Item 8.01. Other Events.

Listing on NYSE

As previously announced, the Company has applied to list its shares of common stock on the New York Stock Exchange LLC ("NYSE") under the symbol "FSIC". The Company anticipates that its shares of common stock will commence trading on the NYSE on or about April 16, 2014, subject to NYSE approval (the "Listing"). There can be no assurance that the Company will be able to complete the Listing within this time frame or at all.

Also as previously announced, the Company anticipates that it will conduct a modified "Dutch auction" tender offer (the "Tender Offer") to purchase up to \$250 million in shares of its common stock in connection with the Listing. The Company currently expects to commence the Tender Offer in conjunction with the Listing on or about April 16, 2014. The terms of the Tender Offer, including the size thereof, will be determined by the Board prior to commencement of the Tender Offer.

Engagement of Advisors

The Company has engaged J.P. Morgan Securities LLC, Wells Fargo Securities, LLC and BofA Merrill Lynch to serve as advisors to the Company in connection with the Listing. Wells Fargo Securities, LLC will serve as sole dealer manager for the proposed Tender Offer.

Potential Purchase of Shares by Franklin Square Holdings, L.P., Management and GSO Capital Partners LP

As previously announced, the Company's sponsor, Franklin Square Holdings, L.P. ("Franklin Square Holdings"), has informed the Company that it is considering purchasing, following the Listing and completion of the Tender Offer, up to \$100 million in shares of the Company's common stock in open-market transactions (which may include purchases pursuant to 10b5-1 plans), subject to restrictions under applicable law. In addition, the Company has also been informed by certain members of the Company's management and members of management of Franklin Square Holdings that they are considering purchasing, following the Listing and completion of the Tender Offer, up to \$25 million in shares of the Company's common stock in open-market transactions (which may include purchases pursuant to 10b5-1 plans), subject to restrictions under applicable law. Franklin Square Holdings and members of the Company's and Franklin Square Holdings' management do not intend to participate in the Tender Offer.

In addition, GSO Capital Partners LP ("GSO"), the credit platform of The Blackstone Group L.P. and the parent of the Company's investment sub-adviser, has informed the Company that it and certain of its affiliates are considering purchasing, following the Listing and completion of the Tender Offer, up to \$50 million in shares of the Company's common stock in open-market transactions (which may include purchases pursuant to 10b5-1 plans), subject to restrictions under applicable law. GSO and its affiliates do not intend to participate in the Tender Offer.

Reduction of Base Management Fee and Proposed Amendment of Incentive Fee Hurdle Rate

Pursuant to the Company's investment advisory and administrative services agreement with FB Income Advisor, LLC, its investment adviser ("FB Advisor"), dated as of February 12, 2008 and amended on August 5, 2008 (the "Advisory Agreement"), the Company has agreed to pay FB Advisor a base management fee of 2.0% of the average value of the Company's gross assets, payable on a quarterly basis in arrears, as well as incentive fees based on the performance of the Company's portfolio. The first part of the incentive fee is the subordinated incentive fee on income. The subordinated incentive fee on income, which is calculated and payable quarterly in arrears, equals 20.0% of "pre-incentive fee net investment income" for the immediately preceding quarter and is subject to a hurdle rate, expressed as a rate of return on adjusted capital, as defined in the Advisory Agreement, equal to 2.0% per quarter, or an annualized hurdle rate of 8.0%. In connection with the Company's 2013 annual meeting of stockholders, the Company received stockholder approval to amend the Advisory Agreement effective upon the Listing. Upon the Listing, the hurdle rate used to compute the subordinated incentive fee on income payable under the Advisory Agreement will be based on the net asset value of the Company's assets rather than adjusted capital. In addition to the amendments approved by stockholders, the subordinated incentive fee on income will become subject to a total return requirement, which provides that no incentive fee in respect of the Company's pre-incentive fee net investment income will be payable except to the extent that 20.0% of the cumulative net increase in net assets resulting from operations over the then-current and eleven preceding calendar quarters exceeds the cumulative incentive fees accrued and/or paid for the eleven preceding calendar quarters.

In anticipation of the Listing, FB Advisor has recommended that the Advisory Agreement be amended to (i) reduce the annualized hurdle rate used in connection with the calculation of the subordinated incentive fee on income from 8% to 7.5% and (ii) assuming the reduction to the hurdle rate is approved, reduce the base management fee from 2.0% to 1.75% of the average value of the Company's gross assets. The Board will consider these proposals and, if approved, will submit the proposals to the Company's stockholders at the next regularly-scheduled meeting of stockholders. Pending Board and stockholder approvals of both of these proposals, FB Advisor has agreed, effective April 1, 2014, to waive a portion of the base management fee to which it is entitled under the Advisory Agreement so that the fee received equals 1.75% of the average value of the Company's gross assets.

