without the prior written consent of Franklin Square Holdings. FB Advisor is a third-party beneficiary of the trademark license agreement.

Note 5. Distributions

The following table reflects the cash distributions per share that the Company has declared on its common stock during the three months ended March 31, 2015 and 2014:

For the Three Months Ended	Distribution	
	Per Share	Amount
Fiscal 2014		
March 31, 2014	\$0.2160	\$56,237
Fiscal 2015		
March 31, 2015	\$0.2228	\$53,706

On April 29, 2015, the Company's board of directors declared a regular quarterly cash distribution of \$0.22275 per share, which will be paid on or about July 2, 2015 to stockholders of record on June 24, 2015. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of the Company's board of directors.

Historically, the Company had an "opt in" distribution reinvestment plan for its stockholders, which terminated upon the listing of the Company's shares of common stock on the NYSE. The final distribution reinvestment under the old DRP was made in connection with the regular monthly cash distribution paid on March 31, 2014 to stockholders of record as of the close of business on March 28, 2014. Under the old DRP, if the Company made a cash distribution, its stockholders received distributions in cash unless they specifically "opted in" to the distribution reinvestment plan so as to have their cash distributions reinvested in additional shares of the Company's common stock. On May 23, 2014, the Company adopted an "opt out" distribution reinvestment plan, which was effective June 2, 2014. The new DRP was first implemented in connection with the regular monthly cash distribution paid on July 2, 2014 to stockholders of record as of the close of business on June 24, 2014. Pursuant to the new DRP, the Company will reinvest all cash dividends or distributions declared by the Company's board of directors on behalf of stockholders who do not elect to receive their distributions in cash. As a result, if the Company's board of directors declares a distribution, then stockholders who have not elected to "opt out" of the new DRP will have their distributions automatically reinvested in additional shares of the Company's common stock.

With respect to each distribution pursuant to the new DRP, the Company reserves the right to either issue new shares of common stock or purchase shares of common stock in the open market in connection with implementation of the new DRP. Unless the Company, in its sole discretion, otherwise directs the plan administrator, (A) if the per share market price (as defined in the new DRP) is equal to or greater than the estimated net asset value per share (rounded up to the nearest whole cent) of the Company's common stock on the payment date for the distribution, then the Company will issue shares of common stock at the greater of (i) net asset value per share of common stock or (ii) 95% of the market price; or (B) if the market price is less than the net asset value per share, then, in the sole discretion of the Company, (i) shares of common stock will be purchased in open market transactions for the accounts of participants to the extent practicable, or (ii) the Company will issue shares of common stock at net asset value per share. Pursuant to the terms of the new DRP, the number of shares of common stock to be issued to a participant will be determined by dividing the total dollar amount of the distribution payable to a participant by the price per share at which the Company issues such shares; provided, however, that shares purchased in open market transactions by the plan administrator will be allocated to a participant based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market.

Note 5. Distributions (continued)

If a stockholder receives distributions in the form of common stock pursuant to the new DRP, such stockholder generally will be subject to the same federal, state and local tax consequences as if it elected to receive distributions in cash. If the Company's common stock is trading at or below net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of cash that they would have received if they had elected to receive the distribution in cash. If the Company's common stock is trading above net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of the fair market value of the Company's common stock. The stockholder's basis for determining gain or loss upon the sale of common stock received in a distribution will be equal to the total dollar amount of the distribution payable to the stockholder. Any stock received in a distribution will have a holding period for tax purposes commencing on the day following the day on which the shares of common stock are credited to the stockholder's account.

The Company may fund its cash distributions to stockholders from any sources of funds legally available to it, including proceeds from the sale of shares of the Company's common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets, and dividends or other distributions paid to the Company on account of preferred and common equity investments in portfolio companies. The Company has not established limits on the amount of funds it may use from available sources to make distributions. During certain periods, the Company's distributions may exceed its earnings. As a result, it is possible that a portion of the distributions the Company makes may represent a return of capital. A return of capital generally is a return of a stockholder's investment rather than a return of earnings or gains derived from the Company's investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions (i.e., paid from ordinary income, paid from net capital gains on the sale of securities, and/or a return of capital, which is a nontaxable distribution) will be mailed to the Company's stockholders. There can be no assurance that the Company will be able to pay distributions at a specific rate or at all.

The following table reflects the sources of the cash distributions on a tax basis that the Company has paid on its common stock during the three months ended March 31, 2015 and 2014:

Source of Distribution	Three Months Ended March 31,			
	2015		2014	
	Distribution Amount	Percentage	Distribution Amount	Percentage

(1) During the three months ended March 31, 2015 and 2014, 91.8% and 90.9%, respectively, of the Company's gross investment income was attributable to cash income earned, 3.6% and 7.0%, respectively, was attributable to non-cash accretion of discount and 4.6% and 2.1%, respectively, was attributable to paid-in-kind, or PIK, interest.

Note 5. Distributions (continued)

The Company's net investment income on a tax basis for the three months ended March 31, 2015 and 2014 was \$56,501 and \$51,851, respectively. As of March 31, 2015 and December 31, 2014, the Company had \$159,756 and \$152,743, respectively, of undistributed net investment income and realized gains on a tax basis.

The difference between the Company's GAAP-basis net investment income and its tax-basis net investment income is primarily due to the reversal of the required accrual for GAAP purposes of incentive fees on unrealized gains even though no such incentive fees on unrealized gains are payable by the Company and the reclassification of unamortized original issue discount and prepayment fees recognized upon prepayment of loans from income for GAAP purposes to realized gains for tax purposes.

The following table sets forth a reconciliation between GAAP-basis net investment income and tax-basis net investment income during the three months ended March 31, 2015 and 2014:

	Three Months Ended March 31,	
	2015	2014
GAAP-basis net investment income	\$51,649	\$ 55,877
Reversal of incentive fee accrual on unrealized gains	3,748	(199)
Reclassification of unamortized original issue discount and prepayment fees	(933)	(3,964)
Other miscellaneous differences	2,037	137
Tax-basis net investment income	<u>\$56,501</u>	<u>\$ 51,851</u>

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon the Company's taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of the Company's distributions for a full year. The actual tax characteristics of distributions to stockholders are reported to stockholders annually on Form 1099-DIV.

As of March 31, 2015 and December 31, 2014, the components of accumulated earnings on a tax basis were as follows:

	March 31, 2015 (Unaudited)	December 31, 2014
Distributable ordinary income (income and short-term capital gains)	\$ 118,444	\$ 114,667
Distributable realized gains (long-term capital gains)	41,312	38,076
Incentive fee accrual on unrealized gains	(24,823)	(21,075)
Unamortized organization costs	(375)	(386)
Net unrealized appreciation (depreciation) on investments and gain/loss on foreign currency ⁽¹⁾	(8,415)	(23,085)
Total	<u>\$ 126,143</u>	<u>\$ 108,197</u>

(1) As of March 31, 2015 and December 31, 2014, the gross unrealized appreciation on the Company's investments and gain on foreign currency was \$155,930 and \$136,422, respectively. As of March 31, 2015 and December 31, 2014, the gross unrealized depreciation on the Company's investments and loss on foreign currency was \$164,345 and \$159,507, respectively.

The aggregate net unrealized appreciation (depreciation) on a tax basis was \$(8,415) and \$(23,085) as of March 31, 2015 and December 31, 2014, respectively.

(1) Amortized cost represents the original cost adjusted for the amortization of premiums and/or accretion of discounts, as applicable, on investments.

As of March 31, 2015, except for one equity/other investment, Fronton Investor Holdings, LLC, the Company was not an "affiliated person" of any of its portfolio companies, as defined in the 1940 Act. As of March 31, 2015, the Company did not "control" any of its portfolio companies, as defined in the 1940 Act. In general, under the 1940 Act, the Company would be presumed to "control" a portfolio company if it owned 25% or more of its voting securities or it had the power to exercise control over the management or policies of such portfolio company, and would be an "affiliated person" of a portfolio company if it owned 5% or more of its voting securities.

The Company's investment portfolio may contain loans that are in the form of lines of credit, revolving credit facilities, delayed draw credit facilities or other investments, which require the Company to provide funding when requested by portfolio companies in accordance with the terms of the underlying loan agreements. As of March 31, 2015, the Company had eleven such investments with aggregate unfunded commitments of \$116,193 and one equity/other investment with an unfunded commitment of \$746. As of December 31, 2014, the Company had ten such investments with aggregate unfunded commitments of \$101,099 and one equity investment with an unfunded commitment of \$788. The Company maintains sufficient cash on hand and available borrowings to fund such unfunded commitments should the need arise.

Note 7. Fair Value of Financial Instruments

Under existing accounting guidance, fair value is defined as the price that the Company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. This accounting guidance emphasizes that valuation techniques maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The Company classifies the inputs used to measure these fair values into the following hierarchy as defined by current accounting guidance:

Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets.

Level 3: Inputs that are unobservable for an asset or liability.

Note 7. Fair Value of Financial Instruments (continued)

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

As of March 31, 2015 and December 31, 2014, the Company's investments were categorized as follows in the fair value hierarchy:

Valuation Inputs	March 31, 2015 (Unaudited)	December 31, 2014
Level 1—Price quotations in active markets	\$ 1,175	\$ 1,343
Level 2—Significant other observable inputs	—	—
Level 3—Significant unobservable inputs	4,160,508	4,182,104
	<u>\$ 4,161,683</u>	<u>\$4,183,447</u>

The Company's investments as of March 31, 2015 consisted primarily of debt investments that were acquired directly from the issuer. Forty-four senior secured loan investments, one senior secured bond investment, eleven subordinated debt investments and one collateralized security, for which broker quotes were not available, were valued by independent valuation firms, which determined the fair value of such investments by considering, among other factors, the borrower's ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features and other relevant terms of the debt. Except as described below, all of the Company's equity/other investments were also valued by an independent valuation firm, which determined the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of earnings before interest, taxes, depreciation and amortization, or EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. One equity investment which is traded on an active public market was valued at its closing price as of March 31, 2015. One senior secured loan investment, which was newly issued and purchased near March 31, 2015, was valued at cost as the Company's board of directors determined that the cost of such investment was the best indication of its fair value. Except as described above, the Company valued its other investments, including one equity/other investment, by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which were provided by independent third-party pricing services and screened for validity by such services.

The Company's investments as of December 31, 2014 consisted primarily of debt investments that were acquired directly from the issuer. Forty-one senior secured loan investments, one senior secured bond investment, eleven subordinated debt investments and one collateralized security, for which broker quotes were not available, were valued by an independent valuation firm, which determined the fair value of such investments by considering, among other factors, the borrower's ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features and other relevant terms of the debt. Except as described below, all of the Company's equity/other investments were valued by the same independent valuation firm, which determined the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. One equity investment which is traded on an active public market was valued at its closing price as of December 31, 2014. One senior secured loan investment and two collateralized loan securities, which were newly issued and purchased near December 31, 2014, were valued at cost as the Company's board of directors determined that the cost of each such investment was the best indication of its fair value. Except as described above, the Company valued its other investments,

Note 7. Fair Value of Financial Instruments (continued)

including three equity/other investments, by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which were provided by independent third-party pricing services and screened for validity by such services.

