(a) Security may be an obligation of one or more entities affiliated with the named company.

(b) Certain variable rate securities in the Company's portfolio bear interest at a rate determined by a publicly disclosed base rate plus a basis point spread. As of June 30, 2020, the three-month London Interbank Offered Rate, or LIBOR or "L", was 0.30%, the Euro Interbank Offered Rate, or EURIBOR, was (0.42)%, Canadian Dollar Offer Rate, or CDOR, was 0.56% and the U.S. Prime Lending Rate, or Prime, was 3.25%. PIK means paid-in-kind. PIK income accruals may be adjusted based on the fair value of the underlying investment. Variable rate securities with no floor rate use the respective benchmark rate in all cases.

(c) Denominated in U.S. dollars unless otherwise noted.

(d) Fair value determined by the Company's board of directors (see Note 8).

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investments, PIK interest, the amortization of unearned income, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company into this category from a different category.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal collections related to investment repayments or sales, the exchange of one or more existing securities for one or more new securities and the movement of an existing portfolio company out of this category into a different category.
- (3) Interest, PIK, fee and dividend income presented for the full six months ended June 30, 2020.
- (4) The Company held this investment as of December 31, 2019 but it was not deemed to be an “affiliated person” of the portfolio company as of December 31, 2019. Transfers in or out have been presented at amortized cost.
- (z) Under the Investment Company Act of 1940, as amended, the Company generally is deemed to “control” a portfolio company if it owns more than 25% of the portfolio company’s voting securities or it has the power to exercise control over the management or policies of such portfolio company. As of June 30, 2020, the Company held investments in portfolio companies of which it is deemed to be an “affiliated person” and deemed to “control”. During the six months ended June 30, 2020, the Company disposed of investments in portfolio companies of which it was deemed to be an “affiliated person” and deemed to “control”. The following table presents certain information with respect to investments in portfolio companies of which the Company was deemed to be an affiliated person and deemed to control for the six months ended June 30, 2020:

FS KKR Capital Corp.**Notes to Unaudited Consolidated Financial Statements**
(in millions, except share and per share amounts)**Note 1. Principal Business and Organization**

FS KKR Capital Corp. (NYSE: FSK), or the Company, was incorporated under the general corporation laws of the State of Maryland on December 21, 2007 and formally commenced investment operations on January 2, 2009. The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company, or BDC, under the Investment Company Act of 1940, as amended, or the 1940 Act. In addition, the Company has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a regulated investment company, or RIC, as defined under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code. As of June 30, 2020, the Company had various wholly-owned subsidiaries, including special-purpose financing subsidiaries and subsidiaries through which it holds interests in portfolio companies. The unaudited consolidated financial statements include both the Company's accounts and the accounts of its wholly-owned subsidiaries as of June 30, 2020. All significant intercompany transactions have been eliminated in consolidation. Certain of the Company's consolidated subsidiaries are subject to U.S. federal and state income taxes.

The Company's investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. The Company's portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle-market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. In addition, a portion of the Company's portfolio may be comprised of equity and equity-related securities, corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps.

The Company is externally managed by FS/KKR Advisor, LLC, or the Advisor, pursuant to an investment advisory agreement, dated as of December 20, 2018, or the investment advisory agreement. On April 9, 2018, GSO / Blackstone Debt Funds Management LLC, or GDFM, resigned as the investment sub-advisor to the Company and terminated the investment sub-advisory agreement, or the investment sub-advisory agreement, between FB Income Advisor, LLC, or FB Advisor, and GDFM, effective April 9, 2018. In connection with GDFM's resignation as the investment sub-advisor to the Company, on April 9, 2018, the Company entered into an investment advisory agreement, or the prior investment advisory agreement, with the Advisor. The prior investment advisory agreement replaced the amended and restated investment advisory agreement, dated July 17, 2014, or the FB Advisor investment advisory agreement, by and between the Company and FB Advisor.

On June 15, 2020, the Company filed Articles of Amendment to its Articles of Incorporation, or the Reverse Stock Split Amendment, with the State Department of Assessments and Taxation of the State of Maryland to effect a 4 to 1 reverse split of the Company's shares of common stock, or the Reverse Stock Split. The Reverse Stock Split became effective in accordance with the terms of the Reverse Stock Split Amendment on June 15, 2020.

The Reverse Stock Split affected all shareholders uniformly and did not alter any shareholder's percentage interest in the Company's equity, except to the extent that the Reverse Stock Split resulted in some shareholders owning a fractional share. In that regard, no fractional shares were issued in connection with the Reverse Stock Split. Shareholders of record who would have otherwise been entitled to receive a fractional share instead received a cash payment based on the closing price of the Company's common stock as reported on the NYSE as of June 15, 2020. A summary of the Company's weighted average number of shares of common stock outstanding and earnings per share after adjusting for the Reverse Stock Split is as follows:

	Three Months Ended June 30, 2019	Six Months Ended June 30, 2019
Weighted average number of shares of common stock outstanding (as previously reported)	522,199,688	524,838,748
Weighted average number of shares of common stock outstanding (as adjusted)	130,549,922	131,209,687
Net investment income per share (as previously reported)	\$ 0.19	\$ 0.37
Net investment income per share (as adjusted)	\$ 0.77	\$ 1.49
Earnings per share (as previously reported)	\$ 0.19	\$ 0.38
Earnings per share (ad adjusted)	\$ 0.77	\$ 1.54

FS KKR Capital Corp.**Notes to Unaudited Consolidated Financial Statements (continued)**
(in millions, except share and per share amounts)**Note 2. Summary of Significant Accounting Policies**

Basis of Presentation: The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For a more complete discussion of significant accounting policies and certain other information, the Company's interim unaudited consolidated financial statements should be read in conjunction with its audited consolidated financial statements as of and for the year ended December 31, 2019 included in the Company's annual report on Form 10-K for the year ended December 31, 2019. Operating results for the three and six months ended June 30, 2020 are not necessarily indicative of the results that may be expected for the year ending December 31, 2020. The December 31, 2019 consolidated balance sheet and consolidated schedule of investments are derived from the Company's audited consolidated financial statements as of and for the year ended December 31, 2019. The Company is considered an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies under Accounting Standards Codification Topic 946, *Financial Services—Investment Companies*.

Use of Estimates: The preparation of the unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Capital Gains Incentive Fee: Pursuant to the terms of the investment advisory agreement, the incentive fee on capital gains is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment advisory agreement). This fee equals 20.0% of the Company's incentive fee capital gains, which shall equal both Corporate Capital Trust, Inc.'s, or CCT, and the Company's realized capital gains (without duplication) on a cumulative basis from inception, calculated as of the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation (without duplication) on a cumulative basis, less the aggregate amount of any capital gain incentive fees previously paid by CCT and the Company. On a quarterly basis, the Company accrues for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.

The Company includes unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to the Advisor if the Company's entire portfolio was liquidated at its fair value as of the balance sheet date even though the Advisor is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.

Subordinated Income Incentive Fee: Pursuant to the terms of the investment advisory agreement, the Advisor may also be entitled to receive a subordinated incentive fee on income. The subordinated incentive fee on income under the investment advisory agreement, which is calculated and payable quarterly in arrears, equals 20.0% of the Company's "pre-incentive fee net investment income" for the immediately preceding quarter and is subject to a hurdle rate, expressed as a rate of return on the value of the Company's net assets, equal to 1.75% per quarter, or an annualized hurdle rate of 7.0%. As a result, the Advisor will not earn this incentive fee for any quarter until the Company's pre-incentive fee net investment income for such quarter exceeds the hurdle rate of 1.75%. Once the Company's pre-incentive fee net investment income in any quarter exceeds the hurdle rate, the Advisor will be entitled to a "catch-up" fee equal to the amount of the pre-incentive fee net investment income in excess of the hurdle rate, until the Company's pre-incentive fee net investment income for such quarter equals 2.1875%, or 8.75% annually, of net assets. Thereafter, the Advisor will be entitled to receive 20.0% of pre-incentive fee net investment income.

The subordinated incentive fee on income is subject to a cap equal to (i) 20.0% of the "per share pre-incentive fee return" for the then-current and eleven preceding calendar quarters minus the cumulative "per share incentive fees" accrued and/or payable for the eleven preceding calendar quarters multiplied by (ii) the weighted average number of shares outstanding during the calendar quarter (or any portion thereof) for which the subordinated incentive fee on income is being calculated. The definitions of "per share pre-incentive fee return" and "per share incentive fees" under the investment advisory agreement take into account the historic per share pre-incentive fee return of both the Company and CCT, together with the historic per share

Note 2. Summary of Significant Accounting Policies (continued)

incentive fees paid by both the Company and CCT. For the purpose of calculating the “per share pre-incentive fee return,” any unrealized appreciation or depreciation recognized as a result of the purchase accounting for the Company’s acquisition of CCT, or the Merger, is excluded.

Reclassifications: Certain amounts in the unaudited consolidated financial statements as of and for the three and six months ended June 30, 2019 and the audited consolidated financial statements as of and for the year ended December 31, 2019 may have been reclassified to conform to the classifications used to prepare the unaudited consolidated financial statements as of and for the three and six months ended June 30, 2020.

Revenue Recognition: Security transactions are accounted for on the trade date. The Company records interest income on an accrual basis to the extent that it expects to collect such amounts. The Company records dividend income on the ex-dividend date. Distributions received from limited liability company (“LLC”) and limited partnership (“LP”) investments are evaluated to determine if the distribution should be recorded as dividend income or a return of capital. The Company does not accrue as a receivable interest or dividends on loans and securities if it has reason to doubt its ability to collect such income. The Company’s policy is to place investments on non-accrual status when there is reasonable doubt that interest income will be collected. The Company considers many factors relevant to an investment when placing it on or removing it from non-accrual status including, but not limited to, the delinquency status of the investment, economic and business conditions, the overall financial condition of the underlying investment, the value of the underlying collateral, bankruptcy status, if any, and any other facts or circumstances relevant to the investment. If there is reasonable doubt that the Company will receive any previously accrued interest, then the accrued interest will be written-off. Payments received on non-accrual investments may be recognized as income or applied to principal depending upon the collectability of the remaining principal and interest. Non-accrual investments may be restored to accrual status when principal and interest become current and are likely to remain current based on the Company’s judgment.

Loan origination fees, original issue discount and market discount are capitalized and the Company amortizes such amounts as interest income over the respective term of the loan or security. Upon the prepayment of a loan or security, any unamortized loan origination fees and original issue discount are recorded as interest income. Structuring and other non-recurring upfront fees are recorded as fee income when earned. For the six months ended June 30, 2020, the Company recognized \$9 in structuring fee revenue. The Company records prepayment premiums on loans and securities as fee income when it receives such amounts.

Derivative Instruments: The Company’s derivative instruments include foreign currency forward contracts and cross currency swaps. The Company recognizes all derivative instruments as assets or liabilities at fair value in its consolidated financial statements. Derivative contracts entered into by the Company are not designated as hedging instruments, and as a result, the Company presents changes in fair value through net change in unrealized appreciation (depreciation) on derivative instruments in the consolidated statements of operations. Realized gains and losses of the derivative instruments are included in net realized gains (losses) on derivative instruments in the consolidated statements of operations.

Recent Accounting Pronouncements: In August 2018, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820)—*Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, or ASU 2018-13. ASU 2018-13 introduces new fair value disclosure requirements and eliminates and modifies certain existing fair value disclosure requirements. ASU 2018-13 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The Company implemented ASU 2018-13 during the six months ended June 30, 2020, and it did not have a significant impact on the Company’s disclosure over fair value.

(1) The number of shares repurchased has been retroactively adjusted to reflect the Reverse Stock Split as discussed below.