Management of the Company

The Company reported that Brad Marshall, a Managing Director of GSO, has also been appointed as an officer of the Company effective April 1, 2014 and will continue to serve in his role as the Company's Senior Portfolio Manager. He will join the Company's other officers, which include:

Michael C. Forman, Chairman of the Board and Chief Executive Officer;
Gerald F. Stahlecker, President;
Zachary Klehr, Executive Vice President;
Sean Coleman, Managing Director;
William Goebel, Chief Financial Officer;
Salvatore Faia, Chief Compliance Officer; and
Stephen S. Sypherd, Vice President, Treasurer and Secretary.

In addition, the Board is considering the addition of Daniel H. Smith, a Senior Managing Director of GSO, as a potential new member of the Board.

Other Information

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon its taxable income and distributions paid, in each case, for the full year. Therefore, a determination as to the tax attributes of the distributions made on a quarterly basis may not be representative of the actual tax attributes for a full year. The Company intends to update stockholders quarterly with an estimated percentage of its distributions that resulted from taxable ordinary income. The actual tax characteristics of distributions to stockholders will be reported to stockholders annually on Form 1099-DIV.

The payment of future distributions on shares of the Company's common stock is subject to the discretion of the Board and applicable legal restrictions, and therefore, there can be no assurance as to the amount or timing of any such future distributions.

This Current Report on Form 8-K is for informational purposes only and is not an offer to buy or the solicitation of an offer to sell any securities of the Company. The Tender Offer will be made only pursuant to an offer to purchase, letter of transmittal and related materials (the "Tender Materials") that the Company intends to distribute to its stockholders and file with the SEC upon the commencement of the Tender Offer. The full details of the Tender Offer, including complete instructions on how to tender Shares, will be included in the Tender Materials. Stockholders are urged to carefully read the Tender Materials when they become available because they will contain important information, including the terms and conditions of the Tender Offer. Stockholders may obtain free copies of the Tender Materials that the Company files with the SEC at the SEC's website at: www.sec.gov or by calling the information agent who will be identified in the Tender Materials. Similarly, there can be no assurance that GSO or any its affiliates will purchase any shares of the Company's common stock.

LISTING UPDATE

Important considerations

An investment in the common stock of FS Investment Corporation (FSIC, we or us) involves a high degree of risk and may be considered speculative. The following are some of the risks an investment in our common stock involves; however, you should carefully consider all of the information found in the section of our Forms 10-Q and 10-K filings entitled "Risk Factors" and in our other public filings before deciding to invest in shares of our common stock.

- An investment strategy focused primarily on privately held companies presents certain challenges, including the lack of available information about these companies.
- Investing in middle-market companies involves a number of significant risks, any one of which could have a material adverse effect on our operating results.
- A lack of liquidity in certain of our investments may adversely affect our business.
- We are subject to financial market risks, including changes in interest rates, which may have a substantial negative impact on our investments.
- We have borrowed funds to make investments, which increases the volatility of our investments and may increase the risks of investing in our securities.
- We have limited operating history and are subject to the business risks and uncertainties associated with any new business.
- Our distributions may be funded from unlimited amounts of offering proceeds or borrowings, which may constitute a return of capital and reduce the amount of capital available to us for investment.

This presentation is for informational purposes only and is not an offer to buy or the solicitation of an offer to sell any securities of FSIC. The tender offer will be made only pursuant to an offer to purchase, letter of transmittal and related materials (the Tender Materials) that FSIC intends to distribute to its stockholders and file with the Securities and Exchange Commission (SEC). The full details of the tender offer, including complete instructions on how to tender shares of common stock, will be included in the Tender Materials, which FSIC will distribute to stockholders and file with the SEC upon the commencement of the tender offer. Stockholders are urged to carefully read the Tender Materials when they become available because they will contain important information, including the terms and conditions of the tender offer. Stockholders may obtain free copies of the Tender Materials that FSIC files with the SEC at the SEC's website at: www.sec.gov or by calling the information agent who will be identified in the Tender Materials. FSIC listing operational review

ACCOUNT FREEZE	Expected to begin approximately two weeks prior to listing.
DISTRIBUTION REINVESTMENT PLAN (DRP)	<p>Will be terminated shortly prior to listing subject to the occurrence of a listing. After listing, a new DRP may be put into place so stockholders can again reinvest monthly distributions in additional shares of FSIC.</p> <p>If the current DRP is terminated, pending the adoption of a new DRP, stockholders that had elected to participate in the current DRP will receive cash rather than shares in respect of any cash distribution declared by FSIC.</p>
FRACTIONAL SHARES	The mechanics required for transferring shares in order for FSIC to list will not accept fractional shares. If an investor owns any fractional shares in FSIC, FSIC expects to "round up" the number of fractional shares held by stockholders immediately prior to a listing to the nearest whole number of shares.
