5 Change of cost-basis method of computation Select one. Custodial accounts require custodial authorization.

All FS companies except for FS Multi-Strategy Alternatives Fund have chosen the first in, first out ("FIFO") method as the default method to calculate cost-basis for directly held (not in brokerage) non-qualified shares purchased after January 1, 2012 ("Covered Shares"). FS Multi-Strategy Alternatives Fund has chosen the average cost method as the default method to calculate the costbasis for Covered Shares. Complete this section to change the cost-basis election for Covered Shares. Investors should consult with their financial and tax advisor on the most appropriate method. If a shareholder elects to change the cost accounting method applicable to such shareholder's account from "average cost" to another method, and the shareholder has previously elected to use the average cost methodology with respect to shares repurchased by the applicable company or otherwise transferred by the shareholder, all existing lots in his or her account will maintain the average cost-basis accounting methodology. Any shares purchased after the election to change cost accounting method (including shares issued pursuant to the applicable company's distribution reinvestment plan) may utilize the new cost-basis methodology elected. ☐ First in, first out ☐ Last in, first out ☐ Average cost ☐ Specific share identification 6 Electronic communications Initial and provide email if you wish to enroll in paperless e-delivery.