During the six months ended June 30, 2020, the administrator for the Company's distribution reinvestment plan, or DRP, purchased 818,573 shares of common stock in the open market at an average price per share of \$16.35 (totaling \$13) pursuant to the DRP, and distributed such shares to participants in the DRP. During the six months ended June 30, 2019, the administrator for the DRP purchased 451,406 shares of common stock in the open market at an average price per share of \$24.09 (totaling \$11) pursuant to the DRP, and distributed such shares to participants in the DRP. During the period from July 1, 2020 to August 7, 2020, the administrator for the DRP purchased 378,300 shares of common stock in the open market at an average price per share of \$14.30 (totaling \$5) pursuant to the DRP, and distributed such shares to participants in the DRP. For additional information regarding the terms of the DRP, see Note 5.

December 2018 Share Repurchase Program

In December 2018, the Company's board of directors authorized a stock repurchase program. Under the program, the Company was permitted to repurchase up to \$200 in the aggregate of its outstanding common stock in the open market at prices below the then-current net asset value per share. The program has terminated since the aggregate repurchase amount that was approved by the Company's board of directors has been expended.

During the three months ended June 30, 2020, the Company repurchased 588,342 shares of common stock pursuant to the share repurchase program at an average price per share (inclusive of commissions paid) of \$12.63 (totaling \$7). During the six months ended June 30, 2020, the Company repurchased 2,823,750 shares of common stock pursuant to the share repurchase program at an average price per share (inclusive of commissions paid) of \$16.71 (totaling \$47).

The number of shares repurchased and the average price per share amounts have been retroactively adjusted to reflect the Reverse Stock Split as discussed below.

Reverse Stock Split and Fractional Shares

As a result of the Reverse Stock Split, which was effective on June 15, 2020, every four shares of the Company's common stock issued and outstanding were automatically combined into one share of the Company's common stock, and the number of outstanding shares of the Company's common stock was reduced from approximately 495.0 million to approximately 123.75 million as of June 15, 2020. The Reverse Stock Split did not modify the rights or preferences of the Company's common stock. The Company also filed a separate Articles of Amendment to Articles of Incorporation with the State Department of Assessments and Taxation of the State of Maryland to provide that there would be no change in the par value of \$0.001 per share as a result of the Reverse Stock Split.

The Reverse Stock Split affected all shareholders uniformly and did not alter any shareholder's percentage interest in the Company's equity, except to the extent that the Reverse Stock Split resulted in some shareholders owning a fractional share. In that regard, no fractional shares were issued in connection with the Reverse Stock Split. Shareholders of record who would have otherwise been entitled to receive a fractional share instead received a cash payment based on the closing price of the Company's common stock as reported on the NYSE as of June 15, 2020.

Compensation of the Investment Adviser

Pursuant to the investment advisory agreement, the Advisor is entitled to a base management fee calculated at an annual rate of 1.50% of the average weekly value of the Company’s gross assets excluding cash and cash equivalents (gross assets equal the total assets of the Company as set forth on the Company’s consolidated balance sheets) and an incentive fee based on the Company’s performance. Effective June 15, 2019, in connection with stockholder approval of the modification of the asset coverage requirement applicable to senior securities from 200% to 150%, the Advisor reduced (by permanent waiver) the annual base management fee payable under the investment advisory agreement from 1.5% to 1.0% on all assets financed using leverage over 1.0x debt-to-equity. The base management fee is payable quarterly in arrears. All or any part of the base management fee not taken as to any quarter will be deferred without interest and may be taken in such other quarter as the Advisor determines. The prior investment advisory agreement had substantially similar terms, except that cash and cash equivalents were not excluded from gross assets. See Note 2 for a discussion of the capital gains and subordinated income incentive fees that the Advisor may be entitled to under the investment advisory agreement.

On April 9, 2018, the Company entered into an administration agreement with the Advisor, or the administration agreement. Pursuant to the administration agreement, the Advisor oversees the Company’s day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations, certain government and regulatory affairs activities, and other administrative services. The Advisor also performs, or oversees the performance of, the Company’s corporate operations and required administrative services, which includes being responsible for the financial records that the Company is required to maintain and preparing reports for the Company’s stockholders and reports filed with the SEC. In addition, the Advisor assists the Company in calculating its net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to the Company’s stockholders, and generally overseeing the payment of the Company’s expenses and the performance of administrative and professional services rendered to the Company by others.

Pursuant to the administration agreement, the Company reimburses the Advisor for expenses necessary to perform services related to its administration and operations, including the Advisor’s allocable portion of the compensation and related expenses of certain personnel of Franklin Square Holdings, L.P., which does business as FS Investments, or FS Investments, and KKR Credit Advisors (US), LLC, or KKR Credit, providing administrative services to the Company on behalf of the Advisor. The Company reimburses the Advisor no less than quarterly for all costs and expenses incurred by the Advisor in performing its obligations and providing personnel and facilities under the administration agreement. The Advisor allocates the cost of such services to the Company based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. The Company’s board of directors reviews the methodology employed in determining how the expenses are allocated to the Company and the proposed allocation of administrative expenses among the Company and certain affiliates of the Advisor. The Company’s board of directors then assesses the reasonableness of such reimbursements for expenses allocated to it based on the breadth, depth and quality of such services as compared to the estimated cost to the Company of obtaining similar services from third-party service providers known to be available. In addition, the Company’s board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, the Company’s board of directors compares the total amount paid to the Advisor for such services as a percentage of the Company’s net assets to the same ratio as reported by other comparable BDCs.

The following table describes the fees and expenses accrued under the investment advisory agreement and the administration agreement, as applicable, during the three and six months ended June 30, 2020 and 2019:

Note 4. Related Party Transactions (continued)

- (1) During the six months ended June 30, 2020 and 2019, \$60 and \$49, respectively, in base management fees were paid to the Advisor. As of June 30, 2020, \$26 in base management fees were payable to the Advisor.
- (2) During the six months ended June 30, 2020 and 2019, \$0 and \$38, respectively, of subordinated incentive fees on income were paid to the Advisor.
- (3) During the six months ended June 30, 2020 and 2019, \$3 and \$2, respectively, of administrative services expenses related to the allocation of costs of administrative personnel for services rendered to the Company by the Advisor and the remainder related to other reimbursable expenses, including reimbursement of fees related to transactional expenses for prospective investments, such as fees and expenses associated with performing due diligence reviews of investments that do not close, often referred to as "broken deal" costs. Broken deal costs were \$0.3 for the six months ended June 30, 2020. The Company paid \$5 and \$3, respectively, in administrative services expenses to the Advisor during the six months ended June 30, 2020 and 2019.

Potential Conflicts of Interest

The members of the senior management and investment teams of the Advisor serve or may serve as officers, directors or principals of entities that operate in the same or a related line of business as the Company does, or of investment vehicles managed by the same personnel. For example, the Advisor is the investment adviser to FS KKR Capital Corp. II, and the officers, managers and other personnel of the Advisor may serve in similar or other capacities for the investment advisers to future investment vehicles affiliated with FS Investments or KKR Credit. In serving in these multiple and other capacities, they may have obligations to other clients or investors in those entities, the fulfillment of which may not be in the Company's best interests or in the best interest of the Company's stockholders. The Company's investment objectives may overlap with the investment objectives of such investment funds, accounts or other investment vehicles. For additional information regarding potential conflicts of interest, see the Company's annual report on Form 10-K for the year ended December 31, 2019.

Exemptive Relief

As a BDC, the Company is subject to certain regulatory restrictions in making its investments. For example, BDCs generally are not permitted to co-invest with certain affiliated entities in transactions originated by the BDC or its affiliates in the absence of an exemptive order from the SEC. However, BDCs are permitted to, and may, simultaneously co-invest in transactions where price is the only negotiated term.

In an order dated June 4, 2013, or the FS Order, the SEC granted exemptive relief permitting the Company, subject to the satisfaction of certain conditions, to co-invest in certain privately negotiated investment transactions with certain affiliates of its former investment adviser, including FS Energy and Power Fund, FS KKR Capital Corp. II and any future BDCs that are advised by its former investment adviser or its affiliated investment advisers. However, in connection with the investment advisory relationship with the Advisor, and in an effort to mitigate potential future conflicts of interest, the Company's board of directors authorized and directed that the Company (i) withdraw from the FS Order, except with respect to any transaction in which the Company participated in reliance on the FS Order prior to April 9, 2018, and (ii) rely on an exemptive relief order, dated April 3, 2018, that permits the Company, subject to the satisfaction of certain conditions, to co-invest in certain privately negotiated investment transactions, including investments originated and directly negotiated by the Advisor or KKR Credit, with certain affiliates of the Advisor.

Affiliated Purchaser Program

As previously disclosed, certain affiliates of the owners of the Advisor committed \$100 to a \$350 investment vehicle that may invest from time to time in shares of the Company. In June 2020, that investment vehicle entered into a written trading plan with a third party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act to facilitate the purchase of shares of the Company's common stock pursuant to the terms and conditions of such plan. The Company is not a party to the plan or any transaction with the investment vehicle.

The following table reflects the cash distributions per share that the Company has declared on its common stock during the six months ended June 30, 2020 and 2019:

For the Three Months Ended	Distribution	
	Per Share ⁽¹⁾	Amount
Fiscal 2019		
March 31, 2019	\$ 0.76000	\$ 100
June 30, 2019	0.76000	99
Total	<u>\$ 1.52000</u>	<u>\$ 199</u>
Fiscal 2020		
March 31, 2020	\$ 0.76000	\$ 95
June 30, 2020	0.60000	75
Total	<u>\$ 1.36000</u>	<u>\$ 170</u>

(1) The amount of each per share distribution has been retroactively adjusted to reflect the Reverse Stock Split as discussed above in Note 3.

On August 10, 2020, the Company's board of directors declared a regular quarterly cash distribution of \$0.60 per share, which will be paid on or about October 1, 2020 to stockholders of record as of the close of business on September 16, 2020. The timing and amount of any future distributions to stockholders are subject to applicable legal restrictions and the sole discretion of the Company's board of directors.

Pursuant to the DRP, the Company will reinvest all cash dividends or distributions declared by the Company's board of directors on behalf of stockholders who do not elect to receive their distributions in cash. As a result, if the Company's board of directors declares a distribution, then stockholders who have not elected to "opt out" of the DRP will have their distributions automatically reinvested in additional shares of the Company's common stock.

With respect to each distribution pursuant to the DRP, the Company reserves the right to either issue new shares of common stock or purchase shares of common stock in the open market in connection with implementation of the DRP. Unless the Company, in its sole discretion, otherwise directs the plan administrator, (A) if the per share market price (as defined in the DRP) is equal to or greater than the estimated net asset value per share (rounded up to the nearest whole cent) of the Company's common stock on the payment date for the distribution, then the Company will issue shares of common stock at the greater of (i) net asset value per share of common stock or (ii) 95% of the market price; or (B) if the market price is less than the net asset value per share, then, in the sole discretion of the Company, (i) shares of common stock will be purchased in open market transactions for the accounts of participants to the extent practicable, or (ii) the Company will issue shares of common stock at net asset value per share. Pursuant to the terms of the DRP, the number of shares of common stock to be issued to a participant will be determined by dividing the total dollar amount of the distribution payable to a participant by the price per share at which the Company issues such shares; provided, however, that shares purchased in open market transactions by the plan administrator will be allocated to a participant based on the average purchase price, excluding any brokerage charges or other charges, of all shares of common stock purchased in the open market.

If a stockholder receives distributions in the form of common stock pursuant to the DRP, such stockholder generally will be subject to the same federal, state and local tax consequences as if it elected to receive distributions in cash. If the Company's common stock is trading at or below net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of cash that they would have received if they had elected to receive the distribution in cash. If the Company's common stock is trading above net asset value, a stockholder receiving distributions in the form of additional common stock will be treated as receiving a distribution in the amount of the fair market value of the Company's common stock. The stockholder's basis for determining gain or loss upon the sale of common stock received in a distribution will be equal to the total dollar amount of the distribution payable to the stockholder. Any stock received in a distribution will have a holding period for tax purposes commencing on the day following the day on which the shares of common stock are credited to the stockholder's account.