The Company periodically benchmarks the bid and ask prices it receives from the third-party pricing services and/or dealers, as applicable, against the actual prices at which the Company purchases and sells its investments. Based on the results of the benchmark analysis and the experience of the Company's management in purchasing and selling these investments, the Company believes that these prices are reliable indicators of fair value. However, because of the private nature of this marketplace (meaning actual transactions are not publicly reported), the Company believes that these valuation inputs are classified as Level 3 within the fair value hierarchy. The Company may also use other methods, including the use of an independent valuation firm, to determine fair value for securities for which it cannot obtain prevailing bid and ask prices through third-party pricing services or independent dealers, or where the Company's board of directors otherwise determines that the use of such other methods is appropriate. The Company periodically benchmarks the valuations provided by the independent valuation firms against the actual prices at which the Company purchases and sells its investments. The Company's valuation committee and board of directors reviewed and approved the valuation determinations made with respect to these investments in a manner consistent with the Company's valuation process.

The following is a reconciliation for the three months ended March 31, 2015 and 2014 of investments for which significant unobservable inputs (Level 3) were used in determining fair value:

(1) Amount includes borrowing in U.S. dollars and Euros. Euro balance outstanding of €29,625 has been converted to U.S. dollars at an exchange rate of €1.00 to \$1.07 as of March 31, 2015 to reflect total amount outstanding in U.S. dollars.

The Company's average borrowings and weighted average interest rate, including the effect of non-usage fees, for the three months ended March 31, 2015 were \$1,877,622 and 3.50%, respectively. As of March 31, 2015, the Company's weighted average effective interest rate on borrowings, including the effect of non-usage fees, was 3.61%.

Arch Street Credit Facility

On July 14, 2014, Arch Street Funding LLC, or Arch Street, the Company's wholly-owned, special purpose financing subsidiary, repaid the revolving credit facility, or the Arch Street credit facility, with Citibank, N.A., as administrative agent, and the financial institutions and other lenders from time to time party thereto. The Arch Street credit facility provided for borrowings in an aggregate principal amount up to \$350,000 on a committed basis. Prior to the termination of the Arch Street credit facility, borrowings under the Arch Street credit facility accrued interest at a rate equal to three-month LIBOR plus 2.05% per annum. Beginning November 27, 2012, Arch Street became required to pay a non-usage fee of 0.50% to the extent the aggregate principal amount available under the facility was not borrowed.

As of March 31, 2015 and December 31, 2014, no amounts remained outstanding under the Arch Street credit facility.

For the three months ended March 31, 2014, the components of total interest expense for the Arch Street credit facility were as follows:

	Three Months Ended March 31, 2014
Direct interest expense	\$ 1,862
Non-usage fees	220
Amortization of deferred financing costs	365
Total interest expense	<u>\$ 2,447</u>

Note 8. Financing Arrangements (continued)

For the three months ended March 31, 2014, the cash paid for interest expense, average borrowings, effective interest rate and weighted average interest rate for the Arch Street credit facility were as follows:

	Three Months Ended March 31, 2014
Cash paid for interest expense ⁽¹⁾	\$ 2,394
Average borrowings under the facility	\$ 373,682
Effective interest rate on borrowings (including the effect of non-usage fees)	1.99%
Weighted average interest rate (including the effect of non-usage fees)	2.23%

(1) Interest under the Arch Street credit facility was paid quarterly in arrears.

Borrowings of Arch Street were considered borrowings of the Company for purposes of complying with the asset coverage requirements applicable to BDCs under the 1940 Act.

Broad Street Credit Facility

On January 28, 2011, Broad Street Funding LLC, or Broad Street, the Company's wholly-owned, special-purpose financing subsidiary, Deutsche Bank AG, New York Branch, or Deutsche Bank, and the other lenders party thereto entered into an amended and restated multi-lender, syndicated revolving credit facility, or the Broad Street credit facility, which amended and restated the revolving credit facility that Broad Street originally entered into with Deutsche Bank on March 10, 2010 and the amendments thereto. On March 23, 2012, Broad Street and Deutsche Bank entered into an amendment to the Broad Street credit facility which extended the maturity date of the facility to March 23, 2013, increased the aggregate amount which could be borrowed under the facility to \$380,000 and reduced the interest rate for all borrowings under the facility to a rate of LIBOR, for an interest period equal to the weighted average LIBOR interest period of debt securities owned by Broad Street, plus 1.50% per annum. On December 13, 2012, Broad Street repaid \$140,000 of borrowings under the facility, thereby reducing the amount which could be borrowed under the facility to \$240,000. On March 22, 2013, Broad Street and Deutsche Bank entered into an amendment to the facility to extend the maturity date of the facility to December 22, 2013. On December 20, 2013, Broad Street and Deutsche Bank entered into an amendment to the facility that extended the maturity date to December 20, 2014 and reduced the maximum amount which could be borrowed under the facility to \$125,000. On December 18, 2014, Broad Street and Deutsche Bank entered into a further amendment to the facility which extended the maturity date to December 18, 2015, incorporated a commitment fee of 1.50% payable on unused amounts (triggered after five consecutive business days of Broad Street utilizing less than 33% of the maximum commitment), and gave Broad Street the right to reduce the maximum commitment upon three (3) days' notice to the administrative agent. The Broad Street credit facility provides for borrowings of up to \$125,000 at a rate of LIBOR, for an interest period equal to the weighted average LIBOR interest period of debt securities owned by Broad Street, plus 1.50% per annum. Deutsche Bank is a lender and serves as administrative agent under the facility.

Under the Broad Street credit facility, the Company transfers debt securities to Broad Street from time to time as a contribution to capital and retains a residual interest in the contributed debt securities through its ownership of Broad Street. The obligations of Broad Street under the facility are non-recourse to the Company and its exposure under the facility is limited to the value of its investment in Broad Street.

As of March 31, 2015 and December 31, 2014, \$70,008 and \$65,808, respectively, was outstanding under the Broad Street credit facility. The carrying amount of the amount outstanding under the facility approximates

(1) Interest under the Broad Street credit facility is paid quarterly in arrears.

Borrowings of Broad Street will be considered borrowings of the Company for purposes of complying with the asset coverage requirements applicable to BDCs under the 1940 Act.

ING Credit Facility

On April 3, 2014, the Company entered into the ING credit facility. The ING credit facility provides for borrowings in U.S. dollars and certain agreed upon foreign currencies in an initial aggregate amount of up to \$300,000, with an option for the Company to request, at one or more times after closing, that existing or new lenders, at their election, provide up to \$100,000 of additional commitments. The ING credit facility provides for the issuance of letters of credit in an aggregate face amount not to exceed \$25,000. The Company's obligations under the ING credit facility are guaranteed by all of the Company's subsidiaries, other than its special-purpose financing subsidiaries. The Company's obligations under the ING credit facility are secured by a first priority security interest in substantially all of the assets of the Company and the subsidiary guarantors thereunder other than the equity interests of its special-purpose financing subsidiaries.

As of March 31, 2015 and December 31, 2014, \$103,997 and \$123,019, respectively, was outstanding under the ING credit facility, which includes borrowings in Euro in an aggregate amount of €29,625 and €29,625, respectively. The carrying amount of the amount outstanding under the facility approximates its fair value. The

Average borrowings under the facility	\$ 133,874
Effective interest rate on borrowings (including the effect of non-usage fees)	4.72%
Weighted average interest rate (including the effect of non-usage fees)	3.21%

(1) Interest under the ING credit facility is payable at the end of each interest period in arrears for Eurocurrency borrowings and quarterly in arrears for base rate borrowings.

JPM Financing

On April 23, 2013, through its two wholly-owned, special-purpose financing subsidiaries, Locust Street Funding LLC, or Locust Street, and Race Street Funding LLC, or Race Street, the Company entered into an amendment, or the April 2013 amendment, to its debt financing arrangement with JPMorgan Chase Bank, N.A., London Branch, or JPM, which was originally entered into on July 21, 2011 (and previously amended on September 26, 2012). The April 2013 amendment, among other things: (i) increased the amount of debt financing available under the arrangement from \$700,000 to \$950,000; and (ii) extended the final repurchase date under the financing arrangement from October 15, 2016 to April 15, 2017. The Company elected to structure the financing in the manner described more fully below in order to, among other things, obtain such financing at a lower cost than would be available through alternate arrangements.

Pursuant to the financing arrangement, the assets held by Locust Street secure the obligations of Locust Street under certain Class A Floating Rate Notes, or the Class A Notes, to be issued from time to time by Locust Street to Race Street pursuant to the Amended and Restated Indenture, dated as of September 26, 2012 and as supplemented by Supplemental Indenture No. 1, dated April 23, 2013, with Citibank N.A., as trustee, or the Amended and Restated Indenture. Pursuant to the Amended and Restated Indenture, the aggregate principal amount of Class A Notes that may be issued by Locust Street from time to time is \$1,140,000. All principal and

interest on the Class A Notes will be due and payable on the stated maturity date of April 15, 2024. Race Street will purchase the Class A Notes to be issued by Locust Street from time to time at a purchase price equal to their par value.

Race Street, in turn, has entered into an amended repurchase transaction with JPM pursuant to the terms of an amended and restated global master repurchase agreement and the related annex and amended and restated confirmation thereto, each dated as of April 23, 2013, and subsequently amended as of October 24, 2013, or, collectively, the JPM Facility. Pursuant to the JPM Facility, JPM has agreed to purchase from time to time Class A Notes held by Race Street for an aggregate purchase price equal to approximately 83.33% of the principal amount of Class A Notes purchased. Subject to certain conditions, the maximum principal amount of Class A Notes that may be purchased under the JPM Facility is \$1,140,000. Accordingly, the maximum amount payable at any time to Race Street under the JPM Facility is \$950,000. Under the JPM Facility, Race Street will, on a quarterly basis, repurchase the Class A Notes sold to JPM under the JPM Facility and subsequently resell such Class A Notes to JPM. The final repurchase transaction must occur no later than April 15, 2017. The repurchase price paid by Race Street to JPM for each repurchase of Class A Notes will be equal to the purchase price paid by JPM for such Class A Notes, plus interest thereon accrued at a fixed rate of 3.25% per annum. Commencing April 15, 2015, Race Street is permitted to reduce (based on certain thresholds) the aggregate principal amount of Class A Notes subject to the JPM Facility. Such reductions, and any other reductions of the principal amount of Class A Notes, including upon an event of default, will be subject to breakage fees in an amount equal to the present value of 1.25% per annum over the remaining term of the JPM Facility applied to the amount of such reduction.

Pursuant to the financing arrangement, the assets held by Race Street secure the obligations of Race Street under the JPM Facility.

As of March 31, 2015 and December 31, 2014, Class A Notes in the aggregate principal amount of \$1,140,000 had been purchased by Race Street from Locust Street and subsequently sold to JPM under the JPM Facility for aggregate proceeds of \$950,000. The carrying amount outstanding under the JPM Facility approximates its fair value. The Company funded each purchase of Class A Notes by Race Street through a capital contribution to Race Street. As of March 31, 2015 and December 31, 2014, Race Street's liability under the JPM Facility was \$950,000, plus \$6,518 and \$6,690, respectively, of accrued interest expense. The Class A Notes issued by Locust Street and purchased by Race Street eliminate in consolidation on the Company's financial statements.

As of March 31, 2015 and December 31, 2014, the fair value of assets held by Locust Street was \$1,823,523 and \$1,832,095, respectively, which included assets purchased by Locust Street with proceeds from the issuance of Class A Notes. As of March 31, 2015 and December 31, 2014, the fair value of assets held by Race Street was \$871,281 and \$855,341, respectively.

