Words such as "believes," "expects," "projects," and "future" or similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors could cause actual results to differ materially from those projected in these forward-looking statements. Factors that could cause actual results to differ materially include changes in the economy, risks associated with possible disruption in FSK's operations or the economy generally due to terrorism or natural disasters, future changes in laws or regulations and conditions in FSK's operating area, and the price at which shares of FSK's common stock trade on the New York Stock Exchange. Some of these factors are enumerated in the filings FSK makes with the SEC. FSK undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The press release above contains summaries of certain financial and statistical information about FSK. The information contained in this press release is summary information that is intended to be considered in the context of FSK's SEC filings and other public announcements that FSK may make, by press release or otherwise, from time to time. FSK undertakes no duty or obligation to update or revise the information contained in this press release. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. Investors should not view the past performance of FSK, or information about the market, as indicative of FSK's future results.

#### Other Information

The information in this press release is summary information only and should be read in conjunction with FSK's annual report on Form 10-K for the year ended December 31, 2018, which FSK filed with the U.S. Securities and Exchange Commission (the SEC) on February 27, 2019, as well as FSK's other reports filed with the SEC. A copy of FSK's annual report on Form 10-K for the year ended December 31, 2018 and FSK's other reports filed with the SEC can be found on FSK's website at <a href="https://www.fskkrcapitalcorp.com">www.fskkrcapitalcorp.com</a> and the SEC's website at <a href="https://www.fskkrcapitalcorp.com">www.fskkrcapitalcorp.com</a> and the second with the second with the

#### **Certain Information About Distributions**

The determination of the tax attributes of FSK's distributions is made annually as of the end of its fiscal year based upon its taxable income and distributions paid, in each case, for the full year. Therefore, a determination as to the tax attributes of the distributions made on a quarterly basis may not be representative of the actual tax attributes for a full year. FSK intends to update stockholders quarterly with an estimated percentage of its distributions that resulted from taxable ordinary income. The actual tax characteristics of distributions to stockholders will be reported to stockholders annually on Form 1099-DIV.

The timing and amount of any future distributions on FSK's shares of common stock are subject to applicable legal restrictions and the sole discretion of its board of directors. There can be no assurance as to the amount or timing of any such future distributions, including the special distribution referenced herein.

FSK may fund its cash distributions to stockholders from any sources of funds legally available to it, including proceeds from the sale of shares of FSK's common stock, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets and dividends or other distributions paid to it on account of preferred and common equity investments in portfolio companies. FSK has not established limits on the amount of funds it may use from available sources to make distributions. There can be no assurance that FSK will be able to pay distributions at a specific rate or at all.

#### **Non-GAAP Financial Measures**

This press release contains certain financial measures that have not been prepared in accordance with generally accepted accounting principles in the United States (GAAP). FSK uses these non-GAAP financial measures internally in analyzing financial results and believes that the use of these non-GAAP financial measures is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing FSK's financial results with other BDCs.

Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with FSK's consolidated financial statements prepared in accordance with GAAP. A reconciliation of non-GAAP financial measures to the most directly comparable GAAP measures has been provided in this press release, and investors are encouraged to review the reconciliation.

- 1) Per share data was derived by using the weighted average shares of FSK's common stock outstanding during the applicable period. Per share numbers may not sum due to rounding.
- Adjusted net investment income is a non-GAAP financial measure. Adjusted net investment income is presented for all periods as GAAP net investment income excluding (i) the accrual for the capital gains incentive fee for realized and unrealized gains; (ii) excise taxes; and (iii) certain non-recurring operating expenses that are one-time in nature and are not representative of ongoing operating expenses incurred during FSK's normal course of business (referred to herein as one-time expenses). FSK uses this non-GAAP financial measure internally in analyzing financial results and believes that the use of this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing its financial results with other business development companies. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. A reconciliation of GAAP net investment income to adjusted net investment income can be found above.
- 3) Excluding the impact of \$717 million in unrealized appreciation resulting from merger accounting. See FSK's annual report on Form 10-K for the year ended December 31, 2018 for additional information.
- 4) The per share data for distributions reflects the amount of distributions paid per share of our common stock to stockholders of record during each applicable period.
- 5) See FSK's annual report on Form 10-K for the year ended December 31, 2018 for a description of FSK's investment strategies, including its definition of "direct originations."
- Represents the expected annualized yield of FSK's investment portfolio based on the composition of the portfolio as of the applicable date. FSK's estimated gross portfolio yield may be higher than an investor's yield on an investment in shares of FSK's common stock because it does not reflect sales commissions or charges that may be incurred in connection with the purchase or sale of such shares, or operating expenses that may be incurred by FSK. FSK's estimated gross portfolio yield does not represent an actual investment return to stockholders, is subject to change and, in the future, may be greater or less than the rates set forth herein. The weighted average annual yield for accruing debt investments is computed as (i) the sum of (a) the stated annual interest rate of each debt and debt-like investment, multiplied by its par amount, adjusted to U.S. dollars and for any partial income accrual when necessary, as of the end of the applicable reporting period, plus (b) the annual amortization of the purchase or original issue discount or premium of each accreting debt investment; divided by (ii) the total amortized cost of debt investments included in the calculated group as of the end of the applicable reporting period. Asset based finance investments with an effective interest rate are being included in the calculation.
- 7) Purchases do not include investments acquired in connection with the acquisition of CCT.
- 8) Interest income is recorded on an accrual basis. See FSK's annual report on Form 10-K for the year ended December 31, 2018 for a description of FSK's revenue recognition policy.
- 9) Does not include investments on non-accrual status.
- 10) Net debt to equity ratio is debt outstanding, net of cash and foreign currency divided by net assets.
- 11) FSK's one-time expenses for the three months ended September 30, 2018 were \$1 million resulting from the acceleration of the remaining unamortized deferred financing costs associated with the closing of the Hamilton Street Credit Facility.