Note 5. Distributions (continued)

The Company may fund its cash distributions to stockholders from any sources of funds legally available to it, including proceeds from the sale of shares of the Company's common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets, and dividends or other distributions paid to the Company on account of preferred and common equity investments in portfolio companies. The Company has not established limits on the amount of funds it may use from available sources to make distributions. During certain periods, the Company's distributions may exceed its earnings. As a result, it is possible that a portion of the distributions the Company makes may represent a return of capital. A return of capital generally is a return of a stockholder's investment rather than a return of earnings or gains derived from the Company's investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions (i.e., paid from ordinary income, paid from net capital gains on the sale of securities, and/or a return of capital, which is a nontaxable distribution) will be mailed to the Company's stockholders. There can be no assurance that the Company will be able to pay distributions at a specific rate or at all.

The following table reflects the sources of the cash distributions on a tax basis that the Company has paid on its common stock during the six months ended June 30, 2020 and 2019:

Source of Distribution	Six Months Ended June 30,			
	2020		2019	
	Distribution Amount	Percentage	Distribution Amount	Percentage
Return of capital	\$ —	—	\$ —	—
Net investment income ⁽¹⁾	170	100%	199	100%
Short-term capital gains proceeds from the sale of assets	—	—	—	—
Long-term capital gains proceeds from the sale of assets	—	—	—	—
Total	\$ 170	100%	\$ 199	100%

(1) During the six months ended June 30, 2020 and 2019, 88.8% and 90.9%, respectively, of the Company's gross investment income was attributable to cash income earned, 1.8% and 2.0%, respectively, was attributable to non-cash accretion of discount and 9.4% and 7.1%, respectively, was attributable to PIK interest.

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon the Company's taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of the Company's distributions for a full year. The actual tax characteristics of distributions to stockholders are reported to stockholders annually on Form 1099-DIV.

Net capital losses may be carried forward indefinitely, and their character is retained as short-term or long-term losses. As of June 30, 2020, the Company had short-term and long-term capital loss carryforwards available to offset future realized capital gains of \$30 and \$599, respectively. \$85 of such losses were carried over from CCT due to the Merger, and \$177 of such losses were carried over from losses generated by the Company prior to the Merger. Because of the loss limitation rules of the Code, some of the tax basis losses may be limited in their use. Any unused balances resulting from such limitations may be carried forward into future years indefinitely.

As of June 30, 2020 and December 31, 2019, the Company's gross unrealized appreciation on a tax basis was \$961 and \$1,087, respectively. As of June 30, 2020 and December 31, 2019, the Company's gross unrealized depreciation on a tax basis was \$1,672 and \$1,002, respectively.

The aggregate cost of the Company's investments for U.S. federal income tax purposes totaled \$8,055 and \$7,973 as of June 30, 2020 and December 31, 2019, respectively. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis was \$(1,431) and \$(616) as of June 30, 2020 and December 31, 2019, respectively. The aggregate net unrealized appreciation (depreciation) on investments on a tax basis excludes net unrealized appreciation (depreciation) from merger accounting, foreign currency forward contracts and foreign currency transactions.

As of June 30, 2020, the Company had a deferred tax liability of \$11 resulting from unrealized appreciation on investments held by the Company's wholly-owned taxable subsidiaries and a deferred tax asset of \$60 resulting from net operating losses of

the Company's wholly-owned taxable subsidiaries and unrealized depreciation on investments held by the Company's wholly-owned taxable subsidiaries. As of June 30, 2020, certain wholly-owned taxable subsidiaries anticipated that they would be unable to fully utilize their generated net operating losses and capital losses, therefore the deferred tax asset was offset by a valuation allowance of \$49. For the six months ended June 30, 2020, the Company did not record a provision for taxes related to wholly-owned taxable subsidiaries.

Note 6. Investment Portfolio

The following table summarizes the composition of the Company's investment portfolio at cost and fair value as of June 30, 2020 and December 31, 2019:

(1) Amortized cost represents the original cost adjusted for the amortization of premiums and/or accretion of discounts, as applicable, on investments.

In general, under the 1940 Act, the Company would be presumed to "control" a portfolio company if it owned more than 25% of its voting securities or it had the power to exercise control over the management or policies of such portfolio company, and would be an "affiliated person" of a portfolio company if it owned 5% or more of its voting securities.

As of June 30, 2020, the Company held investments in ten portfolio companies of which it is deemed to "control." As of June 30, 2020, the Company held investments in fifteen portfolio companies of which it is deemed to be an "affiliated person" but is not deemed to "control." For additional information with respect to such portfolio companies, see footnotes (y) and (z) to the unaudited consolidated schedule of investments as of June 30, 2020 in this quarterly report on Form 10-Q.

As of December 31, 2019, the Company held investments in seven portfolio companies of which it is deemed to "control." As of December 31, 2019, the Company held investments in sixteen portfolio companies of which it is deemed to be an "affiliated person" but is not deemed to "control." For additional information with respect to such portfolio companies, see footnotes (y) and (z) to the consolidated schedule of investments as of December 31, 2019 in this quarterly report on Form 10-Q.

The Company's investment portfolio may contain loans and other unfunded arrangements that are in the form of lines of credit, revolving credit facilities, delayed draw credit facilities or other investments, which require the Company to provide funding when requested by portfolio companies in accordance with the terms of the underlying agreements. As of June 30, 2020, the Company had unfunded debt investments with aggregate unfunded commitments of \$330.3, unfunded equity/other commitments of \$261.0 and unfunded commitments of \$118.3 of Strategic Credit Opportunities Partners, LLC. As of December 31, 2019, the Company had unfunded debt investments with aggregate unfunded commitments of \$438.0, unfunded equity commitments of \$240.1 and unfunded commitments of \$385.2 of Strategic Credit Opportunities Partners, LLC. The Company maintains sufficient cash on hand and available borrowings to fund such unfunded commitments should the need arise. For additional details regarding the Company's unfunded debt investments, see the Company's unaudited consolidated schedule of investments as of June 30, 2020 and the Company's audited consolidated schedule of investments as of December 31, 2019.

Strategic Credit Opportunities Partners, LLC

Strategic Credit Opportunities Partners, LLC, or SCJV, is a joint venture between the Company and South Carolina Retirement Systems Group Trust, or SCRS. SCRS purchased its interests in SCJV from Conway Capital, LLC, an affiliate of Guggenheim Life and Annuity Company and Delaware Life Insurance Company, in June 2019, which had no impact on the significant terms governing SCJV other than an increase in the aggregate capital commitment (but not the percentage of the aggregate capital committed by each member) to SCJV. SCJV's amended and restated limited liability company agreement, or the SCJV Agreement, requires the Company and SCRS to provide capital to SCJV of up to \$1,000 in the aggregate where the Company and SCRS would provide 87.5% and 12.5%, respectively, of the committed capital. Pursuant to the terms of the SCJV Agreement, the Company and SCRS each have 50% voting control of SCJV and are required to agree on all investment decisions as well as certain other significant actions for SCJV. SCJV invests its capital in a range of investments, including senior secured loans (both first lien and second lien) to middle market companies, broadly syndicated loans, equity, warrants and other investments. As administrative agent of SCJV, the Company performs certain day-to-day management responsibilities on behalf of SCJV and is entitled to a fee of 0.25% of SCJV's assets under administration, calculated and payable quarterly in arrears. As of June 30, 2020, the Company and SCRS have funded approximately \$864.8 to SCJV, of which \$756.7 was from the Company.

On September 29, 2017, Jersey City Funding LLC, or Jersey City Funding, a wholly-owned subsidiary of SCJV, entered into a revolving credit facility, or as subsequently amended and restated, the Jersey City Funding Credit Facility, with Goldman Sachs Bank, as sole lead arranger, syndication agent, and administrative agent, each of the lenders from time to time party thereto, State Street Bank and Trust Company, as collateral administrator and collateral agent, and Cortland Capital Market Services LLC, as collateral custodian. The Jersey City Funding Credit Facility provides for borrowings in U.S. dollars, and certain agreed upon foreign currencies, in an aggregate principal amount up to \$350 on a committed basis. The maturity date for the Jersey City Funding Credit Facility is September 29, 2021. U.S. dollar borrowings bear interest at the rate of three-month LIBOR (subject to a 0% floor) plus 2.25% per annum. Foreign currency borrowings bear interest at the rate of the relevant reference rate (subject to a 0% floor) plus the spread applicable to the specified currency. Jersey City Funding is subject to an unused fee of up to 0.50% per annum on the average daily unborrowed portion of the committed facility amount. Borrowings under the Jersey City Funding Credit Facility are secured by a first priority security interest in substantially all of the assets of Jersey City Funding, including its portfolio of assets. As of June 30, 2020, total outstanding borrowings under the Jersey City Funding Credit Facility were \$345.4.

On February 18, 2020, the Jersey City Funding Credit Facility maximum facility amount was reduced from \$400 to \$350 pursuant to the Commitment Decrease and Amendment No. 4 between Jersey City Funding, SCJV, Goldman Sachs Bank, and the other parties thereto.

On September 18, 2019, Chestnut Street Funding LLC, or Chestnut Street Funding, a wholly-owned subsidiary of SCJV, entered into a revolving credit facility, or as subsequently amended, the Chestnut Street Funding Credit Facility, with Citibank, N.A., or Citibank, as administrative agent, each of the lenders from time to time party thereto, SCJV, as collateral manager, and Wells Fargo Bank, National Association, as collateral agent, account bank, and collateral custodian. The Chestnut Street Funding Credit Facility provides for borrowings in U.S. dollars and certain agreed upon foreign currencies in an aggregate principal amount up to \$400 on a committed basis. The end of the reinvestment period and the maturity date for the Chestnut Street Funding Credit Facility are September 18, 2022 and September 18, 2024, respectively. Under the Chestnut Street Funding Credit Facility, borrowings bear interest at the rate of three-month LIBOR (or the relevant reference rate for any foreign currency borrowings) (subject to a 0% floor) plus 2.25% per annum. During the reinvestment period, Chestnut Street Funding is subject to an unused fee of 0.50% per annum on the average daily unborrowed portion of the committed facility amount. Borrowings under the Chestnut Street Funding Credit Facility are secured by a first priority security interest in substantially all of the assets of Chestnut Street Funding, including its portfolio of assets. As of June 30, 2020, total outstanding borrowings under the Chestnut Street Funding Credit Facility were \$345.9.

On February 21, 2020, the Chestnut Street Funding Credit Facility maximum facility amount was increased from \$300 to \$400 pursuant to the First Amendment to Loan and Servicing Agreement between Chestnut Street Funding, SCJV, Citibank, and the other parties thereto. SCJV was in compliance with all covenants required by its financing arrangements as of June 30, 2020 and December 31, 2019.

On April 15, 2020, Boxwood Drive Funding LLC, or Boxwood Drive Funding, a wholly-owned special-purpose financing subsidiary of SCJV, entered into a revolving credit facility, or the Boxwood Drive Funding Credit Facility, with BNP Paribas, as lender and administrative agent, each of the lenders from time to time party thereto, SCJV, as equityholder and servicer, and Wells Fargo, as collateral agent. The Boxwood Drive Funding Credit Facility provides for borrowings in U.S. dollars and certain agreed upon foreign currencies in an aggregate principal amount up to \$300 on a committed basis. The end of the reinvestment period and the maturity date for the Boxwood Drive Funding Credit Facility are April 15, 2023 and April 15, 2025, respectively. Under the Boxwood Drive Funding Credit Facility, borrowings bear interest at the rate of LIBOR (or the relevant reference rate for any foreign currency borrowings) (subject to a 0% floor) plus a spread of (i) during the reinvestment period, 2.05% to 3.15% per annum, and (ii) after the reinvestment period, 2.15% to 3.25% per annum, in each case, determined based on the currency of the borrowing and the composition of the collateral portfolio. During the reinvestment period, Boxwood Drive Funding is subject to an unused fee ranging from 0.375% to 1.00% per annum on the average daily unborrowed portion of the facility amount below 85% of the facility amount. Borrowings under the Boxwood Drive Funding Credit Facility are secured by a first priority security interest in substantially all of the assets of Boxwood Drive Funding, including its portfolio of assets. As of June 30, 2020, total outstanding borrowings under the Boxwood Drive Funding Credit Facility were \$25.0.