The Company incurred costs of \$425 in connection with obtaining the JPM Facility, which the Company has recorded as deferred financing costs on its consolidated balance sheets and amortizes to interest expense over the life of the JPM Facility. As of March 31, 2015, \$35 of such deferred financing costs had yet to be amortized to interest expense.

(1) Interest under the JPM Facility is paid quarterly in arrears.

Amounts outstanding under the JPM Facility will be considered borrowings of the Company for purposes of complying with the asset coverage requirements applicable to BDCs under the 1940 Act.

Walnut Street Credit Facility

On December 3, 2014, Walnut Street Funding LLC, or Walnut Street, the Company's wholly-owned, special purpose financing subsidiary, repaid and terminated the revolving credit facility, or the Walnut Street credit facility, with Wells Fargo Bank, National Association. Wells Fargo Securities, LLC served as the administrative agent and Wells Fargo Bank, National Association was the sole lender, collateral agent, account bank and collateral custodian under the facility. The Walnut Street credit facility provided for borrowings in an aggregate principal amount up to \$250,000 on a committed basis. Prior to the termination of the Walnut Street credit facility, borrowings under the Walnut Street credit facility accrued interest at a rate equal to three-month LIBOR, plus a spread ranging between 1.50% and 2.50% per annum, depending on the composition of the portfolio of debt securities for the relevant period. Beginning on September 17, 2012, Walnut Street became subject to a non-usage fee of 0.50% to the extent the aggregate principal amount available under the Walnut Street credit facility was not borrowed.

As of March 31, 2015 and December 31, 2014, no amounts remained outstanding under the Walnut Street credit facility.

4.000% Notes due 2019

On July 14, 2014, the Company and U.S. Bank National Association, or U.S. Bank, entered into an indenture, or the base indenture, and a first supplemental indenture thereto, or together with the base indenture and any supplemental indentures thereto, the indenture, relating to the Company's issuance of \$400,000 aggregate principal amount of its 4.000% notes due 2019, or the 4.000% notes.

The 4.000% notes will mature on July 15, 2019 and may be redeemed in whole or in part at the Company's option at any time or from time to time at the applicable redemption price set forth in the indenture. The 4.000% notes bear interest at a rate of 4.000% per year, payable semi-annually on January 15 and July 15 of each year, commencing on January 15, 2015. The 4.000% notes are general unsecured obligations of the Company that rank senior in right of payment to all of the Company's existing and future indebtedness that is expressly subordinated in right of payment to the 4.000% notes and rank *pari passu* with all outstanding and future unsecured unsubordinated indebtedness issued by the Company.

In addition, on the occurrence of a "change of control repurchase event," as defined in the indenture, the Company will generally be required to make an offer to purchase the outstanding 4.000% notes at a price equal to 100% of the principal amount of such notes plus accrued and unpaid interest to the repurchase date.

The indenture contains certain covenants, including covenants requiring the Company to comply with the asset coverage requirements of Section 18(a)(1) (A) of the 1940 Act, as modified by Section 61(a)(1) of the 1940

Act, whether or not it is subject to those requirements, and to provide financial information to the holders of the 4.000% notes and U.S. Bank if the Company is no longer subject to the reporting requirements under the Exchange Act of 1934, as amended, or the Exchange Act. These covenants are subject to limitations and exceptions that are described in the indenture.

As of March 31, 2015 and December 31, 2014, \$400,000 of the 4.000% notes were outstanding. As of March 31, 2015, the fair value of the 4.000% notes was approximately \$400,355. The Company incurred costs of \$6,177 in connection with issuing the 4.000% notes, which the Company has recorded as deferred financing costs on its consolidated balance sheets and amortizes to interest expense over the life of the 4.000% notes. As of March 31, 2015, \$5,292 of such deferred financing costs had yet to be amortized to interest expense.

For the three months ended March 31, 2015, the components of total interest expense for the 4.000% notes were as follows:

	Three Months Ended March 31, 2015
Direct interest expense	\$ 3,948
Amortization of deferred financing costs	309
Total interest expense	\$ 4,257

For the three months ended March 31, 2015, the cash paid for interest expense, average borrowings, effective interest rate and weighted average interest rate for the 4.000% notes were as follows:

	Three Months Ended March 31, 2015
Cash paid for interest expense ⁽¹⁾	\$ 8,044
Average borrowings under the facility	\$ 400,000
Effective interest rate on borrowings	4.00%
Weighted average interest rate	4.00%

(1) Interest under the 4.000% notes is paid semi-annually in arrears.

4.250% Notes due 2020

On December 3, 2014, the Company and U.S. Bank entered into a second supplemental indenture to the base indenture relating to the Company's issuance of \$325,000 aggregate principal amount of its 4.250% notes due 2020, or the 4.250% notes.

The 4.250% notes will mature on January 15, 2020 and may be redeemed in whole or in part at the Company's option at any time or from time to time at the applicable redemption price set forth in the indenture. The 4.250% notes bear interest at a rate of 4.250% per year, payable semi-annually on January 15 and July 15 of each year, commencing on July 15, 2015. The 4.250% notes are general unsecured obligations of the Company that rank senior in right of payment to all of the Company's existing and future indebtedness that is expressly subordinated in right of payment to the 4.250% notes and rank *pari passu* with all outstanding and future unsecured unsubordinated indebtedness issued by the Company.

In addition, on the occurrence of a “change of control repurchase event,” as defined in the indenture, the Company will generally be required to make an offer to purchase the outstanding 4.250% notes at a price equal to 100% of the principal amount of such notes plus accrued and unpaid interest to the repurchase date.

The indenture contains certain covenants, including covenants requiring the Company to comply with the asset coverage requirements of Section 18(a)(1) (A) of the 1940 Act, as modified by Section 61(a)(1) of the 1940 Act, whether or not it is subject to those requirements, and to provide financial information to the holders of the 4.250% notes and U.S. Bank if the Company is no longer subject to the reporting requirements under the Exchange Act. These covenants are subject to limitations and exceptions that are described in the indenture.

As of March 31, 2015 and December 31, 2014, \$325,000 of the 4.250% notes was outstanding. As of March 31, 2015, the fair value of the 4.250% notes was approximately \$331,782. The Company incurred costs of \$4,954 in connection with issuing the 4.250% notes, which the Company has recorded as deferred financing costs on its consolidated balance sheets and amortizes to interest expense over the life of the 4.250% notes. As of March 31, 2015, \$4,639 of such deferred financing costs had yet to be amortized to interest expense.

Note 10. Financial Highlights (continued)

- (2) The per share data was derived by using the weighted average shares outstanding during the applicable period.
- (3) The per share data for distributions reflect the actual amount of distributions paid per share during the applicable period.
- (4) The issuance of common stock on a per share basis reflects the incremental net asset value changes as a result of the issuance of shares of common stock, as applicable, pursuant to the Company's distribution reinvestment plan. The issuance of common stock at a price that is greater than the net asset value per share results in an increase in net asset value per share.
- (5) The listing tender offer and the purchase of shares of common stock pursuant thereto on June 4, 2014 resulted in a reduction to net asset value as a result of the Company repurchasing shares at a price greater than its net asset value per share.
- (6) The total return based on net asset value for each period presented was calculated by taking the net asset value per share as of the end of the applicable period, adding the cash distributions per share that were declared during the period and dividing the total by the net asset value per share at the beginning of the period. The historical calculation of total return in the table should not be considered a representation of the Company's future total return, which may be greater or less than the return shown in the table due to a number of factors, including the Company's ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Company's expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets and general economic conditions. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods. The total return calculations set forth above represent the total return on our investment portfolio during the applicable period and are calculated in accordance with GAAP. These return figures do not represent an actual return to stockholders.
- (7) The total return based on market value for the three months ended March 31, 2015 was calculated by taking the closing price of the Company's shares on the NYSE on March 31, 2015, adding the cash distributions per share that were declared during the three months ended March 31, 2015 and dividing the total by \$9.93, the closing price of the Company's shares on the NYSE on December 31, 2014. The total return based on market value for the year ended December 31, 2014 was calculated by taking the closing price of the Company's shares on the NYSE on December 31, 2014, adding the cash distributions per share that were declared during the period from April 16, 2014 to December 31, 2014 and dividing the total by \$10.25, the closing price of the Company's shares on the NYSE on April 16, 2014 (the first day the shares began trading on the NYSE). The historical calculation of total return based on market value in the table should not be considered a representation of the Company's future total return based on market value, which may be greater or less than the return shown in the table due to a number of factors, including the Company's ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Company's expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets, general economic conditions and fluctuations in per share market value. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods.

- (8) Weighted average net assets during the applicable period are used for this calculation. The following is a schedule of supplemental ratios for the three months ended March 31, 2015 and year ended December 31, 2014:

	Three Months Ended March 31, 2015 (Unaudited)	Year Ended December 31, 2014
Ratio of accrued capital gains incentive fees to average net assets	0.16%	(0.37)%
Ratio of subordinated income incentive fees to average net assets	0.59%	2.29%
Ratio of interest expense to average net assets	0.73%	2.56%
Ratio of excise taxes to average net assets	—	0.21%

- (9) Portfolio turnover for the three months ended March 31, 2015 is not annualized.
- (10) Asset coverage per unit is the ratio of the carrying value of our total consolidated assets, less liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness.

Note 11. Recently Issued Accounting Standards

In April 2015, the Financial Accounting Standards Board, or the FASB, issued Accounting Standards Update No. 2015-03, *Interest—Imputation of Interest*, to simplify the presentation in financial statements of debt issuance costs. Under existing guidance, debt issuance costs are recognized as a deferred charge and presented as an asset on the balance sheet. The amendments to the guidance require that debt issuance costs related to a recognized liability for indebtedness be presented in the balance sheet as a direct deduction from the carrying amount of that liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected by the amendments to the guidance. The amendments to the FASB codification guidance are to be applied retrospectively with applicable disclosures for a change in accounting principle upon transition. For public entities, the amendments are effective for interim and annual periods beginning after December 15, 2015. Early application by public entities is permitted. Management of the Company is currently assessing the impact of this guidance on the Company's consolidated financial statements.

Note 12. Subsequent Events*4.750% Notes due 2022*

On April 30, 2015, the Company and U.S. Bank entered into a third supplemental indenture to the base indenture relating to the Company's issuance of \$275,000 aggregate principal amount of its 4.750% notes due 2022, or the 4.750% notes.

The 4.750% notes will mature on May 15, 2022 and may be redeemed in whole or in part at the Company's option at any time or from time to time at the applicable redemption price set forth in the indenture. The 4.750% notes bear interest at a rate of 4.750% per year, payable semi-annually on May 15 and November 15 of each year, commencing on November 15, 2015. The 4.750% notes are general unsecured obligations of the Company that rank senior in right of payment to all of the Company's existing and future indebtedness that is expressly subordinated in right of payment to the 4.750% notes and rank *pari passu* with all outstanding and future unsecured unsubordinated indebtedness issued by the Company.

Note 12. Subsequent Events (continued)

In addition, on the occurrence of a “change of control repurchase event,” as defined in the indenture, the Company will generally be required to make an offer to purchase the outstanding 4.750% notes at a price equal to 100% of the principal amount of such notes plus accrued and unpaid interest to the repurchase date.

The indenture contains certain covenants, including covenants requiring the Company to comply with the asset coverage requirements of Section 18(a)(1) (A) of the 1940 Act, as modified by Section 61(a)(1) of the 1940 Act, whether or not it is subject to those requirements, and to provide financial information to the holders of the 4.750% notes and U.S. Bank if the Company is no longer subject to the reporting requirements under the Exchange Act. These covenants are subject to limitations and exceptions that are described in the indenture.

