Non-GAAP Financial Measures

This press release contains certain financial measures that have not been prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). FSIC uses these non-GAAP financial measures internally in analyzing financial results and believes that the use of these non-GAAP financial measures is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing FSIC's financial results with other BDCs.

Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with FSIC's consolidated financial statements prepared in accordance with GAAP. A reconciliation of non-GAAP financial measures to the most directly comparable GAAP measures has been provided in this press release, and investors are encouraged to review the reconciliation.

- 1) Per share data was derived by using the weighted average shares of FSIC's common stock outstanding during the applicable period. Per share numbers may not sum due to rounding.
- 2) Adjusted net investment income is a non-GAAP financial measure. Adjusted net investment income is presented for all periods as GAAP net investment income excluding (i) the accrual for the capital gains incentive fee for realized and unrealized gains; (ii) excise taxes; and (iii) certain non-recurring operating expenses that are one-time in nature and are not representative of ongoing operating expenses incurred during FSIC's normal course of business (referred to herein as one-time expenses). FSIC uses this non-GAAP financial measure internally in analyzing financial results and believes that the use of this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing its financial results with other business development companies. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. A reconciliation of GAAP net investment income to adjusted net investment income can be found above.
- 3) The per share data for distributions reflects the amount of distributions paid on July 5, 2016, to stockholders of record as of the close of business on June 22, 2016.
- 4) See FSIC's quarterly report on Form 10-Q for the quarter ended June 30, 2016, for a description of FSIC's investment strategies.
- 5) Gross portfolio yield represents the expected annualized yield of FSIC's investment portfolio based on the composition of the portfolio as of the applicable date.
- 6) Interest income is recorded on an accrual basis. See FSIC's quarterly report on Form 10-Q for the quarter ended June 30, 2016, for a description of FSIC's revenue recognition policy.
- 7) During the three months ended June 30, 2016, FSIC incurred one-time expenses of \$469 relating to breakage fees associated with the partial paydown of the JPM Facility. These costs were partially offset by a \$94 reduction in FSIC's subordinated incentive fee on income due to the reduction in pre-incentive fee net investment income associated with this one-time expense.