- (3) Net amount of derivative liabilities represents the net amount due from the Company to the counterparty.

Foreign Currency Forward Contracts and Cross Currency Swaps:

The Company may enter into foreign currency forward contracts and cross currency swaps from time to time to facilitate settlement of purchases and sales of investments denominated in foreign currencies and to economically hedge the impact that an adverse change in foreign exchange rates would have on the value of the Company's investments denominated in foreign currencies. A foreign currency forward contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. These contracts are marked-to-market by recognizing the difference between the contract forward exchange rate and the forward market exchange rate on the last day of the period presented as unrealized appreciation or depreciation. Realized gains or losses are recognized when forward contracts are settled. Risks arise as a result of the potential inability of the counterparties to meet the terms of their contracts. The Company attempts to limit counterparty risk by only dealing with well-known counterparties.

Cross currency swaps are interest rate swaps in which interest cash flows are exchanged between two parties based on the notional amounts of two different currencies. These swaps are marked-to-market by recognizing the difference between the present value of cash flows of each leg of the swaps as unrealized appreciation or depreciation. Realized gain or loss is recognized when periodic payments are received or paid and the swaps are terminated. The entire notional value of a cross currency swap is subject to the risk that the counterparty to the swap will default on its contractual delivery obligations. The Company attempts to limit counterparty risk by only dealing with well-known counterparties. The Company utilizes cross currency swaps from time to time in order to hedge a portion of its investments in foreign currency.

The average notional balance for foreign currency forward contracts during the six months ended June 30, 2020 and 2019 was \$28.3 and \$222.5, respectively.

Note 8. Fair Value of Financial Instruments

Under existing accounting guidance, fair value is defined as the price that the Company would receive upon selling an investment or pay to transfer a liability in an orderly transaction to a market participant in the principal or most advantageous market for the investment. This accounting guidance emphasizes valuation techniques that maximize the use of observable market inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The Company classifies the inputs used to measure these fair values into the following hierarchy as defined by current accounting guidance:

Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs that are quoted prices for similar assets or liabilities in active markets.

Level 3: Inputs that are unobservable for an asset or liability.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Note 8. Fair Value of Financial Instruments (continued)

As of June 30, 2020 and December 31, 2019, the Company's investments were categorized as follows in the fair value hierarchy:

Valuation Inputs	June 30, 2020 (Unaudited)	December 31, 2019
Level 1—Price quotations in active markets	\$ —	\$ 1
Level 2—Significant other observable inputs	263	730
Level 3—Significant unobservable inputs	5,749	6,147
Investments measured at net asset value ⁽¹⁾	612	479
	\$ 6,624	\$ 7,357

(1) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheet.

In addition, the Company had foreign currency forward contracts, as described in Note 7, which were categorized as Level 2 in the fair value hierarchy as of June 30, 2020 and December 31, 2019.

The Company's investments consist primarily of debt investments that were acquired directly from the issuer. Debt investments, for which broker quotes are not available, are valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, the borrower's ability to adequately service its debt, prevailing interest rates for like investments, expected cash flows, call features, anticipated repayments and other relevant terms of the investments. Except as described below, all of the Company's equity/other investments are also valued by independent valuation firms, which determine the fair value of such investments by considering, among other factors, contractual rights ascribed to such investments, as well as various income scenarios and multiples of earnings before interest, taxes, depreciation and amortization, or EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. An investment that is newly issued and purchased near the date of the financial statements is valued at cost if the Company's board of directors determines that the cost of such investment is the best indication of its fair value. Such investments described above are typically classified as Level 3 within the fair value hierarchy. Investments that are traded on an active public market are valued at their closing price as of the date of the financial statements and are classified as Level 1 within the fair value hierarchy. Except as described above, the Company typically values its other investments by using the midpoint of the prevailing bid and ask prices from dealers on the date of the relevant period end, which are provided by independent third-party pricing services and screened for validity by such services and are typically classified as Level 2 within the fair value hierarchy.

The Company periodically benchmarks the bid and ask prices it receives from the third-party pricing services and/or dealers and independent valuation firms as applicable, against the actual prices at which the Company purchases and sells its investments. Based on the results of the benchmark analysis and the experience of the Company's management in purchasing and selling these investments, the Company believes that these prices are reliable indicators of fair value. The valuation committee of the Company's board of directors, or the valuation committee, and the board of directors reviewed and approved the valuation determinations made with respect to these investments in a manner consistent with the Company's valuation policy.

Note 9. Financing Arrangements

Prior to June 14, 2019, in accordance with the 1940 Act, the Company was allowed to borrow amounts such that its asset coverage, calculated pursuant to the 1940 Act, was at least 200% after such borrowing. Effective June 15, 2019, the Company's asset coverage requirement applicable to senior securities was reduced from 200% to 150%. As of June 30, 2020, the aggregate amount outstanding of the senior securities issued by the Company was \$3,928. As of June 30, 2020, the Company's asset coverage was 174%.

The following tables present summary information with respect to the Company's outstanding financing arrangements as of June 30, 2020 and December 31, 2019. For additional information regarding these financing arrangements, see the notes to the Company's audited consolidated financial statements contained in its annual report on Form 10-K for the year ended December 31, 2019. (1) Borrowings of each of the Company's wholly-owned, special-purpose financing subsidiaries are considered borrowings of the Company for purposes of complying with the asset coverage requirements applicable to BDCs under the 1940 Act.

(2) Direct interest expense includes the effect of non-usage fees.

The Company's average borrowings and weighted average interest rate, including the effect of non-usage fees, for the six months ended June 30, 2020 were \$4,415 and 3.76%, respectively. As of June 30, 2020, the Company's weighted average effective interest rate on borrowings, including the effect of non-usage fees, was 3.86%.

The Company's average borrowings and weighted average interest rate, including the effect of non-usage fees, for the six months ended June 30, 2019 were \$3,503 and 4.59%, respectively. As of June 30, 2019, the Company's weighted average effective interest rate on borrowings, including the effect of non-usage fees, was 4.60%.

FS KKR Capital Corp.**Notes to Unaudited Consolidated Financial Statements (continued)**
(in millions, except share and per share amounts)**Note 9. Financing Arrangements (continued)**

Under its financing arrangements, the Company has made certain representations and warranties and is required to comply with various covenants, reporting requirements and other customary requirements for similar financing arrangements. The Company was in compliance with all covenants required by its financing arrangements as of June 30, 2020 and December 31, 2019.

CCT Tokyo Funding Credit Facility

On May 14, 2020, CCT Tokyo Funding LLC, or CCT Tokyo Funding, a wholly-owned special-purpose financing subsidiary of the Company, elected to extend the reinvestment period of its revolving credit facility, or the CCT Tokyo Funding Credit Facility, with Sumitomo Mitsui Banking Corporation, as the administrative agent, collateral agent, and lender, by an additional six months to December 2, 2020.

Senior Secured Revolving Credit Facility

On March 3, 2020, the Company entered into a Commitment Increase Agreement in connection with its senior secured revolving credit facility, or as subsequently amended and restated, the Senior Secured Revolving Credit Facility, with FS KKR Capital Corp. II, as an additional borrower, JPMorgan Chase Bank, N.A., as administrative agent, ING Capital LLC, as collateral agent, and the lenders party thereto, which, among other things, increased the total facility amount from \$3,890 to \$3,980. There was no change to the sublimit of the total facility amount available for the Company to borrow.

On May 5, 2020, the Company entered into that certain Amendment No. 1 to Amended and Restated Senior Secured Revolving Credit Agreement, or the Amendment, to the Senior Secured Revolving Credit Facility, with FS KKR Capital Corp. II, JPMorgan Chase Bank, N.A., as administrative agent, ING Capital LLC, as collateral agent, and the lenders party thereto, among other things, reset the quarterly minimum shareholders' equity test as the greater of (a) 30% of the total assets as at the last day of such fiscal quarter and (b) \$1,968.2 plus 37.5% of net equity proceeds after April 15, 2021.

8.625% Notes due 2025

On April 30, 2020, the Company and U.S. Bank National Association, as trustee, or U.S. Bank, entered into that certain Sixth Supplemental Indenture, or the Sixth Supplemental Indenture, to the Indenture, dated as of July 14, 2014 between the Company and U.S. Bank, or the Base Indenture, and together with the Sixth Supplemental Indenture, the Indenture. The Sixth Supplemental Indenture relates to the Company's issuance of \$250 aggregate principal amount of its 8.625% notes due 2025, or the Notes, and such issuance of the Notes, the Offering.

The Notes will mature on May 15, 2025 and may be redeemed in whole or in part at the Company's option at any time or from time to time at the redemption prices set forth in the Indenture. The Notes bear interest at a rate of 8.625% per year, subject to adjustment during any "downgrade period" as described in the Indenture, payable semi-annually on May 15th and November 15th of each year, commencing on November 15, 2020. The Notes are general unsecured obligations of the Company that rank senior in right of payment to all of the Company's existing and future indebtedness that is expressly subordinated in right of payment to the Notes, rank *pari passu* with all existing and future unsecured unsubordinated indebtedness issued by the Company, rank effectively junior to any of the Company's secured indebtedness (including unsecured indebtedness that the Company later secures) to the extent of the value of the assets securing such indebtedness, and rank structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries, financing vehicles or similar facilities. The Indenture contains certain covenants, including covenants requiring the Company to comply with the asset coverage requirements of Section 18(a)(1)(A) as modified by Section 61(a)(1) and (2) of the Investment Company Act of 1940, as amended, whether or not it is subject to those requirements, to provide financial information to the holders of the Notes and U.S. Bank if the Company is no longer subject to the reporting requirements under the Securities Exchange Act of 1934, as amended, and to use reasonable best efforts to obtain a rating of the Notes (but not a specific rating) from two or more rating agencies within two months after the issuance of the Notes. These covenants are subject to important limitations and exceptions that are described in the Indenture.

Note 9. Financing Arrangements (continued)

In addition, on the occurrence of a “change of control repurchase event,” as defined in the Indenture, the Company will generally be required to make an offer to purchase the outstanding Notes at a price equal to 100% of the principal amount of such Notes plus accrued and unpaid interest to the repurchase date.

The Notes were offered to persons reasonably believed to be qualified institutional buyers pursuant to Rule 144A under the Securities Act and to certain non-U.S. persons outside the United States pursuant to Regulation S under the Securities Act. The Notes have not been registered under the Securities Act or any state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from such registration requirements.

Note 10. Commitments and Contingencies

The Company enters into contracts that contain a variety of indemnification provisions. The Company’s maximum exposure under these arrangements is unknown; however, the Company has not had prior claims or losses pursuant to these contracts. The Advisor has reviewed the Company’s existing contracts and expects the risk of loss to the Company to be remote.

The Company is not currently subject to any material legal proceedings and, to the Company’s knowledge, no material legal proceedings are threatened against the Company. From time to time, the Company may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of the Company’s rights under contracts with its portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, the Company does not expect that any such proceedings will have a material effect upon its financial condition or results of operations.

Note 10. Commitments and Contingencies (continued)

Unfunded commitments to provide funds to portfolio companies are not recorded in the Company's consolidated statements of assets and liabilities. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The Company has sufficient liquidity to fund these commitments. As of June 30, 2020, the Company's unfunded commitments consisted of the following:

(1) May be commitments to one or more entities affiliated with the named company.

As of June 30, 2020, the Company's debt commitments are comprised of \$38.1 revolving credit facilities, \$276.0 delayed draw term loans and \$16.2 term loans, which generally are used for acquisitions or capital expenditures and are subject to certain performance tests. Such unfunded debt commitments have a fair value representing unrealized appreciation (depreciation) of \$(7.4). The Company's unfunded Asset Based Finance/Other commitments generally require certain conditions to be met or actual approval from the Advisor prior to funding.