The net proceeds to the Company from the issuance of the 4.750% notes were approximately \$271,656 before expenses, after deducting the underwriting discounts and commissions of \$2,475. The Company used the net proceeds received from the issuance of the 4.750% notes to repay borrowings under existing indebtedness.

Forward-Looking Statements

Some of the statements in this quarterly report on Form 10-Q constitute forward-looking statements because they relate to future events or our future performance or financial condition. The forward-looking statements contained in this quarterly report on Form 10-Q may include statements as to:

- our future operating results;
- our business prospects and the prospects of the companies in which we may invest;
- the impact of the investments that we expect to make;
- the ability of our portfolio companies to achieve their objectives;
- our current and expected financings and investments;
- receiving and maintaining corporate credit ratings and changes in the general interest rate environment;
- the adequacy of our cash resources, financing sources and working capital;
- the timing and amount of cash flows, distributions and dividends, if any, from our portfolio companies;
- our contractual arrangements and relationships with third parties;
- actual and potential conflicts of interest with FB Advisor, FS Investment Advisor, LLC, FS Energy and Power Fund, FSIC II Advisor, LLC, FS Investment Corporation II, FSIC III Advisor, LLC, FS Investment Corporation III, FS Global Advisor, LLC, FS Global Credit Opportunities Fund, GDFM or any of their affiliates;
- the dependence of our future success on the general economy and its effect on the industries in which we may invest;
- our use of financial leverage;
- the ability of FB Advisor to locate suitable investments for us and to monitor and administer our investments;
- the ability of FB Advisor or its affiliates to attract and retain highly talented professionals;
- our ability to maintain our qualification as a RIC and as a BDC;
- the impact on our business of the Dodd-Frank Wall Street Reform and Consumer Protection Act, as amended, and the rules and regulations issued thereunder;
- the effect of changes to tax legislation and our tax position; and
- the tax status of the enterprises in which we may invest.

In addition, words such as "anticipate," "believe," "expect" and "intend" indicate a forward-looking statement, although not all forward-looking statements include these words. The forward-looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason. Factors that could cause actual results to differ materially include:

- changes in the economy;
- risks associated with possible disruption in our operations or the economy generally due to terrorism or natural disasters;

- future changes in laws or regulations and conditions in our operating areas; and
- the price at which shares of our common stock may trade on the NYSE.

We have based the forward-looking statements included in this quarterly report on Form 10-Q on information available to us on the date of this quarterly report on Form 10-Q. Except as required by the federal securities laws, we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise. Stockholders are advised to consult any additional disclosures that we may make directly to stockholders or through reports that we may file in the future with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. The forward-looking statements and projections contained in this quarterly report on Form 10-Q are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Exchange Act.

Overview

We were incorporated under the general corporation laws of the State of Maryland on December 21, 2007 and formally commenced investment operations on January 2, 2009. We are an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a BDC under the 1940 Act and has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a RIC under Subchapter M of the Code.

On April 16, 2014, shares of our common stock began trading on the NYSE under the ticker symbol “FSIC”. This listing accomplished our goal of providing our stockholders with greatly enhanced liquidity.

Our investment activities are managed by FB Advisor and supervised by our board of directors, a majority of whom are independent. Under the July investment advisory agreement, we have agreed to pay FB Advisor an annual base management fee based on the average value of our gross assets and an incentive fee based on our performance. FB Advisor has engaged GDFM to act as our investment sub-adviser. GDFM assists FB Advisor in identifying investment opportunities and makes investment recommendations for approval by FB Advisor according to guidelines set by FB Advisor.

Our investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. We have identified and intend to focus on the following investment categories, which we believe will allow us to generate an attractive total return with an acceptable level of risk.

Direct Originations: We intend to leverage our relationship with GDFM and its global sourcing and origination platform to directly source investment opportunities. Such investments are originated or structured for us or made by us and are not generally available to the broader market. These investments may include both debt and equity components, although we do not expect to make equity investments independent of having an existing credit relationship. We believe directly originated investments may offer higher returns and more favorable protections than broadly syndicated transactions.

Opportunistic: We intend to seek to capitalize on market price inefficiencies by investing in loans, bonds and other securities where the market price of such investment reflects a lower value than deemed warranted by our fundamental analysis. We believe that market price inefficiencies may occur due to, among other things, general dislocations in the markets, a misunderstanding by the market of a particular company or an industry being out of favor with the broader investment community. We seek to allocate capital to these securities that have been misunderstood or mispriced by the market and where we believe there is an opportunity to earn an attractive return on our investment. Such opportunities may include event driven investments, anchor orders and CLOs.

[Table of Contents](#)

In the case of event driven investments, we intend to take advantage of dislocations that arise in the markets due to an impending event and where the market's apparent expectation of value differs substantially from our fundamental analysis. Such events may include a looming debt maturity or default, a merger, spin-off or other corporate reorganization, an adverse regulatory or legal ruling, or a material contract expiration, any of which may significantly improve or impair a company's financial position. Compared to other investment strategies, event driven investing depends more heavily on our ability to successfully predict the outcome of an individual event rather than on underlying macroeconomic fundamentals. As a result, successful event driven strategies may offer both substantial diversification benefits and the ability to generate performance in uncertain market environments.

We may also invest in certain opportunities that are originated and then syndicated by a commercial or investment bank, but where we provide a capital commitment significantly above the average syndicate participant, i.e., an anchor order. In these types of investments, we may receive fees, preferential pricing or other benefits not available to other lenders in return for our significant capital commitment. Our decision to provide an anchor order to a syndicated transaction is predicated on a rigorous credit analysis, our familiarity with a particular company, industry or financial sponsor, and the broader investment experiences of FB Advisor and GDFM.

In addition, our relationship with GSO Capital Partners LP, the parent of GDFM, and one of the largest CLO managers in the world, allows us to opportunistically invest in CLOs. CLOs are a form of securitization where the cash flow from a pooled basket of syndicated loans is used to support distribution payments made to different tranches of securities. While collectively CLOs represent nearly fifty percent of the broadly syndicated loan universe, investing in individual CLO tranches requires a high degree of investor sophistication due to their structural complexity and the illiquid nature of their securities.

Broadly Syndicated/Other: Although our primary focus is to invest in directly originated transactions and opportunistic investments, in certain circumstances we will also invest in the broadly syndicated loan and high yield markets. Broadly syndicated loans and bonds are generally more liquid than our directly originated investments and provide a complement to our less liquid strategies. In addition, and because we typically receive more attractive financing terms on these positions than we do on our less liquid assets, we are able to leverage the broadly syndicated portion of our portfolio in such a way that maximizes the levered return potential of our portfolio.

Our portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle market U.S. companies and, to a lesser extent, subordinated loans of private U.S. companies. Although we do not expect a significant portion of our portfolio to be comprised of subordinated loans, there is no limit on the amount of such loans in which we may invest. We may purchase interests in loans or make other debt investments, including investments in senior secured bonds, through secondary market transactions in the "over-the-counter" market or directly from our target companies as primary market or directly originated investments. In connection with our debt investments, we may on occasion receive equity interests such as warrants or options as additional consideration. We may also purchase minority interests in the form of common or preferred equity or the equity-related securities in our target companies, generally in conjunction with one of our debt investments or through a co-investment with a financial sponsor, such as an institutional investor or private equity firm. In addition, a portion of our portfolio may be comprised of corporate bonds, CLOs, other debt securities and derivatives, including total return swaps and credit default swaps. FB Advisor will seek to tailor our investment focus as market conditions evolve. Depending on market conditions, we may increase or decrease our exposure to less senior portions of the capital structure or otherwise make opportunistic investments.

The senior secured loans, second lien secured loans and senior secured bonds in which we invest generally have stated terms of three to seven years and subordinated debt investments that we make generally have stated terms of up to ten years, but the expected average life of such securities is generally between three and seven years. However, there is no limit on the maturity or duration of any security in our portfolio. Our debt

[Table of Contents](#)

investments may be rated by a nationally recognized statistical rating organization and, in such case, generally will carry a rating below investment grade (rated lower than “Baa3” by Moody’s Investors Service, Inc. or lower than “BBB-” by Standard & Poor’s Ratings Services). We also invest in non-rated debt securities.

Revenues

The principal measure of our financial performance is net increase in net assets resulting from operations, which includes net investment income, net realized gain or loss on investments, net realized gain or loss on foreign currency, net unrealized appreciation or depreciation on investments and net unrealized gain or loss on foreign currency. Net investment income is the difference between our income from interest, dividends, fees and other investment income and our operating and other expenses. Net realized gain or loss on investments is the difference between the proceeds received from dispositions of portfolio investments and their amortized cost, including the respective realized gain or loss on foreign currency for those foreign denominated investment transactions. Net realized gain or loss on foreign currency is the portion of realized gain or loss attributable to foreign currency fluctuations. Net unrealized appreciation or depreciation on investments is the net change in the fair value of our investment portfolio, including the respective unrealized gain or loss on foreign currency for those foreign denominated investments. Net unrealized gain or loss on foreign currency is the net change in the value of receivables or accruals due to the impact of foreign currency fluctuations.

We principally generate revenues in the form of interest income on the debt investments we hold. In addition, we generate revenues in the form of non-recurring commitment, closing, origination, structuring or diligence fees, monitoring fees, fees for providing managerial assistance, consulting fees, prepayment fees and performance-based fees. Any such fees generated in connection with our investments will be recognized as earned. We may also generate revenues in the form of dividends and other distributions on the equity or other securities we hold.

Expenses

Our primary operating expenses include the payment of management and incentive fees and other expenses under the July 2014 investment advisory agreement and the administration agreement, interest expense from financing facilities and other indebtedness, and other expenses necessary for our operations. The management and incentive fees compensate FB Advisor for its work in identifying, evaluating, negotiating, executing, monitoring and servicing our investments. FB Advisor is responsible for compensating our investment sub-adviser.

FB Advisor oversees our day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations and other administrative services. FB Advisor also performs, or oversees the performance of, our corporate operations and required administrative services, which includes being responsible for the financial records that we are required to maintain and preparing reports for our stockholders and reports filed with the SEC. In addition, FB Advisor assists us in calculating our net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to our stockholders, and generally overseeing the payment of our expenses and the performance of administrative and professional services rendered to us by others.

Pursuant to the administration agreement, we reimburse FB Advisor for expenses necessary to perform services related to our administration and operations, including FB Advisor’s allocable portion of the compensation and related expenses of certain personnel of Franklin Square Holdings providing administrative services to us on behalf of FB Advisor. We reimburse FB Advisor no less than quarterly for all costs and expenses incurred by FB Advisor in performing its obligations and providing personnel and facilities under the administration agreement. FB Advisor allocates the cost of such services to us based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. Our board of directors reviews the methodology employed in determining how the expenses are allocated to us and the proposed allocation of administrative expenses among us and certain affiliates of FB Advisor. Our board of directors then assesses the reasonableness of such reimbursements for expenses allocated to us based on the breadth, depth and quality of such services as compared to the estimated cost to us of obtaining similar services from third-party service

[Table of Contents](#)

providers known to be available. In addition, our board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, our board of directors compares the total amount paid to FB Advisor for such services as a percentage of our net assets to the same ratio as reported by other comparable BDCs.