As of June 30, 2020, the Company also has an unfunded commitment to provide \$118.3 of capital to SCJV. The capital commitment can be satisfied with contributions of cash and/or investments. The capital commitments cannot be drawn without an affirmative vote by both the Company's and SCRS's representatives on SCJV's board of managers.

Note 10. Commitments and Contingencies (continued)

While the Company does not expect to fund all of its unfunded commitments, there can be no assurance that it will not be required to do so.

In the normal course of business, the Company may enter into guarantees on behalf of portfolio companies. Under such arrangements, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. The Company has no such guarantees outstanding at June 30, 2020 and December 31, 2019.

Note 11. Financial Highlights

The following is a schedule of financial highlights of the Company for the six months ended June 30, 2020 and the year ended December 31, 2019:

(1) The share information utilized to determine per share data has been retroactively adjusted to reflect the Reverse Stock Split discussed in Note 3. Per share data may be rounded in order to recompute the ending net asset value per share.

(2) The per share data was derived by using the weighted average shares outstanding during the applicable period.

FS KKR Capital Corp.

Notes to Unaudited Consolidated Financial Statements (continued)
(in millions, except share and per share amounts)**Note 11. Financial Highlights (continued)**

- (3) The per share data for distributions reflect the actual amount of distributions paid per share during the applicable period.
- (4) The issuance of common stock on a per share basis reflects the incremental net asset value changes as a result of the issuance of shares of common stock pursuant to the DRP. The issuance of common stock at a price that is greater than the net asset value per share results in an increase in net asset value per share.
- (5) Represents the incremental impact of the Company's share repurchase program by buying shares in the open market at a price lower than net asset value per share.
- (6) The total return based on net asset value for each period presented was calculated by taking the net asset value per share as of the end of the applicable period, adding the cash distributions per share that were declared during the period and dividing the total by the net asset value per share at the beginning of the period. Total return based on net asset value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Company's common stock. The historical calculation of total return based on net asset value in the table should not be considered a representation of the Company's future total return based on net asset value, which may be greater or less than the return shown in the table due to a number of factors, including the Company's ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Company's expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets and general economic conditions. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods. The total return calculations set forth above represent the total return on the Company's investment portfolio during the applicable period and do not represent an actual return to stockholders.
- (7) The total return based on market value for each period presented was calculated based on the change in market price during the applicable period, including the impact of distributions reinvested in accordance with the Company's DRP. Total return based on market value does not consider the effect of any sales commissions or charges that may be incurred in connection with the sale of shares of the Company's common stock. The historical calculation of total return based on market value in the table should not be considered a representation of the Company's future total return based on market value, which may be greater or less than the return shown in the table due to a number of factors, including the Company's ability or inability to make investments in companies that meet its investment criteria, the interest rates payable on the debt securities the Company acquires, the level of the Company's expenses, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which the Company encounters competition in its markets, general economic conditions and fluctuations in per share market value. As a result of these factors, results for any previous period should not be relied upon as being indicative of performance in future periods.
- (8) Weighted average net assets during the applicable period are used for this calculation. Ratios for the six months ended June 30, 2020 are annualized. Annualized ratios for the six months ended June 30, 2020 are not necessarily indicative of the ratios that may be expected for the year ending December 31, 2020. The following is a schedule of supplemental ratios for the six months ended June 30, 2020 and year ended December 31, 2019:

	Six Months Ended June 30, 2020 (Unaudited)	Year Ended December 31, 2019
Ratio of subordinated income incentive fees to average net assets	—	1.40%
Ratio of interest expense to average net assets	5.21%	4.19%
Ratio of excise taxes to average net assets	—	0.17%

- (9) Portfolio turnover for the six months ended June 30, 2020 is not annualized.
- (10) Asset coverage per unit is the ratio of the carrying value of the Company's total consolidated assets, less liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness.

(in millions, except share and per share amounts)

The information contained in this section should be read in conjunction with our unaudited consolidated financial statements and related notes thereto appearing elsewhere in this quarterly report on Form 10-Q. In this report, “we,” “us,” “our” and the “Company” refer to FS KKR Capital Corp. and the “Advisor” refers to FS/KKR Advisor, LLC.

Forward-Looking Statements

Some of the statements in this quarterly report on Form 10-Q constitute forward-looking statements because they relate to future events or our future performance or financial condition. The forward-looking statements contained in this quarterly report on Form 10-Q may include statements as to:

- our future operating results;
- our business prospects and the prospects of the companies in which we may invest, including our and their ability to achieve our respective objectives as a result of the current COVID-19 pandemic;
- the impact of the investments that we expect to make;
- the ability of our portfolio companies to achieve their objectives;
- our current and expected financings and investments;
- receiving and maintaining corporate credit ratings and changes in the general interest rate environment;
- the adequacy of our cash resources, financing sources and working capital;
- the timing and amount of cash flows, distributions and dividends, if any, from our portfolio companies;
- our contractual arrangements and relationships with third parties;
- actual and potential conflicts of interest with the Advisor, FS Investments, KKR Credit or any of their respective affiliates;
- the dependence of our future success on the general economy and its effect on the industries in which we may invest;
- general economic and political trends and other external factors, including the current COVID-19 pandemic and related disruptions caused thereby;
- our use of financial leverage;
- the ability of the Advisor to locate suitable investments for us and to monitor and administer our investments;
- the ability of the Advisor or its affiliates to attract and retain highly talented professionals;
- our ability to maintain our qualification as a RIC and as a BDC;
- the impact on our business of the Dodd-Frank Wall Street Reform and Consumer Protection Act, as amended, and the rules and regulations issued thereunder;
- the effect of changes to tax legislation on us and the portfolio companies in which we may invest and our and their tax position; and
- the tax status of the enterprises in which we may invest.

In addition, words such as “anticipate,” “believe,” “expect” and “intend” indicate a forward-looking statement, although not all forward-looking statements include these words. The forward-looking statements contained in this quarterly report on Form 10-Q involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason. Factors that could cause actual results to differ materially include:

- changes in the economy;
- risks associated with possible disruption in our operations or the economy generally due to terrorism, natural disasters or pandemics;

[Table of Contents](#)

- future changes in laws or regulations and conditions in our operating areas; and
- the price at which shares of our common stock may trade on the New York Stock Exchange, or NYSE.

We have based the forward-looking statements included in this quarterly report on Form 10-Q on information available to us on the date of this quarterly report on Form 10-Q. Except as required by the federal securities laws, we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise. Stockholders are advised to consult any additional disclosures that we may make directly to stockholders or through reports that we may file in the future with the SEC, including annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. The forward-looking statements and projections contained in this quarterly report on Form 10-Q are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Exchange Act.

Overview

We were incorporated under the general corporation laws of the State of Maryland on December 21, 2007 and formally commenced investment operations on January 2, 2009. We are an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a BDC under the 1940 Act and has elected to be treated for U.S. federal income tax purposes, and intends to qualify annually, as a RIC under Subchapter M of the Code.

We are externally managed by the Advisor pursuant to an investment advisory agreement, or the investment advisory agreement, and supervised by our board of directors, a majority of whom are independent.

Our investment objectives are to generate current income and, to a lesser extent, long-term capital appreciation. We seek to meet our investment objectives by:

- utilizing the experience and expertise of the management team of the Advisor;
- employing a defensive investment approach focused on long-term credit performance and principal protection;
- focusing primarily on debt investments in a broad array of private U.S. companies, including middle-market companies, which we define as companies with annual EBITDA of \$25 million to \$100 million at the time of investment;
- investing primarily in established, stable enterprises with positive cash flows; and
- maintaining rigorous portfolio monitoring in an attempt to anticipate and pre-empt negative credit events within our portfolio, such as an event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company.

We pursue our investment objective by investing primarily in the debt of middle market U.S. companies with a focus on originated transactions sourced through the network of the Advisor and its affiliates. We define direct originations as any investment where the Company's investment adviser, sub-adviser or their affiliates had negotiated the terms of the transaction beyond just the price, which, for example, may include negotiating financial covenants, maturity dates or interest rate terms. These directly originated transactions include participation in other originated transactions where there may be third parties involved, or a bank acting as an intermediary, for a closely held club, or similar transactions. These direct originations include investments originated by our former investment adviser, our former investment sub-adviser or their affiliates.

Our portfolio is comprised primarily of investments in senior secured loans and second lien secured loans of private middle market U.S. companies and, to a lesser extent, subordinated loans and certain asset-based financing loans of private U.S. companies. Although we do not expect a significant portion of our portfolio to be comprised of subordinated loans, there is no limit on the amount of such loans in which we may invest. We may purchase interests in loans or make other debt investments, including investments in senior secured bonds, through secondary market transactions in the "over-the-counter" market or directly from our target companies as primary market or directly originated investments. In connection with our debt investments, we may on occasion receive equity interests such as warrants or options as additional consideration. We may also purchase or otherwise acquire interests in the form of common or preferred equity or equity-related securities, such as rights and warrants that may be converted into or exchanged for common stock or other equity or the cash value of common stock or other equity, including through a co-investment with a financial sponsor or possibly the restructuring of an investment. In addition, a portion of our portfolio may be comprised of corporate bonds, structured products, other debt securities and derivatives, including total return swaps and credit default swaps. The Advisor will seek to tailor our investment focus as market conditions evolve. Depending on market conditions, we may increase or decrease our exposure to less senior portions of the capital structures of our portfolio companies or otherwise make opportunistic investments, such as where the market price of loans, bonds or other securities reflects a lower value than deemed warranted by the Advisor's fundamental analysis. Such investment opportunities

[Table of Contents](#)

may occur due to general dislocations in the markets, a misunderstanding by the market of a particular company or an industry being out of favor with the broader investment community and may include event driven investments, anchor orders and structured products.

The senior secured loans, second lien secured loans and senior secured bonds in which we invest generally have stated terms of three to seven years and subordinated debt investments that we make generally have stated terms of up to ten years, but the expected average life of such securities is generally three to four years. However, we may invest in loans and securities with any maturity or duration. Our debt investments may be rated by a NRSRO and, in such case, generally will carry a rating below investment grade (rated lower than “Baa3” by Moody’s or lower than “BBB-” by S&P). We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by a NRSRO.

Revenues

The principal measure of our financial performance is net increase in net assets resulting from operations, which includes net investment income, net realized gain or loss on investments, net realized gain or loss on foreign currency, net unrealized appreciation or depreciation on investments and net unrealized gain or loss on foreign currency. Net investment income is the difference between our income from interest, dividends, fees and other investment income and our operating and other expenses. Net realized gain or loss on investments is the difference between the proceeds received from dispositions of portfolio investments and their amortized cost, including the respective realized gain or loss on foreign currency for those foreign denominated investment transactions. Net realized gain or loss on foreign currency is the portion of realized gain or loss attributable to foreign currency fluctuations. Net unrealized appreciation or depreciation on investments is the net change in the fair value of our investment portfolio, including the respective unrealized gain or loss on foreign currency for those foreign denominated investments. Net unrealized gain or loss on foreign currency is the net change in the value of receivables or accruals due to the impact of foreign currency fluctuations.

We principally generate revenues in the form of interest income on the debt investments we hold. In addition, we generate revenues in the form of non-recurring commitment, closing, origination, structuring or diligence fees, monitoring fees, fees for providing managerial assistance, consulting fees, prepayment fees and performance-based fees. We may also generate revenues in the form of dividends and other distributions on the equity or other securities we hold.

Expenses

Our primary operating expenses include the payment of management and incentive fees and other expenses under the investment advisory agreement and the administration agreement, interest expense from financing arrangements and other indebtedness, and other expenses necessary for our operations. The management and incentive fees compensate the Advisor for its work in identifying, evaluating, negotiating, executing, monitoring and servicing our investments.

The Advisor oversees our day-to-day operations, including the provision of general ledger accounting, fund accounting, legal services, investor relations, certain government and regulatory affairs activities, and other administrative services. The Advisor also performs, or oversees the performance of, our corporate operations and required administrative services, which includes being responsible for the financial records that we are required to maintain and preparing reports for our stockholders and reports filed with the SEC. In addition, the Advisor assists us in calculating our net asset value, overseeing the preparation and filing of tax returns and the printing and dissemination of reports to our stockholders, and generally overseeing the payment of our expenses and the performance of administrative and professional services rendered to us by others.

Pursuant to the administration agreement, we reimburse the Advisor for expenses necessary to perform services related to our administration and operations, including the Advisor’s allocable portion of the compensation and related expenses of certain personnel of FS Investments and KKR Credit providing administrative services to us on behalf of the Advisor. We reimburse the Advisor no less than quarterly for all costs and expenses incurred by the Advisor in performing its obligations and providing personnel and facilities under the administration agreement. The Advisor allocates the cost of such services to us based on factors such as total assets, revenues, time allocations and/or other reasonable metrics. Our board of directors reviews the methodology employed in determining how the expenses are allocated to us and the proposed allocation of administrative expenses among us and certain affiliates of the Advisor. Our board of directors then assesses the reasonableness of such reimbursements for expenses allocated to us based on the breadth, depth and quality of such services as compared to the estimated cost to us of obtaining similar services from third-party service providers known to be available. In addition, our board of directors considers whether any single third-party service provider would be capable of providing all such services at comparable cost and quality. Finally, our board of directors compares the total amount paid to the Advisor for such services as a percentage of our net assets to the same ratio as reported by other comparable BDCs.

[Table of Contents](#)

We bear all other expenses of our operations and transactions, including all other expenses incurred by the Advisor in performing services for us and administrative personnel paid by the Advisor, to the extent they are not controlling persons of the Advisor or any of its affiliates, subject to the limitations included in the investment advisory agreement and the administration agreement.

In addition, we have contracted with State Street Bank and Trust Company to provide various accounting and administrative services, including, but not limited to, preparing preliminary financial information for review by the Advisor, preparing and monitoring expense budgets, maintaining accounting and corporate books and records, processing trade information provided by us and performing testing with respect to RIC compliance.

COVID-19 Developments

The rapid spread of the COVID-19 pandemic, and associated impacts on the U.S. and global economies, has negatively impacted, and is likely to continue to negatively impact, the business operations of some of our portfolio companies. We cannot at this time fully predict the impact of COVID-19 on our business or the business of our portfolio companies, its duration or magnitude or the extent to which it will negatively impact our portfolio companies' operating results or our own results of operations or financial condition. We expect that certain of our portfolio companies will continue to experience economic distress for the foreseeable future and may significantly limit business operations if subjected to prolonged economic distress. These developments could result in a decrease in the value of our investments.

COVID-19 has already had adverse effects on our investment income and we expect that such adverse effects will continue for some time. These adverse effects may require us to restructure certain of our investments, which could result in further reductions to our investment income or in impairments on our investments. In addition, disruptions in the capital markets have resulted in illiquidity in certain market areas. These market disruptions and illiquidity are likely to have an adverse effect on our business, financial condition, results of operations and cash flows. Unfavorable economic conditions caused by COVID-19 can also be expected to increase our funding costs and limit our access to the capital markets. These events have limited our investment originations, which is likely to continue for the immediate future, and have also had a material negative impact on our operating results.

We will continue to carefully monitor the impact of the COVID-19 pandemic on our business and the business of our portfolio companies. Because the full effects of the COVID-19 pandemic are not capable of being known at this time, we cannot estimate the impacts of COVID-19 on our future financial condition, results of operations or cash flows. We do, however, expect that it will continue to have a negative impact on our business and the financial condition of our portfolio companies.

- (1) “Debt Investments” means investments that pay or are expected to pay a stated interest rate, stated dividend rate or other similar stated return.
- (2) Does not include investments on non-accrual status.
- (3) “Other Income Producing Investments” means investments that pay or are expected to pay interest, dividends or other income to the Company on an ongoing basis but do not have a stated interest rate, stated dividend rate or other similar stated return.
- (4) The Weighted Average Annual Yield on Accruing Debt Investments is computed as (i) the sum of (a) the stated annual interest rate, dividend rate or other similar stated return of each accruing Debt Investment, multiplied by its par amount, adjusted to U.S. dollars and for any partial income accrual when necessary, as of the end of the applicable reporting period, plus (b) the annual amortization of the purchase or original issue discount or premium of each accruing Debt Investment; divided by (ii) the total amortized cost of Debt Investments included in the calculated group as of the end of the applicable reporting period.
- (5) The Weighted Average Annual Yield on All Debt Investments is computed as (i) the sum of (a) the stated annual interest rate, dividend rate or other similar stated return of each Debt Investment, multiplied by its par amount, adjusted to U.S. dollars and for any partial income accrual when necessary, as of the end of the applicable reporting period, plus (b) the annual amortization of the purchase or original issue discount or premium of each Debt Investment; divided by (ii) the total amortized cost of Debt Investments included in the calculated group as of the end of the applicable reporting period.

For the six months ended June 30, 2020, our total return based on net asset value was (19.02)% and our total return based on market value was (36.74)%. For the year ended December 31, 2019, our total return based on net asset value was 7.14% and our total return based on market value was 33.80%. See footnotes 6 and 7 to the table included in Note 11 to our unaudited consolidated financial statements included herein for information regarding the calculation of our total return based on net asset value and total return based on market value, respectively.

Portfolio Asset Quality

In addition to various risk management and monitoring tools, the Advisor uses an investment rating system to characterize and monitor the expected level of returns on each investment in our portfolio. The Advisor uses an investment rating scale of 1 to 4. The following is a description of the conditions associated with each investment rating:

Investment Rating	Summary Description
1	Performing investment—generally executing in accordance with plan and there are no concerns about the portfolio company's performance or ability to meet covenant requirements.
2	Performing investment—no concern about repayment of both interest and our cost basis but company's recent performance or trends in the industry require closer monitoring.
3	Underperforming investment—some loss of interest or dividend possible, but still expecting a positive return on investment.
4	Underperforming investment—concerns about the recoverability of principal or interest.

Table of Contents

The following table shows the distribution of our investments on the 1 to 4 investment rating scale at fair value as of June 30, 2020 and December 31, 2019:

Investment Rating	June 30, 2020		December 31, 2019	
	Fair Value	Percentage of Portfolio	Fair Value	Percentage of Portfolio
1	3,684	55%	\$4,214	57%
2	2,193	33%	2,440	33%
3	372	6%	444	6%
4	375	6%	259	4%
Total	\$6,624	100%	\$7,357	100%

The amount of the portfolio in each grading category may vary substantially from period to period resulting primarily from changes in the composition of the portfolio as a result of new investment, repayment and exit activities. In addition, changes in the grade of investments may be made to reflect our expectation of performance and changes in investment values.

Results of Operations

Comparison of the Three and Six Months Ended June 30, 2020 and June 30, 2019

Revenues

Our investment income for the three and six months ended June 30, 2020 and 2019 was as follows:

	Three Months Ended June 30,				Six Months Ended June 30,			
	2020		2019		2020		2019	
	Amount	Percentage of Total Income	Amount	Percentage of Total Income	Amount	Percentage of Total Income	Amount	Percentage of Total Income
Interest income	\$ 112	74.7%	\$ 156	78.4%	\$ 243	73.9%	\$ 314	79.7%
Paid-in-kind interest income	15	10.0%	12	6.0%	31	9.4%	28	7.1%

Dividend income	17	11.3%	23	11.6%	37	11.2%	33	8.4%
Total investment income⁽¹⁾	\$ 150	100.0%	\$ 199	100.0%	\$ 329	100.0%	\$ 394	100.0%

(1) Such revenues represent \$131 and \$183 of cash income earned as well as \$19 and \$16 in non-cash portions relating to accretion of discount and PIK interest for the three months ended June 30, 2020 and 2019, respectively, and represent \$292 and \$358 of cash income earned as well as \$37 and \$36 in non-cash portions relating to accretion of discount and PIK interest for the six months ended June 30, 2020 and 2019, respectively. Cash flows related to such non-cash revenues may not occur for a number of reporting periods or years after such revenues are recognized.

The level of interest income we receive is generally related to the balance of income-producing investments, multiplied by the weighted average yield of our investments. Fee income is transaction based, and typically consists of amendment and consent fees, prepayment fees, structuring fees and other non-recurring fees. As such, fee income is generally dependent on new direct origination investments and the occurrence of events at existing portfolio companies resulting in such fees.

The decrease in interest income during the three and six months ended June 30, 2020 compared to the three and six months ended June 30, 2019 can primarily be attributed to the repayment of higher yielding assets replaced by lower yielding assets, the impact of the decline in LIBOR on our floating rate investments and the increase in non-accrual assets during the quarter. A portion of each of these factors was impacted by the current COVID-19 pandemic.

The decrease in dividend income during the three months ended June 30, 2020 compared to the three months ended June 30, 2019 can be primarily attributed to higher dividends paid in respect to certain select investments during the three months ended June 30, 2019 compared to the three months ended June 30, 2020. The increase in dividend income during the six months ended June 30, 2020 compared to the six months ended June 30, 2019 can be primarily attributed to the increase in dividends paid in respect to our investment in Strategic Credit Opportunities Partners, LLC during the six months ended June 30, 2020, compared to the six months ended June 30, 2019.

Expenses

Our operating expenses for the three and six months ended June 30, 2020 and 2019 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Management fees	\$ 26	\$ 28	\$ 56	\$ 57

Interest expense	42	41	88	84
Other	2	1	4	4
Total operating expenses	\$ 73	\$ 98	\$ 154	\$ 198

The following table reflects selected expense ratios as a percent of average net assets for the three and six months ended June 30, 2020 and 2019:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Ratio of operating expenses to average net assets	2.43%	2.40%	4.55%	4.81%
Ratio of incentive fees and interest expense to average net assets ⁽¹⁾	1.40%	1.62%	2.60%	3.23%
Ratio of net operating expenses, excluding certain expenses, to average net assets	1.03%	0.78%	1.95%	1.58%

(1) Ratio data may be rounded in order to recompute the ending ratio of net operating expenses to average net assets or net operating expenses, excluding certain expenses, to average net assets.

Incentive fees and interest expense, among other things, may increase or decrease our expense ratios relative to comparative periods depending on portfolio performance and changes in amounts outstanding under our financing arrangements and benchmark interest rates such as LIBOR, among other factors.

Net Investment Income

Our net investment income totaled \$77 (\$0.62 per share) and \$101 (\$0.77 per share) for the three months ended June 30, 2020 and 2019, respectively. The decrease in net investment income during the three months ended June 30, 2020 compared to the three months ended June 30, 2019 can primarily be attributed to lower investment income during the three months ended June 30, 2020 as discussed above, partially offset by lower expenses.

Our net investment income totaled \$175 (\$1.40 per share) and \$196 (\$1.49 per share) for the six months ended June 30, 2020 and 2019, respectively. The decrease in net investment income during the six months ended June 30, 2020 compared to the six months ended June 30, 2019 can primarily be attributed to lower investment income during the six months ended June 30, 2020 as discussed above, partially offset by lower expenses.

Total net realized gain (loss)	\$ (69)	\$ (67)	\$ (199)	\$ (82)

(1) We sold investments and received principal repayments, respectively, of \$384 and \$86 during the three months ended June 30, 2020 and \$124 and \$568 during the three months ended June 30, 2019. We sold investments and received principal repayments, respectively, of \$843 and \$541 during the six months ended June 30, 2020 and \$424 and \$778 during the six months ended June 30, 2019.