We bear all other expenses of our operations and transactions, including (without limitation) fees and expenses relating to:

- corporate and organization expenses relating to offerings of our securities, subject to limitations included in the July 2014 investment advisory agreement;
- the cost of calculating our net asset value, including the cost of any third-party pricing or valuation services;
- the cost of effecting sales and repurchases of shares of our common stock and other securities;
- investment advisory fees;
- fees payable to third parties relating to, or associated with, making investments and valuing investments, including fees and expenses associated with performing due diligence reviews of prospective investments;
- interest payments on our debt or related obligations;
- transfer agent and custodial fees;
- research and market data (including news and quotation equipment and services, and any computer hardware and connectivity hardware (e.g., telephone and fiber optic lines) incorporated into the cost of obtaining such research and market data);
- fees and expenses associated with marketing efforts;
- federal and state registration fees;
- federal, state and local taxes;
- fees and expenses of directors not also serving in an executive officer capacity for us or FB Advisor;
- costs of proxy statements, stockholders' reports, notices and other filings;
- fidelity bond, directors and officers/errors and omissions liability insurance and other insurance premiums;
- direct costs such as printing, mailing, long distance telephone and staff;
- fees and expenses associated with accounting, corporate governance, independent audits and outside legal costs;
- costs associated with our reporting and compliance obligations under the 1940 Act and applicable federal and state securities laws, including compliance with the Sarbanes-Oxley Act of 2002;
- brokerage commissions for our investments; and
- all other expenses incurred by FB Advisor, GDFM or us in connection with administering our business, including expenses incurred by FB Advisor or GDFM in performing administrative services for us and administrative personnel paid by FB Advisor or GDFM, to the extent they are not controlling persons of FB Advisor, GDFM, or any of their respective affiliates, subject to the limitations included in the July 2014 investment advisory agreement and the administration agreement.

In addition, we have contracted with State Street Bank and Trust Company to provide various accounting and administrative services, including, but not limited to, preparing preliminary financial information for review by FB Advisor, preparing and monitoring expense budgets, maintaining accounting and corporate books and records, processing trade information provided by us and performing testing with respect to RIC compliance.

As of March 31, 2015, except for one equity/other investment, Fronton Investor Holdings, LLC, we were not an “affiliated person” of any of our portfolio companies, as defined in the 1940 Act. As of March 31, 2015, we did not “control” any of our portfolio companies, as defined in the 1940 Act. In general, under the 1940 Act, we would be presumed to “control” a portfolio company if we owned 25% or more of its voting securities or we had the power to exercise control over the management or policies of such portfolio company, and would be an “affiliated person” of a portfolio company if we owned 5% or more of its voting securities.

Our investment portfolio may contain loans that are in the form of lines of credit, revolving credit facilities, delayed draw credit facilities or other investments, which require us to provide funding when requested by portfolio companies in accordance with the terms of the underlying loan agreements. As of March 31, 2015, we had eleven such investments with aggregate unfunded commitments of \$116,193 and one equity/other investment with an unfunded commitment of \$746. As of December 31, 2014, we had ten such investments with aggregate unfunded commitments of \$101,099 and one equity/other investment with an unfunded commitment of \$788. We maintain sufficient cash on hand and available borrowings to fund such unfunded commitments should the need arise.

Portfolio Asset Quality

In addition to various risk management and monitoring tools, FB Advisor uses an investment rating system to characterize and monitor the expected level of returns on each investment in our portfolio. FB Advisor uses an investment rating scale of 1 to 5. The following is a description of the conditions associated with each investment rating:

Investment Rating	Summary Description
1	Investment exceeding expectations and/or capital gain expected.
2	Performing investment generally executing in accordance with the portfolio company's business plan—full return of principal and interest expected.
3	Performing investment requiring closer monitoring.
4	Underperforming investment—some loss of interest or dividend possible, but still expecting a positive return on investment.
5	Underperforming investment with expected loss of interest and some principal.

The following table shows the distribution of our investments on the 1 to 5 investment rating scale at fair value as of March 31, 2015 and December 31, 2014:

Investment Rating	March 31, 2015		December 31, 2014	
	Fair Value	Percentage of Portfolio	Fair Value	Percentage of Portfolio
1	\$ 500,953	12%	\$ 484,332	12%
2	3,159,656	76%	3,213,335	77%
3	459,260	11%	434,620	10%
4	20,200	0%	37,178	1%
5	21,614	1%	13,982	0%
Total	<u>\$4,161,683</u>	<u>100%</u>	<u>\$4,183,447</u>	<u>100%</u>

The amount of the portfolio in each grading category may vary substantially from period to period resulting primarily from changes in the composition of the portfolio as a result of new investment, repayment and exit activities. In addition, changes in the grade of investments may be made to reflect our expectation of performance and changes in investment values.

Results of Operations

Comparison of the Three Months Ended March 31, 2015 and March 31, 2014

Revenues

We generated investment income of \$108,635 and \$114,796 for the three months ended March 31, 2015 and 2014, respectively, in the form of interest and fees earned on senior secured loans (first and second lien), senior secured bonds, subordinated debt and collateralized securities in our portfolio and dividends and other distributions earned on equity/other investments. Such revenues represent \$99,773 and \$104,283 of cash income earned as well as \$8,862 and \$10,513 in non-cash portions relating to accretion of discount and PIK interest for the three months ended March 31, 2015 and 2014, respectively. Cash flows related to such non-cash revenues may not occur for a number of reporting periods or years after such revenues are recognized. The decrease in investment income is due primarily to the reduction in fee income earned during the current quarter compared to the three months ended March 31, 2014. The level of investment income we receive is directly related to the balance of income-producing investments multiplied by the weighted average yield of our investments.

[Table of Contents](#)

During the three months ended March 31, 2015 and 2014, we generated \$4,696 and \$10,085, respectively, of fee income, which represented 4.3% and 8.8%, respectively of total investment income. Such fee income is transaction based, and typically consists of amendment and consent fees, prepayment fees, structuring fees and other non-recurring fees. As such, future fee income is generally dependent on new direct origination investments and the occurrence of events at existing portfolio companies resulting in such fees.

Expenses

Our expenses were \$56,986 and \$58,919 for the three months ended March 31, 2015 and 2014, respectively. Our operating expenses include base management fees attributed to FB Advisor of \$19,038 and \$22,371 for the three months ended March 31, 2015 and 2014, respectively. Our expenses also include administrative services expenses attributed to FB Advisor of \$991 and \$1,200 for the three months ended March 31, 2015 and 2014, respectively.

FB Advisor is eligible to receive incentive fees based on our performance. During the three months ended March 31, 2015, we accrued a subordinated incentive fee on income of \$13,905 and paid FB Advisor \$13,089 in respect of such fee. As of March 31, 2015, a subordinated incentive fee on income of \$13,905 was payable to FB Advisor. During the three months ended March 31, 2014, we accrued a subordinated incentive fee on income of \$15,178 and paid FB Advisor \$14,303 in respect of such fee. During the three months ended March 31, 2015 and 2014, we accrued capital gains incentive fees of \$3,748 and \$4,836, respectively, based on the performance of our portfolio. No capital gains incentive fees are actually payable by us with respect to unrealized gains unless and until those gains are actually realized. See “—Critical Accounting Policies—Capital Gains Incentive Fee” for additional information about how the incentive fees are calculated.

We recorded interest expense of \$17,299 and \$12,700 for the three months ended March 31, 2015 and 2014, respectively, in connection with our credit facilities, the JPM Facility, the 4.000% notes and the 4.250% notes. The fees incurred with our fund administrator, which provides various accounting and administrative services to us, totaled \$276 and \$332 for the three months ended March 31, 2015 and 2014, respectively. We incurred fees and expenses with our stock transfer agent of \$80 and \$451 for the three months ended March 31, 2015 and 2014, respectively. Fees for our board of directors were \$227 and \$265 for the three months ended March 31, 2015 and 2014, respectively.

Our other general and administrative expenses totaled \$1,422 and \$1,586 for the three months ended March 31, 2015 and 2014, respectively, and consisted of the following:

	Three Months Ended March 31,	
	2015	2014
Expenses associated with our independent audit and related fees	\$ 137	\$ 132
Compensation of our chief compliance officer ⁽¹⁾	25	25
Legal fees	371	445
Printing fees	99	295
Other	790	689
Total	<u>\$ 1,422</u>	<u>\$ 1,586</u>

(1) On April 1, 2015, James F. Volk was appointed as our chief compliance officer. Prior to that date, we had contracted with Vigilant Compliance, LLC to provide the services of Salvatore Faia as our chief compliance officer. Mr. Volk is employed by Franklin Square Holdings and will not receive any direct compensation from us in this capacity.

During the three months ended March 31, 2015 and 2014, the ratio of our expenses to our average net assets was 2.41% and 2.20%, respectively. Our ratio of expenses to our average net assets during the three months ended March 31, 2015 and 2014 includes \$17,299 and \$12,700, respectively, related to interest expense and

[Table of Contents](#)

\$17,653 and \$20,014, respectively, related to accruals for incentive fees. Without such expenses, our ratio of expenses to average net assets would have been 0.93% and 0.97% for the three months ended March 31, 2015 and 2014, respectively. Incentive fees and interest expense, among other things, may increase or decrease our expense ratios relative to comparative periods depending on portfolio performance and changes in benchmark interest rates such as LIBOR, among other factors. The lower ratio of expenses to average net assets, excluding incentive fees and interest expense, during the three months ended March 31, 2015 compared to the three months ended March 31, 2014 can primarily be attributed to a permanent reduction in management fees pursuant to the July 2014 investment advisory agreement, as well as a reduction in administrative services expenses and stock transfer agent fees charged to us.

Net Investment Income

Our net investment income totaled \$51,649 (\$0.21 per share) and \$55,877 (\$0.21 per share) for the three months ended March 31, 2015 and 2014, respectively. The decrease in net investment income can be attributed to, among other things, a reduction in revenues from fee income for the three months ended March 31, 2015, which were largely offset by the expense reductions noted above. Net investment income on a per share basis remained unchanged, as the reduction in net investment income was in proportion to the quarter over quarter decline in average shares outstanding as a result of our listing tender offer.

Net Realized Gains or Losses

We sold investments and received principal repayments of \$94,334 and \$143,021, respectively, during the three months ended March 31, 2015, from which we realized a net gain of \$3,285. We also realized a net gain of \$110 from settlements on foreign currency during the three months ended March 31, 2015. We sold investments and received principal repayments of \$306,983 and \$259,132, respectively, during the three months ended March 31, 2014, from which we realized a net gain of \$13,822. We also realized a net loss of \$19 from settlements on foreign currency during the three months ended March 31, 2014.

Net Change in Unrealized Appreciation (Depreciation) on Investments and Unrealized Gain (Loss) on Foreign Currency

For the three months ended March 31, 2015, the net change in unrealized appreciation (depreciation) on investments totaled \$11,934 and the net change in unrealized gain (loss) on foreign currency totaled \$3,448. For the three months ended March 31, 2014, the net change in unrealized appreciation (depreciation) on investments totaled \$10,335 and the net change in unrealized gain (loss) on foreign currency totaled \$45. The net change in unrealized appreciation (depreciation) on our investments during the three months ended March 31, 2015 was primarily driven by increased valuations of our subordinated debt and equity/other positions.