Net Change in Unrealized Appreciation (Depreciation)

Our net change in unrealized appreciation (depreciation) on investments and unrealized gain (loss) on foreign currency for the three and six months ended June 30, 2020 and 2019 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2020	2019	2020	2019
Net change in unrealized appreciation (depreciation) on investments	\$ (57)	\$ 61	\$ (752)	\$ 77
Net change in unrealized appreciation (depreciation) on swap contracts	—	10	—	14
Net change in unrealized appreciation (depreciation) on foreign currency forward contracts	—	(2)	2	(1)
Net change in unrealized gain (loss) on foreign currency	(6)	(2)	16	(2)
Total net change in unrealized appreciation (depreciation)	\$ (63)	\$ 67	\$ (734)	\$ 88

During the three and six months ended June 30, 2020, the net change in unrealized appreciation (depreciation) was driven primarily by mark to market declines across the portfolio resulting from uncertainty related to the current COVID-19 pandemic.

Net Increase (Decrease) in Net Assets Resulting from Operations

For the three months ended June 30, 2020, the net decrease in net assets resulting from operations was \$(55) (\$0.44 per share) compared to a net increase in net assets resulting from operations of \$101 (\$0.77 per share) during the three months ended June 30, 2019.

For the six months ended June 30, 2020, the net decrease in net assets resulting from operations was \$(758) (\$6.07 per share) compared to a net increase in net assets resulting from operations of \$202 (\$1.54 per share) during the six months ended June 30, 2019.

Financial Condition, Liquidity and Capital Resources

Overview

As of June 30, 2020, we had \$95 in cash and foreign currency, which we or our wholly-owned financing subsidiaries held in custodial accounts, and \$1,154 in borrowings available under our financing arrangements, subject to borrowing base and other limitations. As of June 30, 2020, we also held broadly syndicated investments and opportunistic investments that we believe could be sold to create additional liquidity. As of June 30, 2020, we had unfunded debt investments with aggregate unfunded commitments of \$330.3, unfunded equity/other commitments of \$261.0 and unfunded commitments of \$118.3 of Strategic Credit Opportunities Partners, LLC. We maintain sufficient cash on hand, available borrowings and liquid securities to fund such unfunded commitments should the need arise.

Table of Contents

We currently generate cash primarily from cash flows from fees, interest and dividends earned from our investments, as well as principal repayments and proceeds from sales of our investments. To seek to enhance our returns, we also employ leverage as market conditions permit and at the discretion of the Advisor. Prior to June 14, 2019, in accordance with the 1940 Act, we were allowed to borrow amounts such that our asset coverage, calculated pursuant to the 1940 Act, was at least 200% after such borrowing. Effective June 15, 2019, our asset coverage requirement applicable to senior securities was reduced from 200% to 150%. As of June 30, 2020, the aggregate amount outstanding of the senior securities issued by us was \$3.9 billion. As of June 30, 2020, our asset coverage was 174%. See “—Financing Arrangements.”

Prior to investing in securities of portfolio companies, we invest the cash received from fees, interest and dividends earned from our investments and principal repayments and proceeds from sales of our investments primarily in cash, cash equivalents, including money market funds, U.S. government securities, repurchase agreements and high-quality debt instruments maturing in one year or less from the time of investment, consistent with our BDC election and our election to be taxed as a RIC.

This “Financial Condition, Liquidity and Capital Resources” section should be read in conjunction with “COVID-19 Developments” above.

(1) LIBOR is subject to a 0% floor.

(2) The carrying amount outstanding under the facility approximates its fair value.

(3) The spread over LIBOR is determined by reference to the amount outstanding under the facility.

(4) The spread over LIBOR is determined by reference to the ratio of the value of the borrowing base to the aggregate amount of certain outstanding indebtedness of the Company.

(5) Amount includes borrowing in Euros, Canadian dollars, pound sterling and Australian dollars. Euro balance outstanding of €206 has been converted to U.S. dollars at an exchange rate of €1.00 to \$1.12 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars. Canadian dollar balance outstanding of CAD \$66 has been converted to U.S. dollars at an exchange rate of CAD \$1.00 to \$0.73 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars. Pound sterling balance outstanding of £121 has been converted to U.S. dollars at an exchange rate of £1.00 to \$1.24 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars. Australian dollar balance outstanding of A\$7 has been converted to U.S. dollars at an exchange rate of A\$1.00 to \$0.69 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars.

(7) As of June 30, 2020, there were \$299.4 of Class A-1 notes outstanding at L+1.70% and \$52.3 of Class A-2 notes outstanding at L+2.50%.

See Note 9 to our unaudited consolidated financial statements included herein for additional information regarding our financing arrangements.

RIC Status and Distributions

We have elected to be subject to tax as a RIC under Subchapter M of the Code. In order to qualify for RIC tax treatment, we must, among other things, make distributions of an amount at least equal to 90% of our investment company taxable income, determined without regard to any deduction for distributions paid, each tax year. As long as the distributions are declared by the later of the fifteenth day of the ninth month following the close of a tax year or the due date of the tax return for such tax year, including extensions, distributions paid up to twelve months after the current tax year can be carried back to the prior tax year for determining the distributions paid in such tax year. We intend to make sufficient distributions to our stockholders to qualify for and maintain our RIC tax status each tax year. We are also subject to a 4% nondeductible federal excise tax on certain undistributed income unless we make distributions in a timely manner to our stockholders generally of an amount at least equal to the sum of (1) 98% of our net ordinary income (taking into account certain deferrals and elections) for the calendar year, (2) 98.2% of our capital gain net income, which is the excess of capital gains in excess of capital losses, or "capital gain net income" (adjusted for certain ordinary losses), for the one-year period ending October 31 of that calendar year and (3) any net ordinary income and capital gain net income for the preceding years that were not distributed during such years and on which we paid no U.S. federal income tax. Any distribution declared by us during October, November or December of any calendar year, payable to stockholders of record on a specified date in such a month and actually paid during January of the following calendar year, will be treated as if it had been paid by us, as well as received by our stockholders, on December 31 of the calendar year in which the distribution was declared. We can offer no assurance that we will achieve results that will permit us to pay any cash distributions. If we issue senior securities, we will be prohibited from making distributions if doing so causes us to fail to maintain the asset coverage ratios stipulated by the 1940 Act or if distributions are limited by the terms of any of our borrowings.

Subject to applicable legal restrictions and the sole discretion of our board of directors, we intend to authorize, declare and pay regular cash distributions on a quarterly basis. We will calculate each stockholder's specific distribution amount for the period using record and declaration dates and each stockholder's distributions will begin to accrue on the date that shares of our common stock are issued to such stockholder. From time to time, we may also pay special interim distributions in the form of cash or shares of our common stock at the discretion of our board of directors.

During certain periods, our distributions may exceed our earnings. As a result, it is possible that a portion of the distributions we make may represent a return of capital. A return of capital generally is a return of a stockholder's investment rather than a return of earnings or gains derived from our investment activities. Each year a statement on Form 1099-DIV identifying the sources of the distributions will be mailed to our stockholders. No portion of the distributions paid during the six months ended June 30, 2020 or 2019 represented a return of capital.

We intend to continue to make our regular distributions in the form of cash, out of assets legally available for distribution, except for those stockholders who receive their distributions in the form of shares of our common stock under the DRP. Any distributions reinvested under the plan will nevertheless remain taxable to a U.S. stockholder.

The following table reflects the cash distributions per share that we have declared on our common stock during the six months ended June 30, 2020 and 2019:

For the Three Months Ended	Distribution	
	Per Share ⁽¹⁾	Amount
Fiscal 2019		
March 31, 2019	\$ 0.76000	\$ 100
June 30, 2019	0.76000	99
Total	<u>\$ 1.52000</u>	<u>\$ 199</u>
Fiscal 2020		
March 31, 2020	\$ 0.76000	\$ 95
June 30, 2020	0.60000	75
Total	<u>\$ 1.36000</u>	<u>\$ 170</u>

(1) The amount of each per share distribution has been retroactively adjusted to reflect the Reverse Stock Split as discussed in Note 3 to our unaudited consolidated financial statements included herein.

See Note 5 to our unaudited consolidated financial statements included herein for additional information regarding our distributions.

Critical Accounting Policies

Our financial statements are prepared in conformity with GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming the estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses. Understanding our accounting policies and the extent to which we use management judgment and estimates in applying these policies is integral to understanding our financial statements. We describe our most significant accounting policies in “Note 2. Summary of Significant Accounting Policies” in our consolidated financial statements. Critical accounting policies are those that require the application of management’s most difficult, subjective or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. We evaluate our critical accounting estimates and judgments required by our policies on an ongoing basis and update them as necessary based on changing conditions. We have identified one of our accounting policies, valuation of portfolio investments, as critical because it involves significant judgments and assumptions about highly complex and inherently uncertain matters, and the use of reasonably different estimates and assumptions could have a material impact on our reported results of operations or financial condition. As we execute our operating plans, we will describe additional critical accounting policies in the notes to our future financial statements in addition to those discussed below.

Valuation of Portfolio Investments

We determine the net asset value of our investment portfolio each quarter. Securities are valued at fair value as determined in good faith by our board of directors. In connection with that determination, the Advisor provides our board of directors with portfolio company valuations which are based on relevant inputs, including, but not limited to, indicative dealer quotes, values of like securities, recent portfolio company financial statements and forecasts, and valuations prepared by independent third-party valuation services.

Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosure*, or ASC Topic 820, issued by the FASB clarifies the definition of fair value and requires companies to expand their disclosure about the use of fair value to measure assets and liabilities in interim and annual periods subsequent to initial recognition. ASC Topic 820 defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 also establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, which includes inputs such as quoted prices for similar securities in active markets and quoted prices for identical securities where there is little or no activity in the market; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

With respect to investments for which market quotations are not readily available, we undertake a multi-step valuation process each quarter, as described below:

- our quarterly fair valuation process begins by the Advisor providing financial and operating information with respect to each portfolio company or investment to our independent third-party valuation service providers;
- our independent third-party valuation service providers review this information, along with other public and private information, and provide the Advisor with a valuation range for each portfolio company or investment;
- the Advisor then discusses the independent third-party valuation service providers’ valuation ranges and provides the valuation committee of the board of directors, or the valuation committee, with a valuation recommendation for each investment, along with supporting materials;
- preliminary valuations are then discussed with the valuation committee;
- our valuation committee reviews the preliminary valuations and the Advisor, together with our independent third-party valuation service providers and, if applicable, supplements the preliminary valuations to reflect any comments provided by the valuation committee;

[Table of Contents](#)

- following the completion of its review, our valuation committee recommends that our board of directors approves the fair valuations determined by the valuation committee; and
- our board of directors discusses the valuations and determines the fair value of each such investment in our portfolio in good faith based on various statistical and other factors, including the input and recommendation of the Advisor, the valuation committee and our independent third-party valuation service providers.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our consolidated financial statements refer to the uncertainty with respect to the possible effect of such valuations and any change in such valuations on our consolidated financial statements. In making its determination of fair value, our board of directors may use any approved independent third-party pricing or valuation services. However, our board of directors is not required to determine fair value in accordance with the valuation provided by any single source, and may use any relevant data, including information obtained from the Advisor or any approved independent third-party valuation or pricing service that our board of directors deems to be reliable in determining fair value under the circumstances. Below is a description of factors that the Advisor, any approved independent third-party valuation services and our board of directors may consider when determining the fair value of our investments.

Valuation of fixed income investments, such as loans and debt securities, depends upon a number of factors, including prevailing interest rates for like securities, expected volatility in future interest rates, call features, put features and other relevant terms of the debt. For investments without readily available market prices, we may incorporate these factors into discounted cash flow models to arrive at fair value. Other factors that may be considered include the borrower's ability to adequately service its debt, the fair market value of the borrower in relation to the face amount of its outstanding debt and the quality of collateral securing our debt investments.

For convertible debt securities, fair value generally approximates the fair value of the debt plus the fair value of an option to purchase the underlying security (i.e., the security into which the debt may convert) at the conversion price. To value such an option, a standard option pricing model may be used.

Our equity interests in portfolio companies for which there is no liquid public market are valued at fair value. Our board of directors, in its determination of fair value, may consider various factors, such as multiples of EBITDA, cash flows, net income, revenues or, in limited instances, book value or liquidation value. All of these factors may be subject to adjustments based upon the particular circumstances of a portfolio company or our actual investment position. For example, adjustments to EBITDA may take into account compensation to previous owners or acquisition, recapitalization, restructuring or other related items.