Net Increase (Decrease) in Net Assets Resulting from Operations

For the three months ended March 31, 2015, the net increase in net assets resulting from operations was \$70,426 (\$0.29 per share) compared to a net increase in net assets resulting from operations of \$80,060 (\$0.31 per share) during the three months ended March 31, 2014.

Financial Condition, Liquidity and Capital Resources

Overview

As of March 31, 2015, we had \$88,880 in cash and foreign currency, which we held in a custodial account, and \$250,995 in borrowings available under our financing arrangements. As of March 31, 2015, we had eleven debt investments with aggregate unfunded commitments of \$116,193 and one equity investment with an unfunded commitment of \$746. We maintain sufficient cash on hand and available borrowings to fund such unfunded commitments should the need arise.

Financing Arrangements

The following table presents a summary of information with respect to our outstanding financing arrangements as of March 31, 2015:

Arrangement	Type of Arrangement	Rate	Amount Outstanding	Amount Available	Maturity Date
Broad Street Credit Facility	Revolving Credit Facility	L+1.50%	\$ 70,008	\$ 54,992	December 18, 2015
ING Credit Facility	Revolving Credit Facility	L+2.50%	\$ 103,997 ⁽¹⁾	\$ 196,003	April 3, 2018
JPM Facility	Repurchase Agreement	3.25%	\$ 950,000	\$ —	April 15, 2017
4.000% Notes due 2019	Unsecured Notes	4.00%	\$ 400,000	\$ —	July 15, 2019
4.250% Notes due 2020	Unsecured Notes	4.25%	\$ 325,000	\$ —	January 15, 2020

(1) Amount includes borrowing in U.S. dollars and Euros. Euro balance outstanding of €29,625 has been converted to U.S. dollars at an exchange rate of €1.00 to \$1.07 as of March 31, 2015 to reflect total amount outstanding in U.S. dollars.

Our average borrowings and weighted average interest rate, including the effect of non-usage fees, for the three months ended March 31, 2015 were \$1,877,622 and 3.50%, respectively. As of March 31, 2015, our weighted average effective interest rate on borrowings, including the effect of non-usage fees was 3.61%.

For additional information regarding our financing arrangements, see Note 8 to our unaudited consolidated financial statements included herein.

Subsequent Events

On April 30, 2015, we and U.S. Bank entered into a third supplemental indenture to the base indenture relating to our issuance of \$275,000 aggregate principal amount of our 4.750% notes.

The net proceeds to us were approximately \$271,656 before expenses, after deducting the underwriting discounts and commissions of \$2,475. We used the net proceeds received from the issuance of the 4.750% notes to repay borrowings under existing indebtedness.

For additional information regarding the 4.750% notes, see Note 12 to our unaudited consolidated financial statements included herein.

RIC Status and Distributions

We have elected to be treated for U.S. federal income tax purposes, and intend to qualify annually, as a RIC under Subchapter M of the Code. In order to qualify as a RIC, we must, among other things, make distributions of an amount at least equal to 90% of our investment company taxable income, determined without regard to any deduction for distributions paid, each tax year. As long as the distributions are declared by the later of the fifteenth day of the ninth month following the close of the tax year or the due date of the tax return, including extensions, distributions paid up to one year after the current taxable year can be carried back to the prior taxable year for determining the distributions paid in such taxable year. We intend to make sufficient distributions to our stockholders to qualify for and maintain our RIC status each year. We are also subject to nondeductible federal excise taxes if we do not distribute during each calendar year an amount at least equal to the sum of (1) 98% of our net ordinary income (taking into account certain deferrals and elections) for the calendar year, (2) 98.2% of our capital gains in excess of capital losses (adjusted for certain ordinary losses), or capital gain net income, for the one-year period ending on October 31 of the calendar year and (3) any net ordinary income and capital gain net income for preceding years that were not distributed during such years and on which we paid no U.S. federal income tax. Any distribution declared by us in October, November or December of any calendar year, payable to

[Table of Contents](#)

stockholders of record on a specified date in such a month and actually paid during January of the following calendar year, will be treated as if it had been received by our U.S. stockholders on December 31 of the calendar year in which the distribution was declared. We can offer no assurance that we will achieve results that will permit us to pay any cash distributions. If we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

Following commencement of our investment operations, we declared our first distribution on January 29, 2009. Effective January 1, 2015 and subject to applicable legal restrictions and the sole discretion of our board of directors, we intend to authorize, declare and pay regular cash distributions on a quarterly basis. We will calculate each stockholder's specific distribution amount for the period using record and declaration dates and each stockholder's distributions will begin to accrue on the date that shares of our common stock are issued to such stockholder. From time to time, we may also pay special interim distributions in the form of cash or shares of our common stock at the discretion of our board of directors. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of our board of directors.

During certain periods, our distributions may exceed our earnings. As a result, it is possible that a portion of the distributions we make may represent a return of capital. A return of capital generally is a return of a stockholder's investment rather than a return of earnings or gains derived from our investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions will be mailed to our stockholders. No portion of the distributions paid during the three months ended March 31, 2015 or 2014 represented a return of capital.

We intend to continue to make our regular distributions in the form of cash, out of assets legally available for distribution, except for those stockholders who receive their distributions in the form of shares of our common stock under the new DRP. Any distributions reinvested under the plan will nevertheless remain taxable to a U.S. stockholder.

The following table reflects the cash distributions per share that we have declared on our common stock during the three months ended March 31, 2015 and 2014:

For the Three Months Ended,	Distribution	
	Per Share	Amount
Fiscal 2014		
March 31, 2014	\$0.2160	\$56,237
Fiscal 2015		
March 31, 2015	\$0.2228	\$53,706

On April 29, 2015, our board of directors declared a regular quarterly cash distribution of \$0.22275 per share, which will be paid on or about July 2, 2015 to stockholders of record on June 24, 2015. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of our board of directors.

Historically, we had an "opt in" distribution reinvestment plan for our stockholders, which terminated upon the listing of our shares of common stock on the NYSE. The final distribution reinvestment under the old DRP was made in connection with the regular monthly cash distribution paid on March 31, 2014 to stockholders of record as of the close of business on March 28, 2014. Under the old DRP, if we made a cash distribution, our stockholders received distributions in cash unless they specifically "opted in" to the distribution reinvestment plan so as to have their cash distributions reinvested in additional shares of our common stock. On May 23, 2014, we adopted an "opt out" distribution reinvestment plan, which was effective June 2, 2014. The new DRP was

[Table of Contents](#)

first implemented in connection with the regular monthly cash distribution paid on July 2, 2014 to stockholders of record as of the close of business on June 24, 2014. Pursuant to the new DRP, we will reinvest all cash dividends or distributions declared by our board of directors on behalf of stockholders who do not elect to receive their distributions in cash. As a result, if our board of directors declares a distribution, then stockholders who have not elected to “opt out” of the new DRP will have their distributions automatically reinvested in additional shares of our common stock.

With respect to each distribution pursuant to the new DRP, we reserve the right to either issue new shares of common stock or purchase shares of common stock in the open market in connection with implementation of the new DRP. Unless in our sole discretion, we otherwise direct the plan administrator, (A) if the per share market price (as defined in the new DRP) is equal to or greater than the estimated net asset value per share (rounded up to the nearest whole cent) of our common stock on the payment date for the distribution, then we will issue shares of common stock at the greater of (i) net asset value per share of common stock or (ii) 95% of the market price; or (B) if the market price is less than the net asset value per share, then, in our sole discretion, (i) shares of common stock will be purchased in open market transactions for the accounts of participants to the extent practicable, or (ii) we will issue shares of common stock at net asset value per share. Pursuant to the terms of the new DRP, the number of shares of common stock to be issued to a participant will be determined by dividing the total dollar amount of the distribution payable to a participant by the price per share at which we issue such shares; provided, however, that shares purchased in open market transactions by the plan administrator will be allocated to a participant based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market.

If a stockholder receives distributions in the form of common stock pursuant to the new DRP, such stockholder generally will be subject to the same federal, state and local tax consequences as if it elected to receive distributions in cash. If our common stock is trading at or below net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of cash that they would have received if they had elected to receive the distribution in cash. If our common stock is trading above net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of the fair market value of our common stock. The stockholder’s basis for determining gain or loss upon the sale of common stock received in a distribution will be equal to the total dollar amount of the distribution payable to the stockholder. Any stock received in a distribution will have a holding period for tax purposes commencing on the day following the day on which the shares of common stock are credited to the stockholder’s account.

We may fund our cash distributions to stockholders from any sources of funds legally available to us, including proceeds from the sale of shares of our common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets and dividends or other distributions paid to us on account of preferred and common equity investments in portfolio companies. We have not established limits on the amount of funds we may use from available sources to make distributions. There can be no assurance that we will be able to pay distributions at a specific rate or at all.

The following table reflects the sources of the cash distributions on a tax basis that we have paid on our common stock during the three months ended March 31, 2015 and 2014:

(1) During the three months ended March 31, 2015 and 2014, 91.8% and 90.9%, respectively, of our gross investment income was attributable to cash income earned, 3.6% and 7.0%, respectively, was attributable to non-cash accretion of discount and 4.6% and 2.1%, respectively, was attributable to PIK interest.

Our net investment income on a tax basis for the three months ended March 31, 2015 and 2014, was \$56,501 and \$51,851, respectively. As of March 31, 2015 and December 31, 2014, we had \$159,756 and \$152,743, respectively, of undistributed net investment income and realized gains on a tax basis.

See Note 5 to our unaudited consolidated financial statements included herein for additional information regarding our distributions, including a reconciliation of our GAAP-basis net investment income to our tax-basis net investment income for the three months ended March 31, 2015 and 2014.

Critical Accounting Policies

Our financial statements are prepared in conformity with GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Critical accounting policies are those that require the application of management's most difficult, subjective or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. In preparing the financial statements, management has made estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. In preparing the financial statements, management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses. As we execute our operating plans, we will describe additional critical accounting policies in the notes to our future financial statements in addition to those discussed below.

Valuation of Portfolio Investments

We determine the net asset value of our investment portfolio each quarter. Securities that are publicly-traded are valued at the reported closing price on the valuation date. Securities that are not publicly-traded are valued at fair value as determined in good faith by our board of directors. In connection with that determination, FB Advisor provides our board of directors with portfolio company valuations which are based on relevant inputs, including, but not limited to, indicative dealer quotes, values of like securities, recent portfolio company financial statements and forecasts, and valuations prepared by third-party valuation services.

[Table of Contents](#)

Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosure, or ASC Topic 820, issued by the FASB, clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC Topic 820 defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities where there is little or no activity in the market; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

With respect to investments for which market quotations are not readily available, we undertake a multi-step valuation process each quarter, as described below:

- our quarterly valuation process begins with FB Advisor's management team providing a preliminary valuation of each portfolio company or investment to our valuation committee, which valuation may be obtained from an independent valuation firm, if applicable;
- preliminary valuation conclusions are then documented and discussed with our valuation committee;
- our valuation committee reviews the preliminary valuation and FB Advisor's management team, together with our independent valuation firm, if applicable, responds and supplements the preliminary valuation to reflect any comments provided by the valuation committee; and
- our board of directors discusses valuations and determines the fair value of each such investment in our portfolio in good faith based on various statistical and other factors, including the input and recommendation of FB Advisor, the valuation committee and any third-party valuation firm, if applicable.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our consolidated financial statements refer to the uncertainty with respect to the possible effect of such valuations and any change in such valuations on our consolidated financial statements. In making its determination of fair value, our board of directors may use independent third-party pricing or valuation services. However, our board of directors is not required to determine fair value in accordance with the valuation provided by any single source, and may use any relevant data, including information obtained from FB Advisor or any independent third-party valuation or pricing service that our board of directors deems to be reliable in determining fair value under the circumstances. Below is a description of factors that our board of directors may consider when valuing our debt and equity investments.

Valuation of fixed income investments, such as loans and debt securities, depends upon a number of factors, including prevailing interest rates for like securities, expected volatility in future interest rates, call features, put features and other relevant terms of the debt. For investments without readily available market prices, we may incorporate these factors into discounted cash flow models to arrive at fair value. Other factors that our board of directors may consider include the borrower's ability to adequately service its debt, the fair market value of the portfolio company in relation to the face amount of its outstanding debt and the quality of collateral securing our debt investments.

For convertible debt securities, fair value generally approximates the fair value of the debt plus the fair value of an option to purchase the underlying security (the security into which the debt may convert) at the conversion price. To value such an option, a standard option pricing model may be used.

Our equity interests in portfolio companies for which there is no liquid public market are valued at fair value. Our board of directors, in its analysis of fair value, may consider various factors, such as multiples of EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. All of these

[Table of Contents](#)

factors may be subject to adjustments based upon the particular circumstances of a portfolio company or our actual investment position. For example, adjustments to EBITDA may take into account compensation to previous owners or acquisition, recapitalization, restructuring or other related items.

Our board of directors may also look to private merger and acquisition statistics, public trading multiples discounted for illiquidity and other factors, valuations implied by third-party investments in the portfolio companies or industry practices in determining fair value. Our board of directors may also consider the size and scope of a portfolio company and its specific strengths and weaknesses, and may apply discounts or premiums, where and as appropriate, due to the higher (or lower) financial risk and/or the size of portfolio companies relative to comparable firms, as well as such other factors as our board of directors, in consultation with any third-party valuation firm, if applicable, may consider relevant in assessing fair value. Generally, the value of our equity interests in public companies for which market quotations are readily available is based upon the most recent closing public market price. Portfolio securities that carry certain restrictions on sale are typically valued at a discount from the public market value of the security.

When we receive warrants or other equity securities at nominal or no additional cost in connection with an investment in a debt security, the cost basis in the investment will be allocated between the debt securities and any such warrants or other equity securities received at the time of origination. Our board of directors subsequently values these warrants or other equity securities received at fair value.

The fair values of our investments are determined in good faith by our board of directors. Our board of directors is solely responsible for the valuation of our portfolio investments at fair value as determined in good faith pursuant to our valuation policy and consistently applied valuation process.

Our investments as of March 31, 2015 consisted primarily of debt securities that were acquired directly from the issuer. Forty-four senior secured loan investments, one senior secured bond investment, eleven subordinated debt investments and one collateralized security, for which broker quotes were not available, were valued by independent valuation firms, which determined the fair value of such investments by considering, among other factors, the borrower's ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features and other relevant terms of the debt. Except as described below, all of our equity/other investments were valued by the same independent valuation firms, which determined the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. One equity investment which is traded on an active public market was valued at its closing price as of March 31, 2015. One senior secured loan investment, which was newly issued and purchased near March 31, 2015, was valued at cost as our board of directors determined that the cost of such investment was the best indication of its fair value. Except as described above, we valued our other investments, including one equity/other investments by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which were provided by independent third-party pricing services and screened for validity by such services.

Our investments as of December 31, 2014 consisted primarily of debt investments that were acquired directly from the issuer. Forty-one senior secured loan investments, one senior secured bond investment, eleven subordinated debt investments and one collateralized security, for which broker quotes were not available, were valued by an independent valuation firm, which determined the fair value of such investments by considering, among other factors, the borrower's ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features and other relevant terms of the debt. Except as described below, all of our equity/other investments were valued by the same independent valuation firm, which determined the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. One equity investment which is traded on an active public market was valued at its closing price as of December 31, 2014. One senior secured loan investment and two collateralized loan securities, which were newly issued and purchased near December 31, 2014, were valued at

cost as our board of directors determined that the cost of each such investment was the best indication of its fair value. Except as described above, we valued our other investments, including three equity/other investments, by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which were provided by independent third-party pricing services and screened for validity by such services.

We periodically benchmark the bid and ask prices we receive from the third-party pricing services and/or dealers, as applicable, against the actual prices at which we purchase and sell our investments. Based on the results of the benchmark analysis and the experience of our management in purchasing and selling these investments, we believe that these prices are reliable indicators of fair value. However, because of the private nature of this marketplace (meaning actual transactions are not publicly reported), we believe that these valuation inputs are classified as Level 3 within the fair value hierarchy. We may also use other methods, including the use of an independent valuation firm, to determine fair value for securities for which we cannot obtain prevailing bid and ask prices through third-party pricing services or independent dealers, or where our board of directors otherwise determines that the use of other methods is appropriate. We periodically benchmark the valuations provided by the independent valuation firm against the actual prices at which we purchase and sell our investments. Our valuation committee and board of directors reviewed and approved the valuation determinations made with respect to these investments in a manner consistent with our valuation process.

Revenue Recognition

Security transactions are accounted for on the trade date. We record interest income on an accrual basis to the extent that we expect to collect such amounts. We record dividend income on the ex-dividend date. We do not accrue as a receivable interest or dividends on loans and securities if we have reason to doubt our ability to collect such income. Loan origination fees, original issue discount and market discount are capitalized and we amortize such amounts as interest income over the respective term of the loan or security. Upon the prepayment of a loan or security, any unamortized loan origination fees and original issue discount are recorded as interest income. Structuring and other non-recurring upfront fees are recorded as fee income when earned. We record prepayment premiums on loans and securities as fee income when we receive such amounts.

Net Realized Gains or Losses, Net Change in Unrealized Appreciation or Depreciation and Net Change in Unrealized Gains or Losses on Foreign Currency

Gains or losses on the sale of investments are calculated by using the specific identification method. We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized, but considering unamortized fees. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including any reversal of previously recorded unrealized gains or losses when gains or losses are realized. Net change in unrealized gains or losses on foreign currency reflects the change in the value of receivables or accruals during the reporting period due to the impact of foreign currency fluctuations.

Capital Gains Incentive Fee

Pursuant to the terms of each of the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, the incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of such agreement). Such fee will equal 20.0% of our incentive fee capital gains (i.e., our realized capital gains on a cumulative basis from inception, calculated as of the end of the applicable period, net of all realized capital losses and unrealized capital depreciation on a cumulative basis), less the aggregate amount of any previously paid capital gains incentive fees. On a quarterly basis, we accrue for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.

While none of the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement or the July 2014 investment advisory agreement include or contemplate the

[Table of Contents](#)

inclusion of unrealized gains in the calculation of the capital gains incentive fee, pursuant to an interpretation of an AICPA Technical Practice Aid for investment companies, commencing during the quarter ended December 31, 2010, we changed our methodology for accruing for this incentive fee to include unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to FB Advisor if our entire portfolio was liquidated at its fair value as of the balance sheet date even though FB Advisor is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.

Subordinated Income Incentive Fee

Pursuant to the terms of each of the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, FB Advisor may also be entitled to receive a subordinated incentive fee on income. The subordinated incentive fee on income under the 2008 investment advisory and administrative services agreement, which was calculated and payable quarterly in arrears, equaled 20.0% of our “pre-incentive fee net investment income” for the immediately preceding quarter and was subject to a hurdle rate, expressed as a rate of return on adjusted capital, as defined in the 2008 investment advisory and administrative services agreement, equal to 2.0% per quarter, or an annualized hurdle rate of 8.0%. As a result, FB Advisor did not earn this incentive fee for any quarter until our pre-incentive fee net investment income for such quarter exceeded the hurdle rate of 2.0%. Once our pre-incentive fee net investment income in any quarter exceeded the hurdle rate, FB Advisor was entitled to a “catch-up” fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until our pre-incentive fee net investment income for such quarter equaled 2.5%, or 10.0% annually, of adjusted capital. Thereafter, FB Advisor received 20.0% of pre-incentive fee net investment income. Under the April 2014 investment advisory agreement, the subordinated incentive fee on income was calculated in the same manner, except that the hurdle rate used to compute the subordinated incentive fee on income was based on the value of our net assets rather than adjusted capital.

Under the July 2014 investment advisory agreement, the hurdle rate, expressed as a rate of return on the value of our net assets, was reduced from 2.0% to 1.875% per quarter, or an annualized hurdle rate of 7.5%. As a result, FB Advisor will not earn this incentive fee for any quarter until our pre-incentive fee net investment income for such quarter exceeds the hurdle rate of 1.875%. Once our pre-incentive fee net investment income in any quarter exceeds the hurdle rate, FB Advisor will be entitled to a “catch-up” fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until our pre-incentive fee net investment income for such quarter equals 2.34375%, or 9.375% annually, of net assets. Thereafter, FB Advisor will be entitled to receive 20.0% of pre-incentive fee net investment income.

Under both the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, the subordinated incentive fee on income is subject to a total return requirement, which provides that no incentive fee in respect of our pre-incentive fee net investment income will be payable except to the extent that 20.0% of the cumulative net increase in net assets resulting from operations over the then-current and eleven preceding calendar quarters exceeds the cumulative incentive fees accrued and/or paid for the eleven preceding calendar quarters. Accordingly, any subordinated incentive fee on income that is payable in a calendar quarter will be limited to the lesser of (i) 20.0% of the amount by which our pre-incentive fee net investment income for such calendar quarter exceeds the applicable quarterly hurdle rate, subject to the “catch-up” provision, and (ii) (x) 20.0% of the cumulative net increase in net assets resulting from operations for the then-current and eleven preceding calendar quarters minus (y) the cumulative incentive fees accrued and/or paid for the eleven preceding calendar quarters. For the foregoing purpose, the “cumulative net increase in net assets resulting from operations” is the sum of our pre-incentive fee net investment income, base management fees, realized gains and losses and unrealized appreciation and depreciation for the then-current and eleven preceding calendar quarters.

[Table of Contents](#)

There will be no accumulation of amounts on the hurdle rate from quarter to quarter and, accordingly, there will be no clawback of amounts previously paid if subsequent quarters are below the applicable quarterly hurdle rate and there will be no delay of payment if prior quarters are below the applicable quarterly hurdle rate.

Uncertainty in Income Taxes

We evaluate our tax positions to determine if the tax positions taken meet the minimum recognition threshold in connection with accounting for uncertainties in income tax positions taken or expected to be taken for the purposes of measuring and recognizing tax benefits or liabilities in our consolidated financial statements. Recognition of a tax benefit or liability with respect to an uncertain tax position is required only when the position is “more likely than not” to be sustained assuming examination by taxing authorities. We recognize interest and penalties, if any, related to unrecognized tax liabilities as income tax expense in our consolidated statements of operations. During the three months ended March 31, 2015 and 2014, we did not incur any interest or penalties.

Contractual Obligations

We have entered into agreements with FB Advisor to provide us with investment advisory and administrative services. Payments for investment advisory services under the July 2014 investment advisory agreement are equal to (a) an annual base management fee based on the average value of our gross assets and (b) an incentive fee based on our performance. FB Advisor, and to the extent it is required to provide such services, GDFM, are reimbursed for administrative expenses incurred on our behalf. See Note 4 to our unaudited consolidated financial statements included herein and “—Related Party Transactions— Compensation of the Investment Adviser” for a discussion of these agreements and for the amount of fees and expenses accrued under these agreements during the three months ended March 31, 2015 and 2014.