The Advisor, any approved independent third-party valuation services and our board of directors may also consider private merger and acquisition statistics, public trading multiples discounted for illiquidity and other factors, valuations implied by third-party investments in the portfolio companies or industry practices in determining fair value. The Advisor, any approved independent third-party valuation services and our board of directors may also consider the size and scope of a portfolio company and its specific strengths and weaknesses, and may apply discounts or premiums, where and as appropriate, due to the higher (or lower) financial risk and/or the smaller size of portfolio companies relative to comparable firms, as well as such other factors as our board of directors, in consultation with the Advisor and any approved independent third-party valuation services, if applicable, may consider relevant in assessing fair value. Generally, the value of our equity interests in public companies for which market quotations are readily available is based upon the most recent closing public market price. Portfolio securities that carry certain restrictions on sale are typically valued at a discount from the public market value of the security.

When we receive warrants or other equity securities at nominal or no additional cost in connection with an investment in a debt security, the cost basis in the investment will be allocated between the debt securities and any such warrants or other equity securities received at the time of origination. Our board of directors subsequently values these warrants or other equity securities received at their fair value.

The fair values of our investments are determined in good faith by our board of directors. Our board of directors is responsible for the valuation of our portfolio investments at fair value as determined in good faith pursuant to our valuation policy and consistently applied valuation process. Our board of directors has delegated day-to-day responsibility for implementing our valuation policy to the Advisor, and has authorized the Advisor to utilize independent third-party valuation and pricing services that have been approved by our board of directors. The valuation committee is responsible for overseeing the Advisor's implementation of the valuation process.

See Note 8 to our unaudited consolidated financial statements included herein for additional information regarding the fair value of our financial instruments.

Contractual Obligations

We have entered into agreements with the Advisor to provide us with investment advisory and administrative services. Payments for investment advisory services under the investment advisory agreement are equal to (a) an annual base management fee based on the average weekly value of our gross assets (excluding cash and cash equivalents) and (b) an incentive fee based on our performance. The Advisor is reimbursed for administrative expenses incurred on our behalf. See Note 4 to our unaudited consolidated financial statements included herein for a discussion of these agreements and for the amount of fees and expenses accrued under these agreements during the six months ended June 30, 2020 and 2019.

A summary of our significant contractual payment obligations for the repayment of outstanding indebtedness at June 30, 2020 is as follows:

- (1) Amounts outstanding under the financing arrangements will mature, and all accrued and unpaid interest thereunder will be due and payable, on the maturity date.
- (2) At June 30, 2020, \$34 remained unused under the financing arrangement.
- (3) At June 30, 2020, \$29 remained unused under the financing arrangement.
- (4) At June 30, 2020, \$1,091 remained unused under the Senior Secured Revolving Credit Facility. Amount includes borrowing in Euros, Canadian dollars, pound sterling and Australian dollars. Euro balance outstanding of €206 has been converted to U.S. dollars at an exchange rate of €1.00 to \$1.12 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars. Canadian dollar balance outstanding of CAD \$66 has been converted to U.S. dollars at an exchange rate of CAD \$1.00 to \$0.73 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars. Pound sterling balance outstanding of £121 has been converted to U.S. dollars at an exchange rate of £1.00 to \$1.24 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars. Australian dollar balance outstanding of A\$7 has been converted to U.S. dollars at an exchange rate of A\$1.00 to \$0.69 as of June 30, 2020 to reflect total amount outstanding in U.S. dollars.

Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements, including any risk management of commodity pricing or other hedging practices.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

We are subject to financial market risks, including changes in interest rates. As of June 30, 2020, 64.2% of our portfolio investments (based on fair value) were debt investments paying variable interest rates and 10.6% were debt investments paying fixed interest rates while 11.6% were other income producing investments, 9.8% consisted of non-income producing investments, and the remaining 3.8% consisted of investments on non-accrual status. A rise in the general level of interest rates can be expected to lead to higher interest rates applicable to any variable rate investments we hold and to declines in the value of any fixed rate investments we hold. However, many of our variable rate investments provide for an interest rate floor, which may prevent our interest income from increasing until benchmark interest rates increase beyond a threshold amount. To the extent that a substantial portion of our investments may be in variable rate investments, an increase in interest rates beyond this threshold would make it easier for us to meet or exceed the hurdle rate applicable to the subordinated incentive fee on income, and may

[Table of Contents](#)

result in a substantial increase in our net investment income and to the amount of incentive fees payable to the Advisor with respect to our increased pre-incentive fee net investment income. In recent weeks, the U.S. Federal Reserve and other central banks have reduced certain interest rates in response to the COVID-19 pandemic and market conditions. A prolonged reduction in interest rates may reduce our net investment income.

Pursuant to the terms of the CCT Tokyo Funding Credit Facility, Locust Street Funding Credit Facility, Senior Secured Revolving Credit Facility and the 2019-1 Notes, we borrow at a floating rate based on a benchmark interest rate. Under the indentures governing the 4.750% notes, the 5.000% notes, the 4.625% notes, the 4.125% notes and the 8.625% notes, we pay interest to the holders of such notes at a fixed rate. To the extent that any present or future credit facilities or other financing arrangements that we or any of our subsidiaries enter into are based on a floating interest rate, we will be subject to risks relating to changes in market interest rates. In periods of rising interest rates when we or our subsidiaries have such debt outstanding, or financing arrangements in effect, our interest expense would increase, which could reduce our net investment income, especially to the extent we hold fixed rate investments.

The following table shows the effect over a twelve month period of changes in interest rates on our interest income, interest expense and net interest income, assuming no changes in the composition of our investment portfolio, including the accrual status of our investments, and our financing arrangements in effect as of June 30, 2020 (dollar amounts are presented in millions):

Basis Point Change in Interest Rates	Increase (Decrease) in Interest Income⁽¹⁾	Increase (Decrease) in Interest Expense	Increase (Decrease) in Net Interest Income	Percentage Change in Net Interest Income
Down 30 basis points	\$ (2)	\$ (7)	\$ 5	1.5%
No change	—	—	—	—
Up 100 basis points	18	22	(4)	(1.1)%
Up 300 basis points	107	64	43	13.4%
Up 500 basis points	197	105	92	28.4%

(1) Assumes no defaults or prepayments by portfolio companies over the next twelve months.

We expect that our long-term investments will be financed primarily with equity and debt. If deemed prudent, we may use interest rate risk management techniques in an effort to minimize our exposure to interest rate fluctuations. These techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act. Adverse developments resulting from changes in interest rates or hedging transactions could have a material adverse effect on our business, financial condition and results of operations. During the six months ended June 30, 2020 and 2019, we did not engage in interest rate hedging activities.

Foreign Currency Risk

From time to time, we may make investments that are denominated in a foreign currency that are subject to the effects of exchange rate movements between the foreign currency of each such investment and the U.S. dollar, which may affect future fair values and cash flows, as well as amounts translated into U.S. dollars for inclusion in our consolidated financial statements.

Table of Contents

The table below presents the effect that a 10% immediate, unfavorable change in the foreign currency exchange rates (i.e. strengthening of the U.S. dollar) would have on the fair value of our investments denominated in foreign currencies as of June 30, 2020, by foreign currency, all other valuation assumptions remaining constant. In addition, the table below presents the par value of our investments denominated in foreign currencies and the notional amount of foreign currency forward contracts in local currency in place as of June 30, 2020 to hedge against foreign currency risks.

	Investments Denominated in Foreign Currencies As of June 30, 2020				Economic Hedging As of June 30, 2020

Total		\$646.9	\$ 441.3	\$ 44.1		\$ 30.0

(1) Excludes effect, if any, of any foreign currency hedges.

As illustrated in the table above, we use derivative instruments from time to time, including foreign currency forward contracts and cross currency swaps, to manage the impact of fluctuations in foreign currency exchange rates. In addition, we have the ability to borrow in foreign currencies under our Senior Secured Revolving Credit Facility, which provides a natural hedge with regard to changes in exchange rates between the foreign currencies and U.S. dollar and reduces our exposure to foreign exchange rate differences. We are typically a net receiver of these foreign currencies as related for our international investment positions, and, as a result, our investments denominated in foreign currencies, to the extent not hedged, benefit from a weaker U.S. dollar and are adversely affected by a stronger U.S. dollar.

As of June 30, 2020, the net contractual amount of our foreign currency forward contracts totaled \$30.0, all of which related to hedging of our foreign currency denominated debt investments. As of June 30, 2020, we had outstanding borrowings denominated in foreign currencies of €206, CAD \$66, £121 and A\$7 under our Senior Secured Revolving Credit Facility.

In addition, we may have risk regarding portfolio valuation. See “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies—Valuation of Portfolio Investments.”

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) under the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2020.

Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that we would meet our disclosure obligations.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) that occurred during the three month period ended June 30, 2020 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

We are not currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding threatened against us. From time to time, we may be party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of any legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material adverse effect upon our financial condition or results of operations.

Item 1A. Risk Factors.

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risk factors that appeared under Item 1A. “Risk Factors” in our most recent Annual Report on Form 10-K. There are no material changes from the risk factors included within our most recent Annual Report on Form 10-K other than the risks described below.

We have obtained the approval of our stockholders to issue shares of our common stock at prices below the then-current net asset value per share of our common stock, and any such issuance could materially dilute our stockholders’ interest in our common stock and reduce our net asset value per share.

We have obtained the approval of our stockholders to issue shares of our common stock at prices below the then-current net asset value of our common stock, subject to certain conditions, during the twelve-month period concluding on July 15, 2021. Any sale or other issuance of shares of our common stock at a price below net asset value per share would result in an immediate dilution to our common stock and a reduction of our net asset value per share. This dilution would occur as a result of a proportionately greater decrease in a stockholder’s interest in our earnings and assets and voting interest in us than the increase in our assets resulting from such issuance. Such dilutive effects may be material.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In December 2018, the Company’s board of directors authorized a stock repurchase program, or the December 2018 Share Repurchase Program. Under the December 2018 Share Repurchase Program, the Company was permitted to repurchase up to \$200 in the aggregate of its outstanding common stock in the open market at prices below the then-current net asset value per share. The December 2018 Share Repurchase Program has concluded since the aggregate repurchase amount that was approved by the Company’s board of directors has been expended.

During the six months ended June 30, 2020, the Company repurchased 2,823,750 shares of common stock pursuant to the 2018 Share Repurchase Program at an average price per share (inclusive of commissions paid) of \$16.71 (totaling \$47).

As previously disclosed, certain affiliates of the owners of the Advisor committed \$100 to a \$350 investment vehicle that may invest from time to time in shares of the Company. In June 2020, that investment vehicle entered into a written trading plan with a third party broker in accordance with Rule 10b5-1 and Rule 10b-18 promulgated under the Exchange Act, or the Affiliated Purchaser Program, to facilitate the purchase of shares of our common stock pursuant to the terms and conditions of such plan. The Affiliated Purchaser Program provides for the purchase of up to \$100 worth of shares of our common stock, subject to the limitations provided therein.

During the six months ended June 30, 2020, the Affiliated Purchaser Program purchased 305,696 shares of common stock at an average price per share (inclusive of commissions paid) of \$14.02 (totaling \$4). During the period from July 1, 2020 to July 31, 2020, the Affiliated Purchaser Program purchased 1,101,130 shares of common stock at an average price per share (inclusive of commissions paid) of \$14.59 (totaling \$16).

The table below provides information concerning purchases of our shares of common stock by or on behalf of the Company or any “affiliated purchaser,” as defined by Rule 10b-18(a)(3) promulgated under the Exchange Act during the quarterly period ended June 30, 2020. Dollar amounts in the table below and the related notes are presented in millions, except for share and per share amounts. Share and per share amounts in the table below have been retroactively adjusted to reflect the Reverse Stock Split.

CERTIFICATION

I, Michael C. Forman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of FS KKR Capital Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