A summary of our significant contractual payment obligations for the repayment of outstanding indebtedness at March 31, 2015 is as follows:

	Payments Due By Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Broad Street Credit Facility ⁽¹⁾	\$ 70,008	\$ 70,008	—	—	—
ING Credit Facility ⁽²⁾	\$103,997	—	—	\$103,997	—
JPM Facility ⁽³⁾	\$950,000	\$ 950,000	—	—	—
4.000% Notes due 2019 ⁽⁴⁾	\$400,000	—	—	\$400,000	—
4.250% Notes due 2020 ⁽⁵⁾	\$325,000	—	—	\$325,000	—

- (1) At March 31, 2015, \$54,992 remained unused under the Broad Street credit facility. All such amounts will mature, and all accrued and unpaid interest thereunder will be due and payable, on December 18, 2015.
- (2) At March 31, 2015, \$196,003 remained unused under the ING credit facility. All such amounts will mature, and all accrued and unpaid interest thereunder will be due and payable, on April 3, 2018. Amount includes borrowing in U.S. dollars and Euros. Euro balance outstanding of €29,625 has been converted to U.S. dollars at an exchange rate of €1.00 to \$1.07 as of March 31, 2015 to reflect total amount outstanding in U.S. dollars.
- (3) At March 31, 2015, no amounts remained unused under the JPM Facility. Race Street will, on a quarterly basis, repurchase the Class A Notes sold to JPM under the JPM Facility and subsequently resell such Class A Notes to JPM. As of March 31, 2015, the final repurchase transaction was scheduled to occur no later than April 15, 2017.
- (4) All such amounts will mature, and all accrued and unpaid interest thereunder will be due and payable, on July 15, 2019.
- (5) All such amounts will mature, and all accrued and unpaid interest thereunder will be due and payable, on January 15, 2020.

On April 30, 2015 we issued \$275,000 aggregate principal amount of the 4.750% notes. For additional information regarding the 4.750% notes, see Note 12 to our unaudited consolidated financial statements included herein.

Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements, including any risk management of commodity pricing or other hedging practices.

Recently Issued Accounting Standards

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, *Interest—Imputation of Interest* to simplify the presentation of debt issuance costs. Under existing guidance, debt issuance costs are recognized as a deferred charge and presented as an asset on the balance sheet. The amendments to the guidance require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs is not affected by the amendments in this guidance. The amendments to the FASB codification in this guidance are to be applied retrospectively with applicable disclosures for a change in accounting principle upon transition. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2015. Early application by public entities is permitted. We are currently assessing the impact of this guidance on our consolidated financial statements.

Related Party Transactions

Compensation of the Investment Adviser

Pursuant to the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement and the July 2014 investment advisory agreement, FB Advisor is entitled to an annual base management fee based on the average value of our gross assets and an incentive fee based on our performance. Pursuant to the administration agreement, we also reimburse FB Advisor and GDFM for expenses necessary to perform services related to our administration and operations, including FB Advisor's allocable portion of the compensation and related expenses of certain personnel of Franklin Square Holdings providing administrative services to us on behalf of FB Advisor.

The following table describes the fees and expenses we accrued under the 2008 investment advisory and administrative services agreement, the April 2014 investment advisory agreement, the July 2014 investment advisory agreement and the administration agreement, as applicable, during the three months ended March 31, 2015 and 2014:

Related Party	Source Agreement	Description	Three Months Ended March 31,	
			2015	2014
FB Advisor	2008 Investment Advisory and Administrative Services Agreement, April 2014 Investment Advisory Agreement and July 2014 Investment Advisory Agreement	Base Management Fee ⁽¹⁾	\$ 19,038	\$ 22,371
FB Advisor	2008 Investment Advisory and Administrative Services Agreement, April 2014 Investment Advisory Agreement and July 2014 Investment Advisory Agreement	Capital Gains Incentive Fee ⁽²⁾	\$ 3,748	\$ 4,836
FB Advisor	2008 Investment Advisory and Administrative Services Agreement, April 2014 Investment Advisory Agreement and July 2014 Investment Advisory Agreement	Subordinated Incentive Fee on Income ⁽³⁾	\$ 13,905	\$ 15,178
FB Advisor	2008 Investment Advisory and Administrative Services Agreement, April 2014 Investment Advisory Agreement and Administration Agreement	Administrative Services Expenses ⁽⁴⁾	\$ 991	\$ 1,200

- (1) FB Advisor agreed, effective April 1, 2014, to waive a portion of the base management fee to which it was entitled under the April 2014 investment advisory agreement so that the fee received equaled 1.75% of the average value of our gross assets. The amount shown for the three months ended March 31, 2014 was calculated under the 2008 investment advisory and administrative services agreement at a rate equal to 2.0% of the average value of our gross assets. During the three months ended March 31, 2015 and 2014, \$19,525 and \$22,696, respectively, in base management fees were paid to FB Advisor. As of March 31, 2015, \$19,073 in base management fees were payable to FB Advisor.
- (2) During the three months ended March 31, 2015 and 2014, we accrued capital gains incentive fees of \$3,748 and \$4,836, respectively, based on the performance of our portfolio. As of March 31, 2014 and December 31, 2014, we had accrued \$24,823 and \$21,075, respectively, in capital gains incentive fees, all of which were based on unrealized gains, and none of which is payable unless and until those gains are actually realized. We paid FB Advisor no capital gains incentive fees during the three months ended March 31, 2015.
- (3) During the three months ended March 31, 2015 and 2014, \$13,089 and \$14,303, respectively, of subordinated incentive fees on income were paid to FB Advisor. As of March 31, 2015, a subordinated incentive fee on income of \$13,905 was payable to FB Advisor.
- (4) During the three months ended March 31, 2015 and 2014, \$783 and \$873, respectively, of administrative services expenses related to the allocation of costs of administrative personnel for services rendered to us by FB Advisor and the remainder related to other reimbursable expenses. We paid \$1,788 and \$533, respectively, in administrative services expenses to FB Advisor during the three months ended March 31, 2015 and 2014.

See Note 4 to our unaudited consolidated financial statements included herein for additional information regarding our agreements with FB Advisor and our other related party transactions and relationships, including our exemptive relief order, our terminated expense reimbursement agreement and our trademark license agreement with Franklin Square Holdings.

Potential Conflicts of Interest

FB Advisor's senior management team is comprised of substantially the same personnel as the senior management teams of FS Investment Advisor, LLC, FSIC II Advisor, LLC, FSIC III Advisor, LLC and FS Global Advisor, LLC, the investment advisers to certain other BDCs and a closed-end management investment company affiliated with Franklin Square Holdings. As a result, such personnel provide investment advisory services to us and each of FS Energy and Power Fund, FS Investment Corporation II, FS Investment Corporation III and FS Global Credit Opportunities Fund. While none of FB Advisor, FS Investment Advisor, LLC, FSIC II Advisor, LLC, FSIC III Advisor, LLC or FS Global Advisor, LLC, is currently making private corporate debt investments for clients other than us, FS Energy and Power Fund, FS Investment Corporation II, FS Investment Corporation III or FS Global Credit Opportunities Fund, respectively, any, or all, may do so in the future. In the event that FB Advisor undertakes to provide investment advisory services to other clients in the future, it intends to allocate investment opportunities in a fair and equitable manner consistent with our investment objectives and strategies, if necessary, so that we will not be disadvantaged in relation to any other client of FB Advisor or its management team. In addition, even in the absence of FB Advisor retaining additional clients, it is possible that some investment opportunities may be provided to FS Energy and Power Fund, FS Investment Corporation II, FS Investment Corporation III and/or FS Global Credit Opportunities Fund rather than to us.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including changes in interest rates. As of March 31, 2015, 68.7% of our portfolio investments (based on fair value) paid variable interest rates, 23.1% paid fixed interest rates, 3.1% were income producing equity or other investments, and the remaining 5.1% consisted of non-income producing equity or other investments. A rise in the general level of interest rates can be expected to lead to higher interest rates applicable to any variable rate investments we hold and to declines in the value of any fixed rate investments we hold. However, many of our variable rate investments provide for an interest rate floor, which may prevent our interest income from increasing until benchmark interest rates increase beyond a threshold amount. To the extent that a substantial portion of our investments may be in variable rate investments, an increase in interest rates beyond this threshold would make it easier for us to meet or exceed the hurdle rate applicable to the subordinated incentive fee on income, and may result in a substantial increase in our net investment income and to the amount of incentive fees payable to FB Advisor with respect to our increased pre-incentive fee net investment income.

Pursuant to the terms of the Broad Street credit facility and the ING credit facility, Broad Street and the Company, respectively, borrow at a floating rate based on a benchmark interest rate. Under the terms of the agreements governing the terms of the JPM Facility, Race Street pays interest to JPM at a fixed rate. Under the indenture governing the 4.000% notes and the 4.250% notes, the Company pays interest to the holders of such notes at a fixed rate. To the extent that any present or future credit facilities or other financing arrangements that we or any of our subsidiaries enter into are based on a floating interest rate, we will be subject to risks relating to changes in market interest rates. In periods of rising interest rates when we or our subsidiaries have such debt outstanding, or financing arrangements in effect, our interest expense would increase, which could reduce our net investment income, especially to the extent we hold fixed rate investments.

The following table shows the effect over a twelve month period of changes in interest rates on our interest income, interest expense and net interest income, assuming no changes in the composition of our investment portfolio, including the accrual status of our investments, and our financing arrangements in effect as of March 31, 2015 (dollar amounts are presented in thousands):

<u>Basis Point Change in Interest Rates</u>	<u>Increase (Decrease) in Interest Income⁽¹⁾</u>	<u>Increase (Decrease) in Interest Expense</u>	<u>Increase (Decrease) in Net Interest Income</u>	<u>Percentage Change in Net Interest Income</u>
Down 25 basis points	\$ (494)	\$ (425)	\$ (69)	0.0%
No change	—	—	—	—
Up 100 basis points	5,277	1,699	3,578	1.0%
Up 300 basis points	59,261	5,097	54,164	15.6%
Up 500 basis points	115,403	8,495	106,908	30.8%

(1) Assumes no defaults or prepayments by portfolio companies over the next twelve months.

We expect that our long-term investments will be financed primarily with equity and debt. If deemed prudent, we may use interest rate risk management techniques in an effort to minimize our exposure to interest rate fluctuations. These techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act. Adverse developments resulting from changes in interest rates or hedging transactions could have a material adverse effect on our business, financial condition and results of operations. During the three months ended March 31, 2015 and 2014, we did not engage in interest rate hedging activities.

In addition, we may have risk regarding portfolio valuation. See “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies—Valuation of Portfolio Investments.”

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2015.

Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that we would meet our disclosure obligations.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) that occurred during the three month period ended March 31, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION**Item 1. Legal Proceedings.**

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us. From time to time, we may be party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of any legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material adverse effect upon our financial condition or results of operations.

Item 1A. Risk Factors.

There have been no material changes from the risk factors set forth in our annual report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The table below provides information concerning purchases of our shares of common stock by or on behalf of the Company or any “affiliated purchaser,” as defined by Rule 10b-18(a)(3) promulgated under the Exchange Act during the period ended March 31, 2015. Dollar amounts in the table below and the related notes are presented in thousands, except for share and per share amounts.

CERTIFICATION

I, Michael C. Forman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of FS Investment Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
